CAREER FIELD EDUCATION AND TRAINING PLAN (CFETP) BATTLE MANAGEMENT OPERATIONS
AFSC 1C5X1

Preface

1. This CFETP is a comprehensive education and training document that identifies life cycle education and training requirements, training support resources, and minimum core task requirements for this specialty. This CFETP provides personnel with a clear career path to success and instills rigor in all aspects of career field training. **Note:** Civilians occupying associated positions use Part II to support duty position qualification training.

2. This CFETP consists of two parts; supervisors plan, manage, and control training within the specialty using both parts of the plan.

2.1. **Part I** provides information necessary for overall management of the specialty. Section A explains how individuals will use the plan; Section B identifies career field progression information, duties and responsibilities, training strategies, and career field path; Section C associates each level with specialty qualifications (knowledge, education, experience, training, and other); and Section D indicates resource constraints. Some examples are funds, manpower, equipment, facilities; Section E identifies transition training guide requirements for E-5 through E-7.

2.2. **Part II** includes the following: Section A: identifies the STS and includes duties, tasks, proficiency codes to support training, AETC conducted training, wartime course and core task and correspondence course requirements. Section B: contains the course objective list and training standards supervisors use to determine if service members satisfy training requirements. Section C: identifies available support materials. An example is a qualification training package, which may be developed to support proficiency training; Section D: identifies a training course index supervisors can use to determine resources available to support training. Included here are both mandatory and optional courses; Section E: identifies MAJCOM unique training requirements supervisors can use to determine additional training required for the associated qualification needs. At unit level, supervisors and trainers use **Part II** to identify, plan, and conduct training commensurate with the overall goals of this plan.

3. Using CFETP guidance ensures individuals in this specialty receive effective and efficient training at the appropriate points in their career. This plan enables us to train today's work force for tomorrow's jobs.

Abbreviations/Terms Explained:

This section provides a common understanding of the terms that apply to the Battle Management Operations (BMO) CFETP.

Air Force Career Field Manager (AFCFM). Representative appointed by the respective HQ USAF Deputy Chief of Staff or Under Secretariat, to ensure assigned AF specialties are trained and utilized to support AF mission requirements. AF Career Field Manager is the OPR; however, works in concert with MAJCOM Functional Managers as required.

AF Okta. AF Okta is the Air Force's enterprise identity and access management solution that provides secure single sign-on (SSO) and multi-factor authentication (MFA) for accessing official personnel, administrative, and mission systems. It enables Airmen, Guardians, and civilians to log in once and seamlessly access multiple platforms such as AMS, BLSDM, myVector, and vMPF, while ensuring compliance with Department of War (DoW) cybersecurity standards. https://af.okta.mil/

Air and Space Expeditionary Force (AEF). The Air Force's legacy force presentation model for organizing, training, equipping, and deploying forces. It ensures predictable deployment cycles and balances operational tempo.

Air Education Training Command (AETC). Responsible for recruiting, training, and educating Airmen. For BMO, AETC develops and delivers technical training courses, professional military education, and continuing education programs that shape the career field.

Air Force Force Generation (AFFORGEN). AFFORGEN is the Air Force's model for presenting ready forces to the Joint Force in a predictable, sustainable cycle. It replaces the legacy Air Expeditionary Force (AEF) construct with a four-phase cycle—Reset, Prepare, Certify, and Available to Commit—designed to balance readiness, force availability, and Airmen resilience. AFFORGEN ensures units have time to recover from deployments, train to required standards, and certify readiness before being tasked again.

Air Force Job Qualification Standard/Command Job Qualification Standard (AFJQS/ CJQS). Comprehensive task lists describing duty positions. Supervisors use them to document task qualifications. In BMO, AFJQS/CJQS ensure Airmen are trained to standard in surveillance, weapons control, tactical data link management, and battle management operations.

Air Force Portal. The Air Force's secure intranet, providing access to personnel systems, applications, and collaboration tools. https://www.my.af.mil

Air Force Tactics, Techniques and Procedures (AFTTP). Operational methods that implement joint doctrine. While often associated with combat operations, AFTTPs also guide support functions like personnel accountability in deployed environments.

Assignment Management System (AMS). Online platform for assignment preferences and career management.

Career Development Course (CDC). Self-paced study materials that deliver the knowledge component of upgrade training, complementing on-the-job training (OJT). CDCs are mandatory for skill-level progression and ensure BMO Airmen gain the technical expertise required for their career field.

Career Field Education and Training Plan (CFETP). The core training document for each AFSC. For BMO, the CFETP outlines training requirements, career progression, and core tasks, ensuring Airmen receive standardized, effective training.

Chief Enlisted Manager (CEM) Code. Identifies CMSgt positions and denotes senior enlisted leaders with broad managerial responsibilities.

Combat Mission Ready (CMR). A Battle Management Operations member who has satisfactorily completed initial qualification training and mission qualification training and maintains qualification and proficiency in the command or unit operational mission.

Competency. A measurable cluster of knowledge, skills, abilities, and behaviors required for effective performance. The Department of the Air Force (DAF) is transitioning to a competency-based framework for force development, ensuring Airmen are prepared not only for technical tasks but also for leadership and operational challenges. For BMO, competencies include communication, problem-solving, readiness management, and human-centered service delivery.

Computer Based Training (CBT). Training delivered electronically, allowing Airmen to complete courses at their own pace. BMOs may administer CBTs for personnel systems or readiness requirements.

Core Task. Tasks identified by the AFCFM as minimum qualification requirements for all Airmen in the AFSC. Core tasks ensure standardization across the career field.

DAF eLearning. DAF eLearning is the enterprise online training platform that provides Airmen, Guardians, and civilians access to thousands of web-based courses, certifications, and professional development resources. It offers content ranging from leadership and management to technical and IT skills, supporting both mission readiness and individual growth. For BMO professionals, DAF eLearning is a key tool for tracking and promoting continuous learning, ensuring Airmen have access to self-paced development opportunities that align with force development goals and career progression requirements. https://usaf.percipio.com/

Department of the Air Force Enlisted Classification Directory (DAFECD). The official directory of enlisted AFSCs, codes, and identifiers. It defines the occupational structure of the enlisted force. BMO professionals use the DAFECD to classify Airmen, manage assignments, and ensure proper utilization.

Enlisted Development Team (EDT). A senior-level forum of functional leaders and subject matter experts that manages enlisted development within an AFSC. The EDT vectors Airmen for key opportunities such as special duties, PME, and leadership roles, aligning growth with enterprise needs.

Envision. The Air Force's enterprise talent management and career planning platform that integrates personnel data, developmental education, and career vectoring tools. https://envision.af.mil/

Field Training. Technical, operator, and other training, either a training detachment or field training team conducts at operational locations on specific systems and associated direct-support equipment.

Functional Area Manager (FAM). The individual responsible for managing personnel and equipment within a specific functional area to support operational planning and execution. BMO FAMs develop policy, manage Unit Type Codes (UTCs), and monitor readiness reporting to ensure the career field can meet contingency requirements.

Functional Manager (FM). An individual assigned responsibility for training, classification, utilization, and career development of personnel within a functional community. For BMO, FMs at MAJCOM or HQ levels ensure consistency in training and utilization across the enterprise.

Initial Skills Training (IST). A formal school course that results in an AFSC 3-skill level award for enlisted

Key Developmental Positions (KDP). Assignments that provide advanced leadership experience and technical depth. For BMO, KDPs may include Superintendent, Training NCOIC, or MAJCOM staff roles. These positions prepare Airmen for higher leadership responsibilities.

Key Leadership Positions (KLP). Critical, "no-fail" positions requiring mission-tested leaders with advanced education, training, and experience. For BMO, KLPs include MAJCOM Functional Advisors, HQ staff positions, and senior enlisted leadership roles where decisions directly impact readiness.

MAJCOM Functional Manager (MFM). Managers responsible for training and utilization of personnel within MAJCOM and AFSC. MFMs provide feedback to the AFCFM, ensuring field concerns are addressed and training remains relevant.

On-the-Job Training (OJT). Hands-on, "over-the-shoulder" training or evaluation conducted to certify personnel in both upgrade (skill level award) and job qualification (position certification training).

Qualification Training. Training designed to qualify an Airman in a specific position that occurs after upgrade training.

Qualification Training Package (QTP). An instructional package designed for use at the unit to qualify, or aid qualification, in a duty position or program, or on a piece of equipment. It may be printed, computer based, or in other audiovisual media.

Resource Constraints. Resource deficiencies, such as money, facilities, time, manpower, and equipment that preclude desired training from being delivered.

Specialty Training. The total training process used to qualify Airmen in their specialty.

Specialty Training Standard (STS). An AF publication that describes an AF Specialty in terms of tasks and knowledge an Airman in that specialty may be expected to perform or to know on the job. Also identifies the training provided to achieve a 3-, 5-, or 7-skill level within an enlisted AF Specialty. It further serves as a contract between AETC and the functional user to show which of the overall training requirements for an AFSC are taught in formal schools and correspondence courses.

Standard. An exact value, a physical entity, or abstract concept, the appropriate authority, custom, or common consent sets up and defines to serve as a reference, model, or rule in measuring quantities or qualities, developing practices or procedures, or evaluating results. A fixed quantity or quality.

Specialty Training Requirements Team (STRT)/Utilization & Training Workshop (U&TW). Forums used to determine education and training requirements, by bringing together the expertise to establish the most effective mix of formal and on-the-job training for each AF Specialty skill level. Also used to create or revise training standards and set responsibilities for providing training.

Total Force. All collective AF components (active, reserve, guard, and civilian elements) of the United States Air Force.

Training Records. Utilize the AF approved training record maintenance system.

Training Capability. The ability of a unit or base to provide training. Authorities consider the availability of equipment, qualified trainers, and study reference materials, and so on in determining a unit's training capability.

Upgrade Training (UGT). Mandatory training that leads to attainment of higher-level proficiency.

Wartime Task. Those tasks that must be taught when courses are accelerated in a wartime environment. In response to a wartime scenario, these tasks will be taught in the Battle Management Operations 3-level course in a streamlined training environment. These tasks are only for those career fields that still need them applied to their schoolhouse tasks.

PART I

Section A – General Information

1. **Purpose.** This CFETP provides information necessary for the Air Force Career Field Manager (AFCFM), MAJCOM Functional Managers (MFMs), commanders, training managers, supervisors, and trainers to plan, develop, manage, and conduct an effective and efficient 1C5X1 career field training program. The plan outlines the training that individuals in AFSC 1C5X1 must receive in order to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, advanced and proficiency training. Initial skills training is the Air Force specialty specific training an individual receives upon entry into the Air Force or upon retraining into this specialty for award of the 3-skill level. Normally, this training is conducted by AETC at one of the technical training centers. Upgrade training identifies the mandatory courses, task qualification requirements, and correspondence course completion requirements for award of the 3-, 5-, 7-, 9-skill level Qualification training is actual hands-on task performance training designed to qualify a member in a specific duty position. This training program occurs both during and after the upgrade training process. It is designed to provide the performance skills and knowledge required to do the job. Advanced training is formal specialty training used for selected service members. Proficiency training is additional training, either in-residence or exportable advanced training courses, or OJT provided to personnel to increase their skills and knowledge beyond the minimum required for upgrade. The CFETP has several purposes, some are:

1.1 Serves as a management tool to plan, manage, conduct, and evaluate a career field's training program. Also, it is used to help supervisors identify training at the appropriate point in an individual's career.

1.2 Identifies task and knowledge training requirements for each skill-level in the specialty and recommends education and training throughout each phase of an individual's career.

1.3 Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

1.4 Identifies major resource constraints that impact full implementation of the desired career field training process.

2. Uses. The plan is used by MFMs, flight chiefs, superintendents, and supervisors at all levels to ensure comprehensive and cohesive training programs are available for everyone in the specialty.

2.1 AETC training personnel develop or revise formal resident, nonresident, field, and exportable training based upon requirements established by the users and documented in Part II of this CFETP. They also work with the AFCFM to develop acquisition strategies for obtaining resources needed to provide identified training.

2.2 MFMs ensure their training programs complement the CFETP mandatory initial, upgrade, and proficiency requirements. OJT, resident training, contract training, or exportable courses can satisfy identified requirements. Ensure MAJCOM-developed training to support this AFSC is identified for inclusion into the plan.

2.3 Each individual completes the mandatory training requirements specified in this plan. The list of courses in Part II is used as a reference to support training.

2.4 All training is documented in TBA 2.0. This training is validated by trained flight examiners and documented on an AF Form 8, *Certificate of Aircrew Qualification,* which is maintained in qualification/certification training folders. Positional qualification on the AF Form 8, or positional certification annotated on a like form, eliminates the requirement to document STS items in this CFETP.

3. **Coordination and Approval**. The AFCFM is the approval authority. MFMs and AETC training managers will identify and coordinate on the career field training requirements. The AFCFM will initiate an annual review of this document and coordinate with AETC and the MFMs to ensure currency and accuracy. Send

applicable inputs/changes to this CFETP through MFMs to HQ USAF/A34C, to the following organizational email address: AF.A34C.Workflow@us.af.mil.

Section B – Career Field Progression and Information

4. Specialty Description. The information listed below can be found in the Department of the Air Force Enlisted Classification Directory (DAFECD), which contains current and complete specialty qualification data.

4.1 Specialty Summary. Manages and operates Battle Management Command and Control (BMC2) systems. Performs surveillance, identification, weapons control, tactical data link management, radar, communications, and computer system management. Coordinates Personnel Recovery (PR) and Search and Rescue (SAR). Counters electronic attack (EA) with electronic protection (EP) actions. Provides positive and procedural control and monitoring of aircraft and air weapons during offensive and defensive air operations. Makes decisions in the conduct of battle management air operations and system equipment management at the tactical and operational level of war. Related DoD Occupational Subgroup: 122100.

4.2 Duties and Responsibilities.

4.2.1 Operates BMC2 systems when assigned to an Air Operations Center (AOC), Air Defense Battle Control Center (BCC), Air Support Operations Center (ASOC), or Control and Reporting Center (CRC). As a crew member of an operational unit, Airmen are tasked to produce, disseminate, and execute the Air Tasking Order (ATO); Airspace Control Order (ACO); Special Instructions (SPINS); Operational Tasking Data Link (OPTASKLINK); Tactical Operational Data (TACOPDAT); maintain both the Tactical and Common Operational Picture (COP), and any associated changes.

4.2.2 Executes at the tactical or operational level to meet component commander objectives by cording and integrating air, space, ground, maritime, and cyber effects in support of operations. Interprets sensor data to generate console displays in order to compare and report track positions based on flight data or database files. Conducts mission planning and performs surveillance, weapons control, tactical data link and data management functions. Performs EP functions while maintaining sensor sensitivity using EP techniques to eliminate degradation caused by EW activities or other influences. Monitors operations of sensor inputs, countermeasure consoles, anti-jamming displays, and enhances sensor presentation.

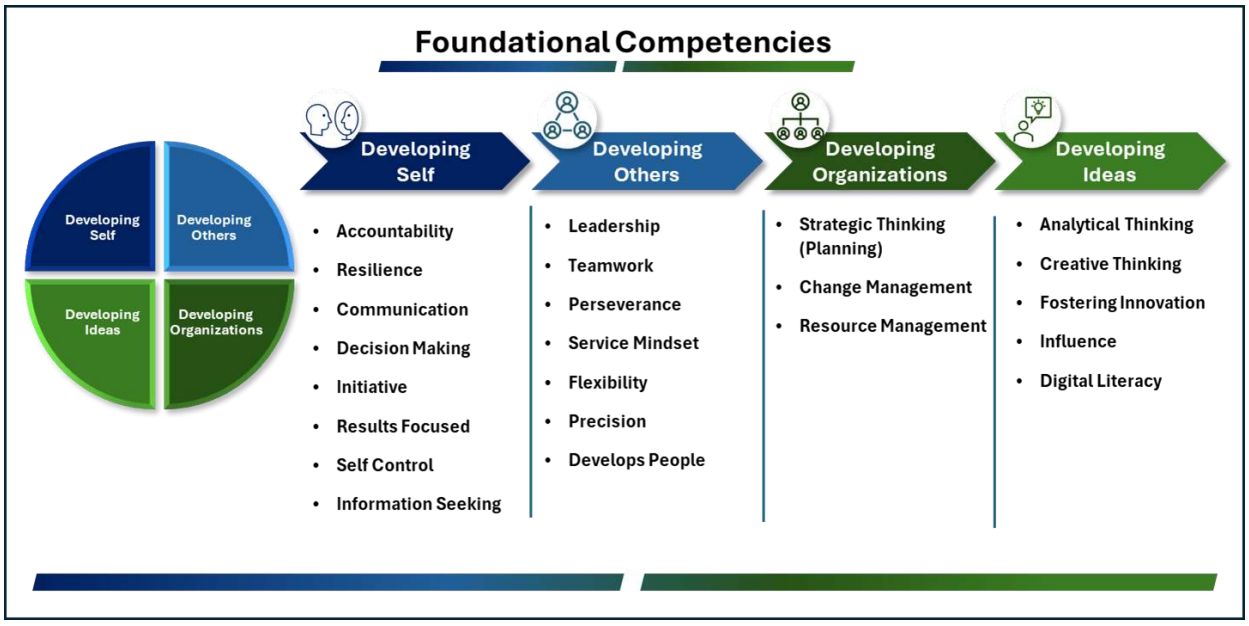

4.2.3 Performs training, planning, standardization and evaluation, and other staff duty functions. Performs staff assistance visits to subordinate units. Tests and evaluates capabilities of new equipment and propriety of new procedures.

4.3 Competencies. The Air Force defines competencies as a combination of knowledge, skills, abilities, and other characteristics that manifest in observable and measurable patterns of behaviors required for mission success. The Battle Management Operations community has rebuilt the entire training platform by using competencies to identify the behaviors that are needed to be successful on the job. This has been accomplished by identifying and integrating the 1C5X1, Battle Management Operations occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides all Airmen with transparent and unbiased pathways towards their own successful development.

4.3.1 Airmen's Foundational Competencies. The foundational competencies are a set of accepted and valued competencies, which enable success across a wide array of DAF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation. The foundational competencies are grouped into different categories of Developing Self, Developing Others, Developing Ideas, and Developing Organization. Airmen can go to MyVector (accessible via AF Portal) to complete a self-assessment, which will have them evaluate themselves on the 23 Airmen's foundational competencies or a 360-degree assessment, where subordinates, peers, and leaders can also provide feedback. The assessment tools will provide Airmen with immediate feedback on personal strengths and areas for improvement. Additionally, a personal improvement plan with targeted resources (videos,

reading content, developmental opportunities) are provided for continued self-development

Figure 1. Airmen's Foundational Competencies

4.3.2 Occupational Competencies. Occupational competencies are a set of competencies required of all Airmen within a specific workforce category. These competencies provide a framework that describes the knowledge, skills, abilities, and other characteristics needed to perform that function's mission successfully.

4.3.2.1 Occupational Competency Model. A career field's competencies can be viewed in a competency model, which is an organized collection of competencies pertinent to the career field. The occupational competency model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the Battle Management Operations community. The occupational competency modeling process follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, on-the-job training, formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives.

4.3.2.2 Career fields work with trained competency experts to identify and develop their competency model, which consists of the competencies, sub-competencies, and definitions. Occupational competency models will be different for each career field. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery competencies required for Airmen to succeed in their career field.

Figure 2. 1C5X1, Battle Management Operations Test Station and Components, Occupational Competency

Competency	Sub-Competency	Sub-Competency Description
Management	Personnel Management	The management of people through deliberate planning, direction, and organization to maximize mission performance and success.
	Resource Management	Processes and techniques used to ensure resources are available and appropriately utilized to achieve desired outcomes.
	Readiness	Optimizing personnel, equipment, training, sustainability, and adaptability for effective mission execution.
Development	Career Development	Steps taken to achieve professional goals, build effective battle management skill sets, embody the core competencies, and map out required experiences for development and progression.
	Training	The development, application, and instruction of tactics, and techniques used to accomplish battle management functions to meet desired proficiency.
Mission Execution	Operational Level Execution	The process of achieving strategic goals by planning, monitoring, and assessing combined/joint all domain effects.
	Tactical Level Execution	The application of joint and combined battle management execution to achieve operational and strategic objectives.
	Battle Management Principles	The management of assets with a focus on prioritizing weapons, sensors, and fuel utilized within the continuum of control to optimize force packaging for desired mission effects.
	Planning	The process of defining requirements, allocating capabilities, and preparing teams to achieve operational and strategic objectives with post mission analysis to capture best practices.
	Communications/Information Sharing	The process of gathering and sharing information as a force multiplier to enhance mission accomplishment.

Model

4.3.2.3 Occupational Competency Rubric. After a model is developed, a team of subject matter experts begin building competency rubrics, which consists of competency, sub-competency, a description of the sub-competency, proficiency levels, and measurable and observable behaviors. The competency rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional developmental expectations, and the criteria for success. Figure 3 provides an example of a competency rubric for 1C5X1 career field.

Figure 3. 1C5X1, Battle Management Operation, Occupational Competency Rubric for Mission Execution

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	1. Develops innovative solutions for operational challenges to achieve objectives 2. Initiates systems, equipment, and capability improvements to enhance mission effectiveness
Sub-Competency Operational Level Execution	***Advanced*** Depth of Knowledge: New practices of all workplace elements	1. Integrates combined/joint all-domain systems and effects to support operational objectives 2. Develops communication plans and procedures with organizations and agencies to meet mission requirements 3. Evaluates/innovates processes, systems, and equipment solutions to ensure follow-on planning efforts
Description The process of achieving strategic goals by planning, monitoring, and assessing combined/joint all domain effects.	***Intermediate*** Depth of Knowledge: Established practices of all workplace elements	1. Ensures coordination with organizations and agencies to accomplish ATO requirements 2. Manages processes, systems, and equipment to ensure effective ATO planning and execution 3. Validates instructions and orders to support operational objectives
Supporting Competencies Communication Analytical Thinking Strategic Thinking Teamwork	***Basic*** Depth of Knowledge: Established practice with some workplace elements	1. Executes work center tasks to accomplish the mission 2. Determines appropriate tools, formats, and methods to meet mission requirements 3. Coordinates with required agencies to facilitate ATO planning and execution

4.3.2.4 To better understand how to read and utilize the competency rubric, a breakdown of each component is explained below in figure 4a-c.

Competency Mission Execution	←	The competency section states the competency group.
Sub-Competency Operational Level Execution	←	The sub-competency section states the narrower category that forms part of the competency group. **Note:** Some models may only consist of a competency and not include a sub-competency.
Description The process of achieving strategic goals by planning, monitoring, and assessing combined/joint all domain effects.	←	The description section provides a statement that gives details about the sub-competency, enabling career field members to better understand how sub-competency relates to the AFS.
Supporting Competencies	←	The supporting competencies section are supported-level competencies that are linked to the success of the sub-

Communication Analytical Thinking Strategic Thinking Teamwork		competency. These competencies lend themselves more toward areas like values, traits, and attitudes. These competencies were included as part of a larger survey that went out to the entire AFS; respondents were asked to rate the top supporting competencies they believe will attribute to higher successful performance within the sub-competency.

Figure 4a. Competency Rubric Section 1.

Proficiency Levels	←	The proficiency levels are broken into four parts: basic, intermediate, advanced, and expert. Under each proficiency level are predetermined criteria selected by a group of Subject Matter Experts (SMEs) from your career field and validated by the career field. The criteria were used as the basis to develop the observable behaviors. These criteria provide concrete parameters for the behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert. Some of the criteria (e.g. depth of knowledge, consistency of application/complexity, and thinking challenge) allows an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to a variety of situations. While other criteria (e.g. scope, impact, and reach of influence) requires more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving through the proficiency levels may be difficult to do in certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e. at HHQ, Wing, or an organization with far reaching capabilities).
Expert **Depth of Knowledge:** New practices/concepts and theories of all workplace elements; is a credible resource in this area		
Advanced **Depth of Knowledge:** New practices of all workplace elements		
Intermediate **Depth of Knowledge:** Established practices of all workplace elements		
Basic **Depth of Knowledge:** Established practice with some workplace elements		

Figure 4b. Competency Rubric Section 2.

Observable Behaviors	←	The observable behaviors are statements of what can be observed from an individual manifesting the competency at the respective competency level. They provide objective evidence that the individual possesses the competency level, and shows what effective performance looks like. The behaviors are written to be specific enough so they can be observable and lend themselves towards measurement.
1. Develops innovative solutions for operational challenges to achieve objectives 2. Initiates systems, equipment, and capability improvements to enhance mission effectiveness		
1. Integrates combined/joint all-domain systems and effects to support operational objectives 2. Develops communication plans and procedures with organizations and agencies to meet mission requirements 3. Evaluates/innovates processes, systems, and equipment solutions to ensure follow-on planning efforts		
1. Ensures coordination with organizations and agencies to accomplish ATO requirements 2. Manages processes, systems, and equipment to ensure effective ATO planning and execution 3. Validates instructions and orders to support operational objectives		
1. Executes work center tasks to accomplish the mission 2. Determines appropriate tools, formats, and methods to meet mission requirements 3. Coordinates with required agencies to facilitate ATO planning and execution		

Figure 4c. Competency Section 3.

4.3.3 Another key component within the rubric is the supporting competencies section at the bottom left-hand corner. These are the top four supporting competencies that can help members excel and be successful in that particular sub-competency. Some of these supporting competencies are tied directly to the Airmen's Foundational Competencies, while others may be unique to the career field. Having these supporting competencies identified and linked to a career field's competency model can cultivate those underlying characteristics needed to succeed on the job. Leaders, supervisors, trainers, instructors, or mentors can now set members up for greater success by building these supporting competencies and

placing their Airmen in situations where they can apply those strategies. All of these elements come together to ensure we can develop Airmen who are better prepared, present and future mission focused, and ready to succeed in any situation. Additionally, DAFMAN 36-2643, *Air Force Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

4.3.4 Competency Development. The intent of moving towards a competency-based system is to sharpen our Airmen's tactical expertise, operational competence, strategic vision, and joint proficiency to lead and execute the full spectrum of USAF missions. This occurs not in a classroom but on the job by combining education, training, and experiences to provide Airmen with a better developmental pathway as they move along their careers. Airmen are still required to complete specific training courses, core tasks, and other training requirements in order to attain a 3-, 5-, and 7-skill levels. Competency development allows Airmen to move beyond the minimum career field requirements and begin addressing developmental gaps and strengthening their capabilities. The information included within the competency model will allow members within the Battle Management Operations community to manage their professional growth and development by identifying their strengths and weaknesses against clear and objective behaviors within the competency model.

4.3.5 Below are the competency rubrics for the 1C5X1, Battle Management Operations, career field.

<table>
<tr><th>Competency</th><th>Proficiency Levels</th><th>Observable Behaviors</th></tr>
<tr><td>Management</td><td>Expert
Reach of Influence:
MAJCOM/AF-Level</td><td>1. Directs career-broadening opportunities and assignments to support mission requirements
2. Establishes guidance to meet sustainment needs and evolving strategic requirements
3. Prioritizes manpower across missions and organizations, aligning force structure to uphold National Security priorities</td></tr>
<tr><td>Sub-Competencies</td><td rowspan="2">Advanced
Reach of Influence:
Group/Squadron</td><td rowspan="2">1. Cultivates mission-ready Airmen while deliberately allocating available personnel to prioritize mission requirements
2. Fosters a culture of teamwork to generate new ideas for mission execution and process improvement</td></tr>
<tr><td>Personnel Management</td></tr>
<tr><td>Description</td><td rowspan="2">Intermediate
Reach of Influence:
Work center</td><td rowspan="2">1. Establishes duty requirements and sets performance expectations by delivering deliberate and measurable feedback
2. Guides subordinates through career field specific training and development opportunities to maximize personnel effectiveness</td></tr>
<tr><td>The management of people through deliberate planning, direction, and organization to maximize mission performance and success.</td></tr>
<tr><td>Supporting Competencies</td><td rowspan="2">Basic
Reach of Influence:
Individuals</td><td rowspan="2">1. Participates in feedback and counseling sessions to enhance individual performance and establish baseline performance
2. Practices self and peer accountability to carry out duties, instructions, and responsibilities
3. Practices decision-making at the lowest level and escalates issues through the appropriate chain-of-command to uphold good order and discipline</td></tr>
<tr><td>Communication
Accountability
Leadership
Decision Making</td></tr>
</table>

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Impact on: AF-level practices/within industry	1. Executes acquired resource allocations to fulfill requirements 2. Directs organizational and command leadership to field resources 3. Steers doctrine and/or policy for long-range planning efforts and future concepts
Sub-Competency	***Advanced*** Impact on: Management decisions	1. Secures resources to eliminate deficiencies 2. Prioritizes allocation of unit funds to align with organizational requirements 3. Utilizes proper channels for resource acquisition 4. Analyzes resource utilization to project for future requirements 5. Evaluates threat intelligence against the unit's current security posture and recommends specific changes to COMSEC, INFOSEC, or physical security practices, directly informing leadership decisions on resource protection 6. Assesses the impact of a significant, unplanned resource outage on mission objectives and provides real-time analysis and recommendations to leadership, enabling informed decisions
Resource Management		
Description	***Intermediate*** Impact on: Specific workplace projects	1. Communicates resource needs to address or prevent mission degradation and mitigate capability gaps 2. Stewards resources to maximize work center effectiveness 3. Identifies degradation of resources and/or shortfalls and coordinates assistance to restore capability 4. Monitors mission resources and intervenes to effectuate CC intent
Processes and techniques used to ensure resources are available and appropriately utilized to achieve desired outcomes.		
Supporting Competencies	***Basic*** Impact on: Specific workplace tasks	1. Identifies resources (e.g., materiel, equipment, time, assets, processes) needed to execute mission requirements 2. Utilizes resources to accomplish assigned tasks 3. Communicates resource needs to overcome deficiencies
Resource Management Analytical Thinking Communication Decision Making		

Competency	Proficiency Levels	Observable Behaviors
Management	***Expert*** Reach of Influence: Group/Wing	1. Evaluates mission requirements and resources for world-wide mobilization based on analysis of unit readiness reporting 2. Solves readiness challenges based on current and future missions
Sub-Competency	***Advanced*** Reach of Influence: Squadron	1. Interprets strategic guidance to provide recommendations to leadership 2. Evaluates preparation of resources for mobilization within an assigned tasking to meet established timelines
Readiness		
Description	***Intermediate*** Reach of Influence: Work center	1. Oversees preparation of resources for mobilization within an assigned tasking to meet established timelines 2. Utilizes applicable information systems to meet tasking requirements 3. Ensures accurate readiness reporting by providing resource status to stakeholders
Optimizing personnel, equipment, training, sustainability, and adaptability for effective mission execution.		
Supporting Competencies	***Basic*** Reach of Influence: Individuals	1. Prepares resources for mobilization within a assigned tasking to meet established timeline 2. Identifies and fulfills all individual readiness (e.g., Medical, Expeditionary, TFAT, RAT, etc.) requirements as directed in pre-deployment planning guidance and local/theater directives. 3. Describes Air Force expeditionary force generation models.
Communication Accountability Flexibility Leadership		

Competency	Proficiency Levels	Observable Behaviors
Development	***Expert*** Reach of Influence: Wing/MAJCOM/AF-Level	1. Develops and disseminates career development guidance and roadmap to foster a culture of progression to shape talent management across the force 2. Develops strategic vision to promote leadership, adaptability, innovation, and mentorship for career progression
Sub-Competency	***Advanced*** Reach of Influence: Squadron/Group	1. Translates and communicates higher-level intent and vision to provide career direction 2. Establishes a squadron/group process to identify, vet, and prepare qualified candidates for advanced courses (e.g., Weapons Instructor Course, Command and Control Warrior Advanced Course), special duty assignments, and increased leadership responsibility 3. Refines unit professional development programs to focus on deliberate growth and professional goals 4. Advises senior leadership on the strategic use of personnel to maximize mission effectiveness and develop the organization
Career Development		
Description	***Intermediate*** Reach of Influence: Work center	1. Encourages a culture of discipline and empowerment through the utilization of mentorship and feedback to guide professional development 2. Mentors, develops, and advocates for others by creating opportunities to enhance skillsets 3. Articulates roles and responsibilities to members of the work center, providing guidance on how to prepare for increased responsibility and optimize personal and professional growth
Steps taken to achieve professional goals, build effective battle management skill sets, embody the core competencies, and map out required experiences for development and progression.		
Supporting Competencies	***Basic*** Reach of Influence: Individuals	1. Builds followership skills and personal accountability by incorporating feedback to improve self-awareness 2. Navigates talent management tools and applications to establish and achieve goals for personal and career development 3. Engages with a formal or informal mentor to discuss career progression, educational opportunities (e.g., PME, AFCOOL, Formal Training), and professional goals 4. Articulates and demonstrates the duties and responsibilities associated with their current skill level and function role
Develops People Communication Leadership Initiative		

Competency	Proficiency Levels	Observable Behaviors
Development	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	1. Oversees training policy to ensure the safe and effective execution of air operations 2. Mentors and develops new instructors and evaluators, teaching them advanced instructional techniques and how to design, validate, and lead effective, complex training scenarios 3. Designs and champions innovative approaches to training methodologies to improve battle management operations development across the enterprise
Sub-Competency	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Leverages traditional/non-traditional (e.g., vendor, sister-service, inter-agency) training to provide continuity of mission operations 2. Analyzes shortfalls and prioritizes formal training requirements to advocate for resources to meet mission objectives 3. Adapts and applies learned tactics and procedures to effectively manage mission tasks in unfamiliar or dynamically changing scenarios
Training		
Description	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Establishes and documents training requirements to achieve short- and long-term objectives 2. Assists peers and subordinates in understanding concepts during training and develops courses of action to maximize training effectiveness 3 Provides specific, constructive feedback, on training/team performance utilizing established TTPs and governing documents
The development, application, and instruction of tactics, and techniques used to accomplish battle management functions to meet desired proficiency.		
Supporting Competencies	***Basic*** Consistency of Application: Sustained application of competency over time	1. Maintains individual accountability of training documentation to ensure completion 2. Actively participates in all required training events 3. Following a training event, self-assesses performance, identifies personal knowledge gaps, and develops a plan with a trainer to address them
Develops People Information Seeking Initiative Analytical Thinking		

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	1. Develops innovative solutions for operational challenges to achieve objectives 2. Initiates systems, equipment, and capability improvements to enhance mission effectiveness
Sub-Competency	***Advanced*** Depth of Knowledge: New practices of all workplace elements	1. Integrates combined/joint all-domain systems and effects to support operational objectives 2. Develops communication plans and procedures with organizations and agencies to meet mission requirements 3. Evaluates/innovates processes, systems, and equipment solutions to ensure follow-on planning efforts
Operational Level Execution		
Description	***Intermediate*** Depth of Knowledge: Established practices of all workplace elements	1. Ensures coordination with organizations and agencies to accomplish ATO requirements 2. Manages processes, systems, and equipment to ensure effective ATO planning and execution 3. Validates instructions and orders to support operational objectives
The process of achieving strategic goals by planning, monitoring, and assessing combined/joint all domain effects.		
Supporting Competencies	***Basic*** Depth of Knowledge: Established practice with some workplace elements	1. Executes work center tasks to accomplish the mission 2. Determines appropriate tools, formats, and methods to meet mission requirements 3. Coordinates with required agencies to facilitate ATO planning and execution
Communication Analytical Thinking Strategic Thinking Teamwork		

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	1. Leads complex large-force operations utilizing platform capabilities to drive force packaging required to achieve deliberate and dynamic desired effects 2. Applies expertise to meet mission requirements
Sub-Competency	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Leads C2 assets utilizing platform capabilities to drive force packaging required to achieve deliberate and dynamic desired effects 2. Cultivates battle management proficiency by ensuring awareness of combined and joint all-domain effects and providing tactical execution techniques 3. Applies expertise to meet mission requirements and manage risk during composite force operations. 4. Develops and directs the crew communication plan to support mission execution
Tactical Level Execution		
Description	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Executes Integrated Mission Operations 2. Applies Overarching Battle Management Command and Control
The application of joint and combined battle management execution to achieve operational and strategic objectives.		
Supporting Competencies	***Basic*** Consistency of Application: Sustained application of competency over time	1. Identifies mission requirements to plan and resource operations 2. Executes mission tasks IAW established doctrine and as an integrated team member 3. Manages and employs communication systems for effective mission coordination
Communication Decision Making Analytical Thinking Teamwork		

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	1. Evaluates plans and procedures and recommends changes to key stakeholders 2. Validates or establishes new guidance and procedures
Sub-Competency	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Incorporates strategic leader guidance and proposes COAs 2. Validates responsibilities and procedures 3. Briefs friendly and enemy systems, missions, capabilities, and limitations
Battle Management Principles		
Description	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Explains relationships between Command and Control organizations and mission responsibilities 2. Explains responsibilities of strategic leaders and guidance they produce 3. Explains battle management functions, responsibilities, and procedures 4. Outlines friendly and adversary systems, missions, capabilities, and limitations 5. Extracts key information from guiding documents
The DoD/DoWs framework for conducting command and control.		
Supporting Competencies	***Basic*** Consistency of Application: Sustained application of competency over time	1. Defines Air Force organizational structure and command authorities 2. Identifies Battle Management Functions, responsibilities, and procedures 3. Recognizes friendly and enemy systems, missions, capabilities, and limitations 4. Identifies components of guiding documents
Communication Analytical Thinking Decision Making Strategic Thinking		

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	1. Develops best practices by evaluating prior mission effectiveness 2. Leads teams of personnel through planning efforts to meet the Commander's intent
Sub-Competency	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Leads teams through mission planning process 2. Analyzes planning process steps and propose solutions to accomplished guidance 3. Evaluates lessons learned and drives COA improvement
Planning		
Description	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Explains planning process steps, inputs, and outcomes 2. Provides proper inputs during planning, briefing, or debriefing efforts and informs lessons learned 3. Supports planning efforts and provides inputs to support commanders intent
The process of defining requirements, allocating capabilities, and preparing teams to achieve operational and strategic objectives with post mission analysis to capture best practices.		
Supporting Competencies	***Basic*** Consistency of Application: Sustained application of competency over time	1. Supports stakeholders for mission planning efforts 2. Provides proper inputs during planning, briefing, or debriefing efforts and informs lessons learned 3. Identifies planning process steps and inputs
Communication Analytical Thinking Accountability Teamwork		

Competency	Proficiency Levels	Observable Behaviors
Mission Execution	***Expert*** Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency	1. Validates voice communication means, methods, and procedures 2. Establishes digital network features, components, structure 3. Evaluates compliance with reference system features, components, and format
Sub-Competency Communication/Information Sharing	***Advanced*** Consistency of Application: Sustained application of competency over time in complex situations	1. Teaches voice communication means, methods, and proper procedures 2. Demonstrates digital network features, structure, components, and limitations 3. Instructs reference system features, components, and proper format
Description The process of gathering and sharing information as a force multiplier to enhance mission accomplishment.	***Intermediate*** Consistency of Application: Sustained application of competency over time in a variety of situations	1. Explains communication means, methods, and proper procedures 2. Defines systems, structure, components, and limitations 3. Explain reference system features, components, and format
Supporting Competencies Communication Analytical Thinking Organizational Awareness Precision	***Basic*** Consistency of Application: Sustained application of competency over time	1. Identifies communication means, methods, and proper procedures 2. Identifies systems, structure, components, and limitations 3. Identifies reference system features, components, and proper format 4. Identifies COMSEC, encryption, and information security requirements

5. Skill and Career Progression. Adequate training and timely progression from the apprentice to the superintendent level play an important role in the Air Force's ability to accomplish its mission. It is essential that everyone (supervisors, UTMs, and trainers) involved in training do their part to plan, manage, and conduct an effective training program. The guidance provided in this part of the CFETP ensures each individual receives viable training at appropriate points in their career.

5.1 Apprentice (3) Level. To be awarded AFSC 1C531, the trainee must meet requirements listed in DAFMAN36-2100, Military Utilization and Classification, specialty description, and complete the basic Battle Management Operations Apprentice Course at Keesler AFB, MS. Tasks and knowledge training requirements are identified in the Specialty Training Standard, at Part II, Section A.

5.1.1 1C531D (Weapons Director): To be awarded the "D" shred, Airmen must additionally complete the formal Weapons Director (WD) Course (e.g., Weapons Director Ground-Based Training at Luke AFB, AZ).

5.2 Journeyman (5) Level. Qualification in and possession of AFSC 1C531 (or 1C531D for Weapons Directors) and successful completion of applicable Career Development Course (CDC) requirements, position-specific training (AFJQS/AFQTP), and core tasks listed in this CFETP. Completion of Joint Tactical Information Distribution System (JTIDS) 101 is mandatory.

5.2.1 1C551D (Weapons Director): Must possess PAFSC 1C531D, complete all WD-specific core tasks identified in the STS, and obtain positional certification documented on an AF Form 8 or like form.

5.3 Craftsman (7) Level. To be awarded AFSC 1C571/1C571D, the trainee must be at least a Staff Sergeant (SSgt), possess PAFSC 1C551 or 1C551D, and successfully complete applicable Career Development Course (CDC) requirements, position-specific training (AFJQS/AFQTP), and core tasks listed in this CFETP. Furthermore, the member must complete unit-specific duty position training/tasks and obtain or maintain a duty position qualification/certification that is documented on an AF Form 8 or like form.

5.4 Superintendent (9) Level. To be awarded AFSC 1C591, an individual must be at least a Senior Master

Sergeant (SMSgt), possess PAFSC 1C571/1C571D, and complete all required formal training. This includes demonstrated experience in managing and directing Battle Management Operations functions and programs.

5.5 Occupational Badge Wear.

5.5.1 Basic Badge. Airmen are awarded the basic Command and Control occupational badge upon completion of IST; Weapons Directors are awarded the basic Weapons Director occupational badge upon completion of the undergraduate Weapons Director course.

5.5.2 Senior Badge. For award of the requisite senior occupational badge, Airmen must meet requirements for award of the basic badge and have a minimum of 5 total years of qualified experience in that specific position (e.g., an Airman must have 5-years of experience as a qualified Weapons Director prior to award of the senior Weapons Director badge, or 5-years of qualified experience in various Slick duty positions for award of the senior Command and Control badge).

5.5.3 Master Badge. For award of the requisite master occupational badge, Airmen must meet requirements for award of the basic and senior badges, hold the rank of MSgt or above, and have a minimum of 7 total years of qualified experience in that specific position (e.g., an Airman must have 7-years of experience as a qualified Weapons Director prior to award of the master Weapons Director badge, or 7-years of qualified experience in various Slick duty positions for award of the master Command and Control badge).

6. Training Decisions. The CFETP has undergone a considerable revision towards building a competency-based training and development platform for the Battle Management Operations career field. A significant change has been to shift the focus from task-based training to one that is more centered on outcomes-based learning. A task is a unit of work activity or operation which forms a significant part of a duty. These are singular in nature and are usually accomplished in one continuous action, which also can occur independently of other tasks. Conversely, outcomes are learning goals that typically consist of a multitude of tasks. These outcomes are actions and performances that embody and reflect the learner's competence in using content, information, ideas, and tools successfully. Focusing on learning outcomes allow organizations, leaders, supervisors, and trainers to incorporate foundational competencies and underlying characteristics (values, traits, attitudes) into learning, which is necessary for developing Airmen with the competencies needed for future challenges. The following decisions were made as a result of close coordination between HQ AETC, Technical Training, schoolhouse instructors and staff, field SMEs, functional managers and the Planning Workshop/Specialty Training Requirements Team (PW/STRT) sought to develop the learning outcomes. This was accomplished by reverse engineering the behaviors found in the Battle Management Operations occupational competency model and then by asking what does an Airman need to able to know and do in order to master a specific behavior. The intent of the learning outcomes is to identify all factors needed to succeed in attaining the behavior. Formal training will be codified by using the behavioral statement coding system for the STS as opposed to the proficiency code key. As a result, each line item will consist of a verb and the coding system for formal training will only use **P** (performance), **K** (knowledge), and **pk** (performance-knowledge).

6.1 The CFETP uses a building block approach (simple to complex) to encompass the entire spectrum of training requirements for the Battle Management Operations career field. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy must be apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training. The following decisions were made by a career field STRT held at Keesler AFB, MS.

6.2 **Initial Skills Training.** Initial skills training (IST) is developed and taught by AETC. Upon completion of Basic Military Training, Airmen will complete the Battle Management Operations Apprentice Course as a mandatory requirement for award of the 3-skill level. Key outcomes for IST that the STRT focused on were: updated occupational competencies, updated references,

review/update of 1C5 portion of the AFECD, removing redundancies in training, and a restructured Specialty Training Standard (STS) focused on producing Airmen trained/qualified and ready to perform the mission quicker and more efficiently.

6.3 **Five-Level Upgrade Training.** In addition to meeting requirements from paragraph 5.2, Airmen must be recommended for upgrade by their supervisor and approved by their commander via the DAF Form 2096.

6.4 **Seven-Level Upgrade Training.** In addition to meeting requirements from paragraph 5.3, Airmen must be recommended for upgrade by their supervisor and approved by their commander via the AF Form 2096.

6.5 Proficiency Training. The purpose of continuation training is to provide additional training that exceeds the minimum upgrade training requirements and allows individuals to become proficient at their present and future duty positions. Continuation training also assists individuals in maintaining proficiency at their duty position and affords them career broadening opportunities.

6.6 The CFETP Part II identifies ten (10) sub-competencies. Each competency is further broken down into the following proficiency levels; basic, intermediate, advanced, and expert. The proficiency levels are not tied to a specific rank or position. Additionally, each occupational competency has supporting competencies tied to them. The supporting competencies can allow Airmen to intentionally develop those transferrable underlying characteristics that will translate to mission capabilities, mission readiness, and mission success for the agile, future thinking Airmen. Airmen, supervisors, trainers, mentors, and leaders should look for opportunities to integrate the supporting competencies into every facet of an Airmen's development as they seek to gain and increase proficiency within the 1C5X1 competencies.

6.7 Core Tasks. Core tasks are identified by the Air Force Career Field Manager (AFCFM) as the minimum qualification requirements for all Airmen in the AFSC. These tasks ensure foundational standardization, baseline proficiency, and operational readiness across the entire Battle Management Operations career field.

6.7.1 Identification. Within the Specialty Training Standard (STS) (Part II, Section A), core tasks are explicitly identified by a "5" and/or "7" in the core task column, denoting mandatory completion for the award and retention of the 5-skill level (Journeyman) and/or 7-skill level (Craftsman).

6.7.2 Organizational Additions. To accommodate diverse mission sets, additional core tasks may be established based on organization and weapon system-specific requirements. The unit Commander, Senior Enlisted Leader (SEL), and Unit Training Manager (UTM) retain the authority to determine and designate these supplemental core tasks as mandatory to meet local operational and mission readiness needs.

7. Community College of the Air Force (CCAF). Enrollment in CCAF occurs upon completion of Basic Military Training. CCAF provides the opportunity to obtain an Associate of Applied Science (AAS) Degree in Air and Space Operations or in Military Technology and Applied Sciences Management. Off-duty education is a personal choice but is highly encouraged. See the CCAF website for program details: http://airuniversity.af.edu/Barnes/CCAF/. In addition to its associate degree program, CCAF offers the following:

7.1 Certifications

7.2 CCAF Occupational Instructor Certification. Upon completion of instructor qualification training, consisting of the instructor methods course and supervised practice teaching, CCAF instructors who possess an associate degree or higher may be nominated by their school commander and commandant for certification as an occupational instructor.

7.3 Degree Requirements. All service members are automatically entered into the CCAF program. Prior to completing an associate degree, the 5-level must be awarded, and the following requirements must be met:

Table 1. CCAF Degree Requirements

Requirement	Semester Hours
Technical Education	24
Leadership, Management & Military Studies	6
General Education	15
Written Communication (3)	
Oral Communication (3)	
Mathematics (3)	
Social Science (3)	
Humanities (3)	
Program Electives	15
	Total: 60

Note: Refer to the CCAF general catalog for a listing of all degree requirements as they are subject to change and some AFSCs may fall under additional degree programs.

7.4 Technical Education (24 semester hours). A minimum of nine (9) semester hours of technical core subjects and courses must be applied, and the remaining semester hours are applied from technical core or technical elective subjects and courses.

7.5 Leadership, Management, and Military Studies (6 semester hours). Professional military education and/or civilian management courses.

7.6 General Education (15 semester hours). Applicable courses must meet the criteria for application of courses to the general education requirements and agree with the definitions of applicable general education subject and/or courses as provided in the CCAF general catalog.

7.7 Program Elective (15 Semester Hours). Satisfied with applicable technical education; leadership, management, and military studies; or general education subjects and courses, including natural science courses meeting general education requirements application criteria. Nine semester hours of CCAF degree applicable technical credit, otherwise not applicable to this program may be applied. See the CCAF general catalog for details regarding the associates of applied sciences degree for this specialty.

7.8 Additional off-duty education is a personal choice encouraged for all. Individuals desiring to become an AETC instructor should be actively pursuing an associate degree.

8. Career Field Path and Enlisted Force Development.

8.1 Career Field Path (Figure 4). Figure 4 is intended as a guide by grade/skill-level to provide Airmen a "snapshot" of possible duty positions, developmental opportunities, and training strategies in planning their careers and duty assignments in the Battle Management Operations career field. Refer to the Air Force Personnel Center's or MyFSS homepage to determine career field and Air Force specific information on average sew-on times and enlisted promotion rate histories.

Figure 4. 1C5X1 Enlisted Career Field Path

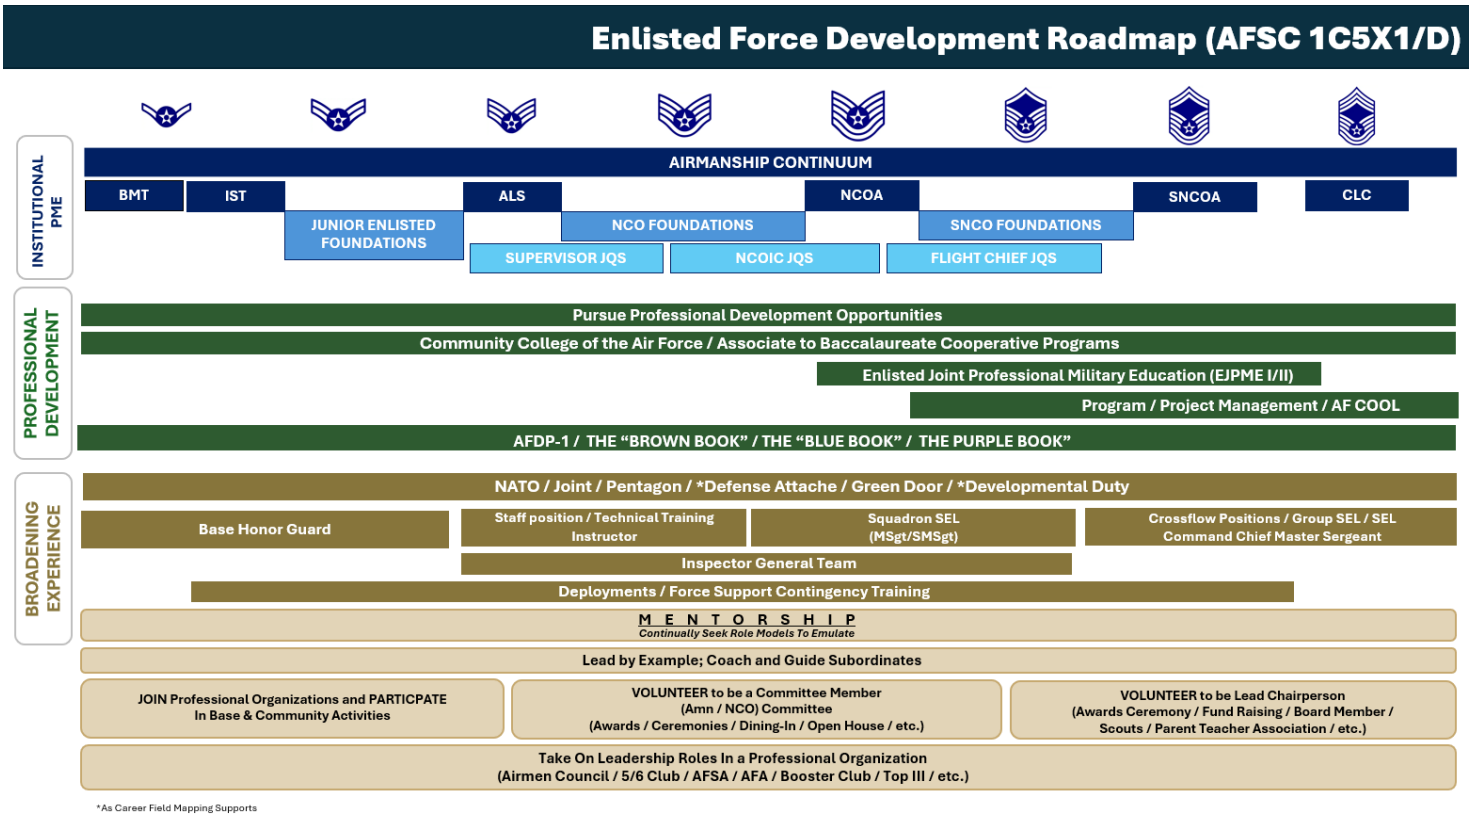

1C5X1 Battle Management Operations

Professional Development	Includes, but is not limited to: CCAF/AU ABC, higher educational degrees & certifications						
Jobs / Opportunities	- Initial Operator Experience - Multiple Weapon System Duty Positions - (CRC, AOC, - BCC) - Weapons Director Course	- Weapons Director Course - Instructor	-CRC/ BCC/AOC MQT - Formal Instructor - Stan/Eval	- Section/ Flight Chief -NCOIC Training / Stan/Eval - NCOIC Weapons & Tactics - NCOIC Combat Ops/Plans - NCOIC	- MAJCOM Staff - Sq SEL (small unit) - Section/Flight Chief - MAJCOM/ NAF/Group Staff	- MAJCOM Staff - Group/Sq Operations Superintendent - Sq SEL - AFPC Assignments Functional Manager (FM)	- Career Field Manager - MAJCOM FM - Group SEL, Sq SEL

8.2 Enlisted Force Development Roadmap (Figure 5**).** To operationalize the career milestones shown in the Figure 4 snapshot, Figure 5 (the Enlisted Force Development Roadmap) outlines the specific professional development benchmarks, upgraded skill-level requirements, and professional military education (EPME) targets expected at each tier of an Airman's career.

8.3 Dual Utilization: Supervisors and Unit Training Managers (UTMs) can utilize both Figure 4 and Figure 5 in tandem during formal feedback sessions and career vectoring to align individual professional development goals with the overall structural needs of the career field.

Figure 5. 1C5X1 Enlisted Force Development Roadmap.

Section C – Skill-Level Training Requirements

9. Purpose. Skill level training requirements in this career field are defined in terms of tasks and knowledge

requirements. This section outlines the specialty qualification requirements for each skill level in broad, general terms and establishes the mandatory requirements for entry, award, and retention of each skill level. The specific task and knowledge training requirements are identified in the STS at Part II, Section of this CFETP.

10. **Specialty Qualification Requirements**. This information can be found in the official specialty description in the DAFECD. Skill level training requirements are in paragraphs 5-5.4 and 6.2-6.4 of this CFETP.

11. **Air Force Job Qualification Standard.** Individuals must complete all mandatory Air Force Job Qualification Standard (AFJQS) as indicated in STS Part II. Qualification on these standards must be documented and certified by an authorized trainer/certifier in the approved virtual training system of record (e.g., TBA 2.0)

12. **Other. The following are mandatory as indicated:**
    12.1 Entry Requirements. For entry into this specialty, see Attachment 4 of the Department of the Air Force Enlisted Classification Directory (DAFECD) for additional requirements.

Section D – Resource Constraints

13. **Purpose.** This section identifies known resource constraints impacting the development and delivery of optimal training within the BMO career field. Constraints include limitations in cost, manpower, and course development timelines. Each constraint is accompanied by an impact statement, required resources, and recommended actions. The OPR and target completion dates are also provided. This section will be reviewed and updated annually.

    12.1 Apprentice Level Training.

    12.2 Constraints. There is currently no equipment available for hands-on training during 1C5X1 IST. This has limited training to knowledge level only and resulted in Airmen arriving at Formal Training Units for follow-on training, or their first duty station, unprepared to meet requirements. A Tactical Display Framework (TDF) software, or an acceptable emulator, and appropriate hardware is required at the 334 TRS. Obtaining this software will provide relevant, initial hands-on training enabling BMOs to evolve and build enlisted Battle Managers, which are vital to meeting current and future Air Force requirements as we transition from countering violent extremism to defeating aggression from our peer competitors.

    12.3 Journeyman Level Training: No constraints identified

    12.4 Craftsman Level Training: No constraints identified

PART II

Section A – Specialty Training Standard (STS)

1. Implementation. This Part II STS will be used for technical training provided by AETC for classes beginning 20270701 for 3-skill level training.

2. Purpose. As prescribed in DAFMAN 36-2689, *Total Force Development,* this Part II STS and in collaboration with the Battle Management Operations, Air Force Career Field Manager (AFCFM), it is mandatory for all battle management specialties, regardless of duty assignment, to use the career field guidance in this CFETP.

2.1. Lists the most common tasks, knowledge, and technical references (TR) necessary for airmen to perform duties in the skill level (Column 1).

2.2. Indicates formal training and correspondence course requirements (Column 3). It shows the proficiency to be demonstrated on the job by the graduate as a result of training on the task and knowledge and the career knowledge provided by the correspondence course. Course descriptions and reporting instructions for course E3ABR1C531 are identified in the Air Force Education and Training Course Announcements (ETCA) database which is located at the following URL: https://usaf.dps.mil/teams/app10-etca/SitePages/home.aspx

2.3. Attachment 1 contains the proficiency code key used to indicate the level of training and knowledge provided by resident training and career development courses.

2.4. Used as a guide for development of promotion tests used in the Weighted Airman Promotion System (WAPS). Specialty Knowledge Tests (SKT) are developed at the AETC Airman Advancement Division by senior NCOs with extensive practical experience in their career fields. SKTs are developed by subject matter experts who authenticate WAPS material and reference AF Specialty-specific occupational analysis data. Questions are based upon study references listed in the Enlisted Promotions References and Requirements Catalog. Individual responsibilities are in Chapter 4, paragraph 4.2.11 of DAFMAN 36-2664, *Personnel Assessment Program.* WAPS is not applicable to the Air Reserve Component.

3. Recommendations. Comments and recommendations are invited concerning the quality of AETC training. A Customer Service Information Line (CSIL) has been installed for use by supervisory personnel. The purpose of this line is to report STS training deficiencies from technical school (i.e. trained incorrectly or not trained at all) not the Airman's lack of knowledge retention. For a quick response to concerns, call CSIL at DSN 597-4566, Comm 228-377-4566, or fax DSN 597-3790, or e-mail at, 81trg.tge.Workflow@us.af.mil. Reference this STS and identify the specific area of concern (paragraph, training standard element, etc).

Section B – Course Objective List

This area is reserved.

Section C – Support Material

**Note: The following list of support materials is not all-inclusive:*

Publication	Title	Source / Access Location
Air Force Joint Qualification Standard	AFJQS – Supervisor	Air University www.airuniversity.af.edu
Air Force Joint Qualification Standard	AFJQS – NCOIC/Section Chief	Air University www.airuniversity.af.edu
Air Force Joint Qualification Standard	AFJQS – Flight Chief	Air University www.airuniversity.af.edu
Air Force Joint Qualification Standard	AFJQS – Joint	Air University www.airuniversity.af.edu

Section D – Training Course Index

1. **Purpose.** This section of the CFETP identifies training courses available for the specialty and shows how the courses are used by each MAJCOM in their career field training programs.

2. **Air Force In-Residence Courses.**

COURSE NUMBER	COURSE TITLE	LOCATION
E3ABR1C531 00AH	Battle Management Operations Apprentice	Keesler AFB, MS

3. **Air Force Distance Learning Courses.**

COURSE NUMBER	COURSE TITLE	LOCATION
CDC 1C551 EC M-01	Battle Management Operations Journeyman	Distance Learning

4. **Air Combat Command Courses.**

COURSE NUMBER	COURSE TITLE	LOCATION
ACC CRC WIC	Control and Reporting Center Weapons Instructor Course	Nellis AFB, NV
AOCIQTAMD	Air Operations Center (AOC) Initial Qualification Training (IQT), Air Mobility Division Course	505 TRS, Hurlburt Field AFB, FL
AOCIQTASP	Air Operations Center (AOC) Initial Qualification Training (IQT), Airspace Course	505 TRS, Hurlburt Field AFB, FL
AOCIQTC2T	Air Operations Center (AOC) Initial Qualification Training (IQT), Command and Control Technician Course	505 TRS, Hurlburt Field AFB, FL
AOCIQTCOD	Air Operations Center (AOC) Initial Qualification Training (IQT), Combat Operations Division Course	505 TRS, Hurlburt Field AFB, FL
AOCIQTCPD	Air Operations Center (AOC) Initial Qualification Training (IQT), Combat Plans Division Course	505 TRS, Hurlburt Field AFB, FL

5. AETC In-residence Courses

COURSE NUMBER	COURSE TITLE	LOCATION
Z-WD-GB-LK	Weapons Director (WD) (Ground-Based) Training	607 ACS, Luke AFB, AZ (337 ACS, Tyndall AFB, FL)
CRC MSO IQT	Control and Reporting Center, Mission System Operator Initial Qualification Training	607 ACS, Luke AFB, AZ
E5AZG1C371	Inland Search and Rescue Planning Course	National SAR School, Yorktown, VA

6. Other In-residence Courses.

COURSE NUMBER	COURSE TITLE	LOCATION
P-US018	Fundamentals of Personnel Recovery Course (PR 102)	CBT on JKO
PR 300	Personnel Recovery Execution	Personnel Recovery Education and Training Center (PRETC Fredericksburg, VA
PR 303	Non-Conventional Assisted Recovery (NAR) Plans and Operations	Personnel Recovery Education and Training Center (PRETC) Fredericksburg, VA
SA1103	GCCS-J COP Basic-Agile Client	Fort Eustis, VA
SA2102	GCCS-J COP Advances	Fort Eustis, VA

NAVY TOPGUN	United States Navy Fighter Weapons School (TOPGUN) Air Intercept Controller (AIC) Course	NAS Fallon, NV
USMC WTI 1228	United States Marine Corps Weapons and Tactics Instructor Course	MCAS Yuma, AZ

Section E – MAJCOM and Mission-Unique Requirements

7. **AFSOC/USSOCOM.** Members assigned to roles supporting USSOCOM missions are strongly encouraged to complete the below Joint Special Operations University (JSOU) courses, as applicable. Visit https://www.jsou.edu/Courses/Catalog for course information and enrollment.

   6.1 Introduction to Special Operations Forces (ISOF) – Distance Learning course. This course is designed to provide students with a basic understanding of U.S. SOF. This includes the organization, functions, capabilities, limitations, and employment of each USSOCOM Service component and subordinate unified commands as well as key concepts and terms. The course is designed for anyone desiring a foundational understanding of U.S. special operations forces as well as those who have been identified to serve on a joint special operations staff, staff members at USSOCOM, its subordinate commands, and theater special operations commands. The course is suitable for individuals with an enabling or partner relationship to special operations commands or others requiring a fundamental understanding of special operations.

   6.2 Joint Special Operations Task Force (JSOTF) (Level 1) – Distance Learning course. This course focuses on the organization, functions, and responsibilities of each major joint staff section of a joint special operations task force (JSOTF), as well as looking at the command and control structure of a JSOTF. Other lessons include JSOTF involvement in civil-military operations and the interoperability of a JSOTF with interagency, nongovernmental, and intergovernmental organizations. Ideally, an individual should complete Phase I instruction, prior to being assigned to a theater special operations command (TSOC) or JSOTF. The training audience for this course includes all staff officers and noncommissioned officers, active and reserve component augmentees who may serve in a JSOTF HQ, active and reserve component augmentees enroute/assigned to a TSOC, DoD civilian and contract personnel supporting a JSOTF or TSOC, or other enablers supporting a JSOTF or TSOC. Note: Students must complete the Introduction to Special Operations Forces – Distance Learning course prior to registering for JSOTF (Level 1).

   6.3 Joint Fundamentals Course (CEP-1). This course educates enlisted students for entry-level leadership careers in SOF. Students, from a tactical and operational perspective, will develop skills in communications, creative thinking, and ethical decision-making. Students will also analyze the history, unique function, and organization of the USSOCOM from the headquarters down to the subcomponent commands. E6 SOF operator and enablers.

   6.4 Enterprise Management Course (CEP-2). This course educates and prepares enlisted special operators for mid-level leadership roles in SOF. Using a transformative approach, students will enhance their skills in critical thinking, organizational leadership, and management. Students will analyze the implications of U.S. national strategy on the execution of USSOCOM operations and strategy. E7 SOF operators and enablers.

8. **USSF/USSPACECOM**. Members assigned to roles supporting USSF or USSPACECOM missions are strongly encouraged to complete the Introduction to Joint Space (ITJS) course to

enhance mission readiness and operational integration. ITJS is a self-paced, online fundamentals course for all branches of service and government agencies, as well as select partner nations. It provides education for personnel and end-users with little or no exposure to space operations. The course covers a wide range of topics from space history to future systems. Visit https://nssi.spaceforce.mil/?directlink&nav-home/courses/allcourses&&&&&&&& for course information and enrollment.

9. **Joint, Coalition, or Expeditionary Operations.** Personnel assigned to roles supporting joint, coalition, or expeditionary operations, particularly in force development, international engagement, or strategic planning, are encouraged to complete the below Irregular Warfare (IW) courses, as applicable. These courses enhance understanding of unconventional operational environments and improve readiness for missions requiring cultural agility, strategic influence, and adaptive support. Visit https://irregularwarfarecenter.org/ for course information and enrollment.

   8.1 Irregular Warfare 101 (IW-101). IW-101 offers an introduction to the fundamental aspects of Irregular Warfare, and it consolidates key concepts from U.S. policy, doctrine, and academia in about 90 minutes. This course has three sections which include 1) strategic competition, forms of warfare and definition and nature of IW, 2) describing IW operations and activities, and 3) discussing the global practitioners of IW and trends.

   8.2 Effective Writing for DoD Professionals (IW-105). This short, on-line course covers the fundamentals of writing for the Irregular Warfare Center (IWC). This includes defining writing goals, analyzing audience, and choosing the best medium for the message; various techniques for structuring writing; and a focus on writing that is clear, concise, and courteous.

   8.3 Irregular Warfare 110 (IW-110). Irregular Warfare 110 provides information on Irregular Warfare (IW) approaches for Homeland Security (HS) and Homeland Defense (HD). IW-110 is one of several online courses developed by the Department of Defense's Irregular Warfare Center (IWC) which is responsible for advancing the understanding of IW activities, concepts, and doctrine. IW-110 pivots horizontally from foundational knowledge provided in IW-101, to provide HS and HD professionals with awareness of the utility of applying IW approaches in the homeland. Note: While IW-101 is not a prerequisite to enroll in IW-110, completion of IW-101 is highly encouraged.

   8.4 Irregular Warfare 201 (IW-201). IW-201 expands upon IW 101 to: 1) compare and contrast different IW definitions and conceptualizations, 2) discuss IW missions, operations and activities and 3) provides vignettes of IW in practice: China's IW strategy in the South China Sea; the Russian IW campaign to seize Crimea in 2014; Iranian use of proxies as an asymmetric strategy.

Table 3. Behavioral Statement Code Key

Behavioral Statement STS Coding System	
Definition	
K	Subject Knowledge Training - The verb selection identifies the individual's ability to identify facts, state principles, analyze or evaluate the subject.
P	Performance Training - Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the field requirements for speed and accuracy.
pk	Performance Knowledge Training - The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles, and operational theory for the task.

1. Management							
1.1. Personnel Management **Description:** The management of people through deliberate planning, direction, and organization to maximize mission performance and success. **Supporting Competencies:** Communication, Accountability, Leadership, Decision Making **TR:** DAFPD 36-26, DAFMAN 36-2100, DAFI 36-211, AFI 36-2406, AFI 36-2502, DAFPD 36-29 / AFI 36-2903, AFDP 1-1, DAFH 36-2618, DAFPD 36-26, Title 10 U.S.C. / DoD 5500.07-R, DAFI 90-5001, DoD / VA Clinical Practice Guidelines, ANGI 36-6, DAFMAN 36-2136							
1.1.1. Personnel Management (Basic) **Required Behaviors:** 1. Participates in feedback and counseling sessions to enhance individual performance and establish baseline performance 2. Practices self and peer accountability to carry out duties, instructions, and responsibilities 3. Practices decision-making at the lowest level and escalates issues through the appropriate chain-of-command to uphold good order and discipline **Criteria:** *Reach of Influence: Individuals*							
1.1.1.1. Compare and contrast stress and distress (1)				K			
1.1.1.2. Define moral injury (1)				K			
1.1.1.3. Define Resilience and pillars (1)				K			

1.1.1.4. Identify the pillars of Comprehensive Airman Fitness (1)				K			
1.1.1.5. Define Ethics (1)				K			
1.1.1.6. Identify characteristics of the Profession of Arms (1)				K			
1.1.1.7. Define accountability (1)				K			
1.1.1.8. Define behaviors and attitudes associated with Humility (1)				K			
1.1.1.9. Apply critical thinking to assigned tasks/problem sets (2)				pk			
1.1.1.10. Identify resources to aid in combating moral injury (2)				K			
1.1.1.11. Identify stressors in self and others (2)				K			
1.1.1.12. Self-assess for preferred pillars (2)				K			
1.1.1.13. Identify ethical dilemmas (2)				K			
1.1.1.14. Identify individualized values (2)				K			
1.1.1.15. Identify methods of accountability and ownership (2)				K			
1.1.1.16. Define behaviors and attitudes associated with Approachability (2)				K			
1.1.1.17. Define behaviors and attitudes associated with Credibility (2)				K			
1.1.1.18. Apply techniques to communicate an ethical dilemma (3)				pk			
1.1.1.19. Receive guidance and/or direction, clarify as needed (3)				P			
1.1.1.20. Demonstrate followership (3)				P			
1.1.1.21. Define emotional intelligence to interpersonal communications in both mission and non-mission scenarios to develop cohesive teams (2)				K			
1.1.2. Personnel Management (Intermediate) **Required Behaviors:** 1. Establishes duty requirements and sets performance expectations by delivering deliberate and measurable feedback 2. Guides subordinates through career field specific training and development opportunities to maximize personnel effectiveness **Criteria:** *Reach of Influence: Work center*							
1.1.2.1. Provide timely feedback to improve Airmen's mission readiness and task proficiency (1)		5					
1.1.2.2. Evaluate subordinate performance (1)		5					

1.1.2.3. Apply emotional intelligence to interpersonal communications in both mission and non-mission scenarios to develop cohesive teams (2)		5/7					
1.1.2.4. Apply stress mitigation techniques to support Airman development and mission accomplishment (2)		7					
1.1.3. Personnel Management (Advanced) **Required Behaviors:** 1. Cultivates mission-ready Airmen while deliberately allocating available personnel to prioritize mission requirements 2. Fosters a culture of teamwork to generate new ideas for mission execution and process improvement **Criteria:** *Reach of Influence: Group/Squadron*							
1.1.3.1. Evaluate personnel allocation effectiveness to enhance mission performance (1)		7					
1.1.3.2. Identify personnel strengths to recommend effective placement (1)		7					
1.1.3.3. Shape unit training priorities to strengthen overall mission-ready force structure (2)							
1.1.3.4. Utilize mission requirements to recommend changes (2)		7					
1.1.4. Personnel Management (Expert) **Required Behaviors:** 1. Directs career-broadening opportunities and assignments to support mission requirements 2. Establishes guidance to meet sustainment needs and evolving strategic requirements 3. Prioritizes manpower across missions and organizations, aligning force structure to uphold National Security priorities **Criteria:** *Reach of Influence: MAJCOM/AF-Level*							
1.1.4.1. Direct assignment strategies that align Airmen's development with evolving mission requirements (1)							
1.1.4.2. Shape organizational development priorities (1)							
1.1.4.3. Forecast manpower and skill requirements to meet long-range battle management objectives (2)							
1.1.4.4. Integrate strategic requirements into comprehensive personnel sustainment plans (2)							

1.1.4.5. Coordinate cross-unit personnel utilization to meet high-priority operational requirements (3)							
1.1.4.6. Evaluate Mission Type Orders (MTO) for resource constraints (3)							
1.2. Resource Management **Description:** Processes and techniques used to ensure resources are available and appropriately utilized to achieve desired outcomes. **Supporting Competencies:** Resource Management, Analytical Thinking, Communication, Decision Making **TR:** DAFI 65-601, Vol 1, DAFMAN 65-605, Vol 1, DAFI 65-610, DAFI 63-101/20-101, AFI 23-101, DAFMAN 11-401, DAFI 10-701, AFMAN 17-1302-O, DAFI 16-1404, DAFI 31-101, AFI 64-117, AFMAN 63-143, AJP 3.3 / JP 3-30, CJCSI 3110.04, MIL-STD-6016, AFMAN 13-1BCC Vol 3 / 13-1CRC Vol 3							
1.2.1. Resource Management (Basic) **Required Behaviors:** 1. Identifies resources (e.g., materiel, equipment, time, assets, processes) needed to execute mission requirements 2. Utilizes resources to accomplish assigned tasks 3. Communicates resource needs to overcome deficiencies **Criteria:** *Impact on: Specific workplace tasks*							
1.2.1.1. Identify **operational** security requirements and practices (1)				K			
1.2.1.2. Identify **communication** security requirements and practices (1)				K			
1.2.1.3. Identify **information** security requirements and practices (1)				K			
1.2.1.4. Identify **emission** security requirements and practices (1)				K			
1.2.1.5. Identify **physical** security requirements and practices (1)				K			
1.2.1.6. Explain unit's operations shop/program and its role (e.g.MS, SC, CPD, COD, ISRD, DOT, CCV, DOO, DOX, DOW, DOK) (1)		5					
1.2.1.7. Explain unit mission support functions (1)		5					

1.2.1.8. Define and locate the Security Classification Guide to derive classified working documents (1)		5					
1.2.1.9. Identify proper handling/storing of classified material (1)				K			
1.2.1.10. Identify Physical Security threats and vulnerabilities (1)				K			
1.2.1.11. Identify Personnel Security Requirements (1)				K			
1.2.1.12. Identify the purpose of operational equipment (e.g., CRC/BCC/AOC) (1)				K			
1.2.1.13. Complete personnel security requirements (e.g., SF 86, SAP, ISOPREP, 2875) (2)		5					
1.2.1.14. Locate local published guidance (e.g., Sq. OI, LOAs, MFRs) (2)		5			pk		
1.2.1.15. Locate mission governing documents (e.g., 3-3, ALSSA MTTPs, Flash Bulletins) (2)		5		pk			
1.2.1.16. Identify datalink equipment, software, OPTASKLINK, and network connectivity (2)		5		K			
1.2.1.17. Identify malfunctioning or unusable equipment and communicate resource needs (3)				P			
1.2.1.18. Identify specific manpower, materials, and equipment needed to execute tasks (3)		5					
1.2.2. Resource Management (Intermediate) **Required Behaviors:** 1. Communicates resource needs to address or prevent mission degradation and mitigate capability gaps 2. Stewards resources to maximize work center effectiveness 3. Identifies degradation of resources and/or shortfalls and coordinates assistance to restore capability 4. Monitors mission resources and intervenes to effectuate CC intent **Criteria:** *Impact on: Specific workplace projects*							
1.2.2.1. Recognize scenarios and situations requiring support (e.g., Cyber/Comm/MOC/VM/HVAC/Power Pro) (1)		5					
1.2.2.2. Identify respective directorates to assist situations requiring support (e.g., Cyber/Comm/MOC/VM/HVAC/Power Pro) (1)		5					
1.2.2.3. Explain mission governing documents (e.g., 3-3, ALSA MTTPs, Flash Bulletin) (1)		5					
1.2.2.4. Implement **operational** security requirements and practices (2)		5					

1.2.2.5. Implement **communication** security requirements and practices (2)		5					
1.2.2.6. Implement **information** security requirements and practices (2)		5					
1.2.2.7. Implement **emission** security requirements and practices (2)							
1.2.2.8. Implement **physical** security requirements and practices. (2)		5					
1.2.2.9. Execute Emergency Action Plan procedures (2)		5			pk		
1.2.2.10. Identify LIMFACs in radar coverage (e.g., Clutter, Jamming) (3)					K		
1.2.2.11. Implement PACE plan IAW with mission planning (3)							
1.2.2.12. Explain datalink equipment, software, OPTASKLINK, and network connectivity (3)		5			P		
1.2.2.13. Operate IAW appropriate classification level for planning, execution and the distribution of mission information (4)		5					
1.2.2.14. Apply correct classification methods and correct markings (4)				P			
1.2.2.15. Mitigate threats and vulnerabilities through safe handling of classified materials (4)				P			
1.2.3. Resource Management (Advanced) **Required Behaviors:** 1. Secures resources to eliminate deficiencies 2. Prioritizes allocation of unit funds to align with organizational requirements 3. Utilizes proper channels for resource acquisition 4. Analyzes resource utilization to project for future requirements 5. Evaluates threat intelligence against the unit's current security posture and recommends specific changes to COMSEC, INFOSEC, or physical security practices, directly informing leadership decisions on resource protection 6. Assesses the impact of a significant, unplanned resource outage on mission objectives and provides real-time analysis and recommendations to leadership, enabling informed decisions **Criteria:** *Impact on: Management decisions*							
1.2.3.1. Explain Government Purchase Card program (1)						K	
1.2.3.2. Explain budget guidance and procedures (1)		7					

1.2.3.3. Analyze Commander's intent and organizational considerations to determine funding priorities (2)		7					
1.2.3.4. Explain unfunded requirements (UFR) (2)		7				K	
1.2.3.5. Identify appropriate avenues for resource procurement (e.g., GSA, base agencies) (3)		7				K	
1.2.3.6. Explain acquisition procedures (3)		7				K	
1.2.3.7. Analyze resource requirements extracted from mission planning documents (e.g., Air Operations Directive, Special Instructions, Rules of Engagement, Area Air Defense Plan, Airspace Control Order, Airspace Control Plan, OPTASKLINK) (4)		7					
1.2.3.8. Explain Program Objective Memorandum (POM) process (4)						K	
1.2.3.9. Define Threat Awareness and mitigation for risk management (e.g., Emission Control plan) (5)		7					
1.2.3.10. Explain personnel security management policies (Unit Security Manager, Advanced Security Manager, or Special Security Office) (5)		7					
1.2.3.11. Utilize the decision-making process to facilitate Commander's Acceptable Level of Risk (6)		7				pk	
1.2.3.12. Develop Courses of Action (COAs) for continuing, modifying, or terminating operations (6)		7					
1.2.4. Resource Management (Expert) **Required Behaviors:** 1. Executes acquired resource allocations to fulfill requirements 2. Directs organizational and command leadership to field resources 3. Steers doctrine and/or policy for long-range planning efforts and future concepts **Criteria:** *Impact on: AF-level practices/within industry*							
1.2.4.1. Align equipment and facility strategies with operational requirements (1)							
1.2.4.2. Manage manpower to align mission requirements (e.g., UMD, MPA days, ADOS, contract bids) (1)							
1.2.4.3. Engage in Planning, Programming, Budgeting & Execution Process steps and processes for equipment and software required for mission (1)							
1.2.4.4. Establish policy for utilization of assigned resources (1)							
1.2.4.5. Develop mitigation Courses of Action for resource shortfalls (1)							

1.2.4.6. Advocate for resource sustainment by constructing data-driven justifications for critical gaps within the unit (e.g., training, equipment, manning) (1)							
1.2.4.7. Steer unfunded requirements (UFR) prioritization (1)							
1.2.4.8. Translates Commander's intent into an actionable message and disseminates to the unit (2)							
1.2.4.9. Review and coordinate organizational policy and procedures (e.g., unit OI's, organizational charts) (2)							
1.2.4.10. Guide subordinate leaders to develop initiatives aligned with strategic guidance (3)							
1.2.4.11. Forecast organizations' vulnerabilities and requirements (3)							
1.2.4.12. Assess current capability portfolios and projected needs in accordance with organizational mission priorities (3)							
1.2.4.13. Conduct a gap analysis to identify unit policy shortfalls and propose changes (3)							
1.3. Readiness **Description:** Optimizing personnel, equipment, training, sustainability, and adaptability for effective mission execution. **Supporting Competencies:** Communication, Accountability, Flexibility, Leadership **TR:** AFI 10-401, DAFI 36-3802, DAFMAN 36-2100, DAFI 10-403, AFI 10-201, AFI 10-2501, DAFI 48-123, AFH 10-416, AFDP 1-21, AFMAN 13-1BCC / 13-1CRC (Vols 1, 2, and 3), AFTTP 3-1.BCC / 3-1.CRC							
1.3.1. Readiness (Basic) **Required Behaviors:** 1. Prepares resources for mobilization within a assigned tasking to meet established timeline 2. Identifies and fulfills all individual readiness (e.g., Medical, Expeditionary, TFAT, RAT, etc.) requirements as directed in pre-deployment planning guidance and local/theater directives 3. Describes Air Force expeditionary force generation models **Criteria:** *Reach of Influence: Individuals*							
1.3.1.1. Identify Unit Type Code equipment (1)							
1.3.1.2. Maintain personal mobility gear (1)							

1.3.1.3. Identify deployment planning and execution guidance publications (2)				K			
1.3.1.4. Identify individual readiness, guidance and requirements (e.g. AFFORGEN) (2)				K			
1.3.1.5. Identify medical readiness and Ground Based Operator (GBO) physical requirements (i.e., DAFECD) (2)		5		K			
1.3.1.6. Describe the purpose of Agile Combat Employment (ACE) (3)				K			
1.3.1.7. Identify Air Force units of action (e.g., Combat Service Support Team, Expeditionary Air Base) (3)				K			
1.3.2. Readiness (Intermediate) **Required Behaviors:** 1. Oversees preparation of resources for mobilization within an assigned tasking to meet established timelines 2. Utilizes applicable information systems to meet tasking requirements 3. Ensures accurate readiness reporting by providing resource status to stakeholders **Criteria:** *Reach of Influence: Unit/Groups*							
1.3.2.1. Identify Personnel Processing Code (PPC) requirements (1)		5			K		
1.3.2.2. Lead Unit Type Code (UTC) equipment mobilization (1)							
1.3.2.3. Associate personnel and equipment resources to tasking (1)		5			K		
1.3.2.4. Explain Combat Crew Assessment and deployment certification process and requirements (1)							
1.3.2.5. Identify unit readiness, guidance and requirements (e.g. AFFORGEN) (1)		5			K		
1.3.2.6. Describe functions of Air Force units of actions (1)					K		
1.3.2.7. Explain scheduling process for training events (e.g., functional or institutional training, Chemical, Biological, Radiological, and Nuclear (CBRN) operations) (2)		5					
1.3.2.8. Apply information from Flight Crew Information File (FCIF)/Special Interest Items (SII) to missionized scenario (2)							
1.3.2.9. Locate readiness applications (e.g., Electronic-Deployment Readiness Checklist (eDRC), ASIMS, IMR) (2)		5					
1.3.2.10. Brief assigned member's Readiness (3)		7					
1.3.2.11. Utilize Deployment Readiness Manning Document (DRMD) (3)							
1.3.3. Readiness (Advanced)							

Required Behaviors: 1. Interprets strategic guidance to provide recommendations to leadership 2. Evaluates preparation of resources for mobilization within an assigned tasking to meet established timelines **Criteria:** *Reach of Influence: Wing/Institutional*							
1.3.3.1. Explain Deployment Readiness Manning Document (DRMD) process (1)							
1.3.3.2. Validate Unit Type Code (UTC) composition to meet mission requirements (1)							
1.3.3.3. Evaluate unit Air Force Force Generation (AFFORGEN) readiness and limiting factors (2)							
1.3.3.4. Forecast personnel, equipment, and crew deployment requirements (2)							
1.3.3.5. Manage organization readiness (2)							
1.3.3.6. Align resources to Air Force Units of action (2)							
1.3.3.7 Apply to tactical C2 planning and operational execution (2)							
1.3.4. Readiness (Expert) **Required Behaviors:** 1. Evaluates mission requirements and resources for world-wide mobilization based on analysis of unit readiness reporting 2. Solves readiness challenges based on current and future missions **Criteria:** *Reach of Influence: Wing/MAJCOM/AF-Level*							
1.3.4.1. Balance organization readiness with continuous mission execution (1)							
1.3.4.2. Evaluate Agile Combat Employment (ACE) principles/unit deployment plans (1)							
1.3.4.3. Develop and influences readiness policy based on Mission Design Series (MDS) capabilities and threat assessments (1)							
1.3.4.4. Liaise with external agencies to mitigate readiness shortfalls (e.g., Air Force Personnel Center (AFPC), Medical Group (MDG)) (2)							
1.3.4.5. Devise resource-conscious solutions via trend and gap analysis to resolve readiness shortfalls (2)							
2. Development							

2.1. Career Development							
Description: Steps taken to achieve professional goals, build effective battle management skill sets, embody the core competencies, and map out required experiences for development and progression. **Supporting Competencies:** Develops People, Communication, Leadership, Initiative **TR:** DAFI 36-2618, DAFMAN 36-2100, DAFMAN 36-2643, DAFI 36-2618, DAFI 36-2406, AFI 38-101, DAFI 36-2670, 1C5X1 Development Team (DT) Charter							
2.1.1. Career Development (Basic) **Required Behaviors:** 1. Builds followership skills and personal accountability by incorporating feedback to improve self-awareness 2. Navigates talent management tools and applications to establish and achieve goals for personal and career development 3. Engages with a formal or informal mentor to discuss career progression, educational opportunities (e.g., PME, AFCOOL, Formal Training), and professional goals 4. Articulates and demonstrates the duties and responsibilities associated with their current skill level and function role **Criteria:** *Reach of Influence: Individuals*							
2.1.1.1. Demonstrate ability to receive and apply feedback (1)				P			
2.1.1.2. Identify timelines and requirements for Career Development Courses (CDCs) completion (1)				K			
2.1.1.3. Develop Specific, Measurable, Attainable, Realistic, Time-Bound (SMART) Goals (1)				P			
2.1.1.4. Update Assignment Preferences (applicable assignment system IAW AF directives) (2)		5					
2.1.1.5. Identify career broadening applications (e.g., MyVector, AFVEC, MyConnections) (2)		5					
2.1.1.6. Identify functional career broadening opportunities (e.g., Joint Interoperability Division (JID) courses, US Air Force Weapon's Instructor Course (WIC), US Marine Corps Weapons and Tactics Instructor course (WTI)) (2)		5					

2.1.1.7. Identify resources on the Air Force Benefits Fact Sheet (2)		5					
2.1.1.8. Identify purpose of AF 2096 (e.g., Special Experience Identifier, AFSC prefix, AFSC suffix, skill levels, SDAP) (2).		5					
2.1.1.9. Practice independent critical thinking (3)				pk			
2.1.1.10. Describe an active participation role (3)				K			
2.1.1.11. Actively participates in feedback sessions for personal and professional development (e.g. peers, MLTs, instructors, supervisors) (3)		5		P			
2.1.1.12. Demonstrate Junior Enlisted Tier roles and responsibilities IAW the Enlisted Force Structure (4)		5					
2.1.1.13. Execute positional qualification roles and responsibilities (4)				P			
2.1.1.14. Complete Air Force Job Qualification Standard (AFJQS)-Supervisor Task List Requirements (4) - required after ALS							
2.1.1.15. Explain progression in the 1C5X1 Career Field Education and Training Plan (CFETP) (4)				K			
2.1.2. Career Development (Intermediate) **Required Behaviors:** 1. Encourages a culture of discipline and empowerment through the utilization of mentorship and feedback to guide professional development 2. Mentors, develops, and advocates for others by creating opportunities to enhance skillsets 3. Articulates roles and responsibilities to members of the work center, providing guidance on how to prepare for increased responsibility and optimize personal and professional growth **Criteria:** *Reach of Influence: Work center*							
2.1.2.1. Seek mentorship opportunities for self and others (1)		5					
2.1.2.2. Explain progressive discipline actions to correct trends and enforce standards (1)		7			K		
2.1.2.3. Explain how to mentor subordinates to influence culture of active professional involvement (1)		7				K	
2.1.2.4. Explain how to mentor subordinates to enhance critical thinking skills (1)		7				K	
2.1.2.5. Identify career field specific SEIs and requirements for each member IAW DAFECD (2)					K		
2.1.2.6. Conduct feedback (formal or informal) sessions to deliberately develop Airmen and set expectations (2)		7					

2.1.2.7. Complete Air Force Job Qualification Standard (AFJQS)-NCOIC/Section Chief Task List Requirements (2)							
2.1.2.8. Develop self and/or others for functional career broadening opportunities (e.g., Joint Interoperability Division (JID) courses, Weapons Instructor Course (WIC), US Marine Corps Weapons and Tactics Instructor (WTI) course) (2)							
2.1.2.9. Accurately identify duties and responsibilities associated with each skill level (3)					K		
2.1.2.10. Demonstrate NCO Tier roles and responsibilities IAW the Enlisted Force Structure (3)		7					
2.1.2.11. Demonstrate use of AF 2096 (e.g., Special Experience Identifier, AFSC prefix, AFSC suffix, skill levels, SDAP) (3)		7					
2.1.3. Career Development (Advanced) **Required Behaviors:** 1. Translates and communicates higher-level intent and vision to provide career direction 2. Establishes a squadron/group process to identify, vet, and prepare qualified candidates for advanced courses (e.g., Weapons Instructor Course, Command and Control Warrior Advanced Course), special duty assignments, and increased leadership responsibility 3. Refines unit professional development programs to focus on deliberate growth and professional goals 4. Advises senior leadership on the strategic use of personnel to maximize mission effectiveness and develop the organization **Criteria:** *Reach of Influence: Squadron/Group*							
2.1.3.1. Explain overseas cycle timeline and applicable locations (1)							
2.1.3.2. Explain incentive and/or developmental programs applicable to personnel and prerequisites for each program (e.g., Military Training Leader, Military Training Instructor, Special Duty Assignment Pay) (1)						K	
2.1.3.3. Identify the purpose and selection requirements of the Control and Reporting Center Weapons Instructor Course (2)		7				K	
2.1.3.4. Identify the purpose and selection requirements of Command and Control Warrior Advanced Course (2)		7				K	
2.1.3.5. Identify the purpose and selection requirements of US Navy TOP GUN Air Intercept Controller Course (2)		7				K	
2.1.3.6. Identify the purpose and selection requirements of US Marine Corps Weapons and Tactics Instructor (2)		7				K	

2.1.3.7. Identify the purpose and selection requirements of Advanced Joint Interface Control Cell Operator Course (AJOC) (2)		7				K	
2.1.3.8. Verify SEI allocations and requirements IAW DAFECD (2)		7					
2.1.3.9. Coordinate functional career broadening opportunities (e.g., Joint Interoperability Division (JID) courses, Weapons Instructor Course (WIC), US Marine Corps Weapons and Tactics Instructor (WTI) course)) (3)							
2.1.3.10. Complete Air Force Job Qualification Standard (AFJQS) - Flight Chief Task List Requirements (3)							
2.1.3.11. Analyze manpower allocations to advocate for career development opportunities (4)							
2.1.3.12. Synthesize enterprise and functional roles and responsibilities (e.g., Enlisted Force Structure, AFMAN 13-1 series) (4)							
2.1.3.13. Identify the five courageous follower behaviors (4)						K	
2.1.3.14. Identify the leader-member relationship phases (e.g., stranger phase, acquaintance phase, and mature partnership phase) (4)						K	
2.1.3.15. Cultivate relationship with senior leaders (4)							
2.1.3.16. Analyze UMD requirements to submit Manpower Change Requests (4)		7					
2.1.4. Career Development (Expert) **Required Behaviors:** 1. Develops and disseminates career development guidance and roadmap to foster a culture of progression to shape talent management across the force 2. Develops strategic vision to promote leadership, adaptability, innovation, and mentorship for career progression **Criteria:** *Reach of Influence: Wing/MAJCOM/AF-Level*							
2.1.4.1. Manage SEI requirements (1)							
2.1.4.2. Advise an Enlisted Development Team or career field working group, providing direct input to shape career field objectives (1)							
2.1.4.3. Coordinate opportunities for members to participate in Joint Leadership Courses (1)							
2.1.4.4. Apply Air Force Job Qualification Standard (AFJQS)-Joint Task List Requirements to mentor personnel (1)							
2.1.4.5. Apply 1C5 Development Team Charter Knowledge, Skills, and Abilities (KSAs) to appropriate vectors (2)							

2.1.4.6. Engage with senior leaders (e.g., Wing, MAJCOM, HAF) to advocate for policy changes (2)							
2.1.4.7. Manage advanced course graduates (e.g., Joint Interoperability Division (JID) courses, Weapons Instructor Course (WIC), US Marine Corps Weapons and Tactics Instructor (WTI) course) (2)							
2.2. Training **Description:** The development, application, and instruction of tactics, and techniques used to accomplish battle management functions to meet desired proficiency. **Supporting Competencies:** Develops People, Information Seeking, Initiative, Analytical Thinking **TR:** DAFI 36-2201, DAFMAN 36-2236, AETCI 36-2605 Vol 1, DAFMAN 36-2236, DAFI 36-2201, DAFI 11-202 Vol 2							
2.2.1. Training (Basic) **Required Behaviors:** 1. Maintains individual accountability of training documentation to ensure completion 2. Actively participates in all required training events 3. Following a training event, self-assesses performance, identifies personal knowledge gaps, and develops a plan with a trainer to address them **Criteria:** *Consistency of Application: Sustained application of competency over time*							
2.2.1.1. Define proficiency requirements (1)				K			
2.2.1.2. Demonstrate application of Operating Instructions (OI) (1)				pk			
2.2.1.3. Assess training plan documentation and next steps (1)				K			
2.2.1.4. Identify Career Field Education and Training Plan (1)				K			
2.2.1.5. Engage in required training, asking clarifying questions to ensure a thorough understanding of fundamental principles (2)				P			
2.2.1.6. Explain required training progression (e.g., IST, IQT, MQT, Instructor Upgrade, Evaluator Upgrade, Continuation Training) (2)		5		pk			
2.2.1.7. Identify positional requirements (e.g., Currency, Lookback, Ready Aircrew Program) (2)		5		K			

2.2.1.8. Exercise accountability of training requirements (e.g., Currency, Lookback, Ready Aircrew Program) (2)							
2.2.1.9. Demonstrate Airmanship during feedback and debrief events (3)				P			
2.2.1.10. Apply learning points and feedback to mission execution (3)				P			
2.2.2. Training (Intermediate) **Required Behaviors:** 1. Establishes and documents training requirements to achieve short- and long-term objectives 2. Assists peers and subordinates in understanding concepts during training and develops courses of action to maximize training effectiveness 3 Provides specific, constructive feedback, on training/team performance utilizing established TTPs and governing documents **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
2.2.2.1. Manage required training progression for self and others (e.g., IST, IQT, MQT) (1)		7					
2.2.2.2. Explain key components of training and evaluation documents (e.g., instructor standards, training progression form) (1)		5					
2.2.2.3. Define requirements for specialized and upgrade training (2)				K			
2.2.2.4. Employs appropriate instructional methods to accommodate student needs and achieve instructional objectives (2)							
2.2.2.5. Complete Basic Instructor Course (BIC) or equivalent MAJCOM-approved instructor methodology training (2)							
2.2.2.6. Develop corrective action plans within your span of control (3)		5					
2.2.2.7. Articulates objective feedback, linking a specific performance error to its tactical impact to provide clear corrective action (e.g., Debrief Focal Point (DFP) development) (3)				pk			
2.2.3. Training (Advanced) **Required Behaviors:** 1. Leverages traditional/non-traditional (e.g., vendor, sister-service, inter-agency) training to provide continuity of mission operations							

2. Analyzes shortfalls and prioritizes formal training requirements to advocate for resources to meet mission objectives 3. Adapts and applies learned tactics and procedures to effectively manage mission tasks in unfamiliar or dynamically changing scenarios **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
2.2.3.1. Identify specialty schools to develop SMEs (1)		7					
2.2.3.2. Leverage available SMEs to develop others in preparation for advanced schools (1)		7					
2.2.3.3. Assess unit training resources against organizational requirements (2)		7					
2.2.3.4. Identify requirements for development of courseware or syllabi (2)		7					
2.2.3.5. Apply instructional methods based on student performance and trends (e.g., Plan of Instruction) (3)							
2.2.3.6. Apply Instructional Systems Design models to enhance courseware (3)							
2.2.4. Training (Expert) **Required Behaviors:** 1. Oversees training policy to ensure the safe and effective execution of air operations 2. Mentors and develops new instructors and evaluators, teaching them advanced instructional techniques and how to design, validate, and lead effective, complex training scenarios 3. Designs and champions innovative approaches to training methodologies to improve battle management operations development across the enterprise **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
2.2.4.1. Translate strategic guidance to vector training plans (1)							
2.2.4.2. Advocates for doctrinal changes for battle management operations (1)							
2.2.4.3. Lead high impact training programs to advance organizational performance (2)							
2.2.4.4. Conduct objective, data-driven debrief and feedback in order to maximize training objectives. (2)		7					

2.2.4.5. Incorporate training tasks designed to improve specific cognitive skills (e.g., task-switching, decision-making under pressure, and spatial memory recall) (3)							
2.2.4.6. Secure resources to meet organizational training requirements (3)							
3. Mission Execution							
3.1. Operational Level Execution **Description:** The process of achieving strategic goals by planning, monitoring, and assessing Combined/Joint All-Domain effects **Supporting Competencies:** Communication, Analytical Thinking, Strategic Thinking, Teamwork **TR:** AFMAN 13-1AOC Vol 3, JP 3-0, JP 1-02, AFTTP 3-3.AOC, JP 3-30, The National Security Strategy (NSS), National Defense Strategy (NDS), National Military Strategy (NMS), JP 5-0							
3.1.1. Operational Level Execution (Basic) **Required Behaviors:** 1. Executes work center tasks to accomplish the mission 2. Determines appropriate tools, formats, and methods to meet mission requirements 3. Coordinates with required agencies to facilitate ATO planning and execution **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*							
3.1.1.1. Identify mission task requirements (1)		5					
3.1.1.2. Adhere to task checklists (1)		5		P			
3.1.1.3. Execute division checklist (1)							
3.1.1.4. Explain roles and relationships of Air Operation Center divisions (1)				K			
3.1.1.5. Select appropriate data displays to support situational awareness (2)							
3.1.1.6. Adhere to established formats to ensure mission information accuracy (2)							
3.1.1.7. Identify the AOCs targeting/planning process (2)				K			
3.1.1.8. Identify joint doctrine (2)				K			
3.1.1.9. Identify joint chain of command (2)				K			
3.1.1.10. Define Air Operations Center Divisions and specialty teams (2)				K			

3.1.1.11. Identify core functions & responsibilities of Air Operations Center Divisions (2)				K			
3.1.1.12. Interpret guidance (i.e., OPTASKLINK, AOD, AADP, ALR, ROE, ATO, ACO, SPINS) (2)				pk			
3.1.1.13. Follow established coordination procedures during Air Tasking Order (ATO) planning tasks (3)							
3.1.1.14. Track coordination actions to ensure timely ATO, Airspace Control Order, Operational Tasking Data Link planning support (3)							
3.1.1.15. Identify Air Tasking Cycle (e.g., Strategy, ISR, Target Development, Weaponeering & Allocation, ATO Production, AMD, Force Execution, Combat Assessment) (3)				K			
3.1.2. Operational Level Execution (Intermediate) **Required Behaviors:** 1. Ensures coordination with organizations and agencies to accomplish ATO requirements 2. Manages processes, systems, and equipment to ensure effective ATO planning and execution 3. Validates instructions and orders to support operational objectives **Criteria:** *Depth of Knowledge: Established practices of all workplace elements*							
3.1.2.1. Communicate mission needs with external agencies to meet ATO cycle. (1)							
3.1.2.2. Coordinate with mission partners to ensure timely completion of ATO requirements (1)							
3.1.2.3. Coordinate with external agency (e.g. CRCs, Wing Operations Centers) (1)							
3.1.2.4. Evaluate system performance to identify impacts on ATO production and replanning (2)							
3.1.2.6. Execute ATO production and replanning (2)							
3.1.2.7. Identify discrepancies in products and coordinates corrections with stakeholders (2)							
3.1.2.8. Identify inputs and outputs of each Air Operations Center division throughout the Air Tasking Cycle (2)				K			
3.1.2.9. Identify product dissemination methods (2)							
3.1.2.10. Evaluates system performance to identify impacts on ATO production and replanning (2)							
3.1.2.11. Execute ATO production and replanning (2)							

3.1.2.12. Identify discrepancies in products and coordinates corrections with stakeholders (2)							
3.1.2.13. Develop Requests For Information (e.g., Situational Report) (2)							
3.1.2.14. Explain Airfield Threat Assessment Matrix (2)						K	
3.1.2.15. Associate the AOCs targeting/planning process to mission planning products (2)							
3.1.2.16. Identify Battle Rhythm (e.g., Air Tasking Cycle events) (2)							
3.1.2.17. Identify Contingency and Crisis Operations (2)		5		K			
3.1.2.18. Validate orders for completeness before dissemination to mission partners (3)							
3.1.2.19. Validate division checklist (3)							
3.1.3. Operational Level Execution (Advanced) **Required Behaviors:** 1. Integrates combined/joint all-domain systems and effects to support operational objectives 2. Develops communication plans and procedures with organizations and agencies to meet mission requirements 3. Evaluates/innovates processes, systems, and equipment solutions to ensure follow-on planning efforts **Criteria:** *Depth of Knowledge: New practices of all workplace elements*							
3.1.3.1. Synchronize all-domain capabilities to support prioritized operational objectives (1)		5					
3.1.3.2. Advise leadership on integrating joint capabilities to enhance mission success (1)		5					
3.1.3.3. Collaborate with partner organizations to strengthen cross-domain communication effectiveness (2)		5					
3.1.3.4. Plan C2 operations in Degraded, Contested, or Operationally Limited (DIL) environments (2)							
3.1.3.5. Guide units in implementing communication procedures that meet operational requirements (2)		5					
3.1.3.6. Lead efforts to modernize systems supporting long-term operational planning (3)							
3.1.3.7. Assess system performance to determine impacts on future mission planning (3)							
3.1.3.8. Apply Airfield Threat Assessment Matrix (3)						pk	
3.1.4. Operational Level Execution (Expert) **Required Behaviors:**							

1. Develops innovative solutions for operational challenges to achieve objectives 2. Initiates systems, equipment, and capability improvements to enhance mission effectiveness **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*							
3.1.4.1. Formulate forward-leaning operational approaches to achieve prioritized objectives (1)							
3.1.4.2. Evaluate innovative concepts for applicability across joint and coalition operations (1)							
3.1.4.3. Manage development and training of all members within organization (1)							
3.1.4.4. Validate Contingency and Crisis plans (1)							
3.1.4.5. Strengthen relationships with allies and partners (1)							
3.1.4.6. Coordinate external support to enhance mission success (2)							
3.1.4.7. Advise leadership on capability investments that advance operational effectiveness (2)							
3.1.4.8. Evaluate system limitations to drive future capability enhancements (2)							
3.2. Tactical Level Execution **Description:** The application of joint and combined battle management execution to achieve operational and strategic objectives. **Supporting Competencies:** Communication, Decision Making, Analytical Thinking, Teamwork **TR:** JP 3-30, AFDP 3-0.1, JP 3-01, AFDP 3-01, CJCSM 6120.01 series, AFTTP 3-3.CRC, AFTTP 3-1.BCC							
3.2.1. Tactical Level Execution (Basic) **Required Behaviors:** 1. Identifies mission requirements to plan and resource operations 2. Executes mission tasks IAW established doctrine and as an integrated team member 3. Manages and employs communication systems for effective mission coordination **Criteria:**							

Consistency of Application: Sustained application of competency over time							
3.2.1.1. Explain RADAR Theory (1)				K			
3.2.1.2. Identify mission data from an Airspace Control Order (1)				K			
3.2.1.3. Extract mission data from an Airspace Control Order (1)				P			
3.2.1.4. Identify mission data from an Operational Tasking Data Link (1)	*			K			
3.2.1.5. Extract mission data from an Operational Tasking Data Link (1)	*			P			
3.2.1.6. Define Air Operations Center (AOC) mission (1)	*			K			
3.2.1.7. Define Air Support Operations Center (ASOC) mission (1)	*			K			
3.2.1.8. Define Tactical Air Control Party (TACP)/ Joint Terminal Air Controller (JTAC) /Forward Air Controller-Airborne (FAC-A) mission (1)	*			K			
3.2.1.9. Define airborne Intelligence, Surveillance and Reconnaissance (ISR) mission (1)				K			
3.2.1.10. Explain Joint Interface Control Cell, Regional Interface Control Cell, Sector Interface Control Cell (1)	*			K			
3.2.1.11. Define Integrated Air Missile Defense (1)	*			K			
3.2.1.12. Define Airspace Control Measures (ACMs) (e.g., Combat Air Patrols (CAP), orbits and air routes) (1)	*			K			
3.2.1.13. Explain airspace deconfliction measures (1)	*			K			
3.2.1.14. Demonstrate Tactical Operations Center (TOC) system performance monitoring and test functions (1)	*			P			
3.2.1.15. Explain Link 11/22 characteristics and capabilities (1)	*			K			
3.2.1.16. Explain Link 16 characteristics and capabilities (1)	*			K			
3.2.1.17. Explain JREAP characteristics and capabilities (1)	*			K			
3.2.1.18. Explain SADL characteristics and capabilities (1)	*			K			
3.2.1.19. Identify Methods of Electronic Attack/Electronic Protection (EA/EP) (1)	*			K			
3.2.1.20. Identify Anti-radiation missiles (ARM) threats and profiles (1)	*			K			
3.2.1.21. Identify Air Defense Control Measures (e.g., Air Defense Identification Zone, Temporary Flight Restriction, Restricted Operating Zone) (1)	*			K			
3.2.1.22. Identify use of Emergency/Safety equipment (1)	*			pk			
3.2.1.23. Explain Support/Maintenance functions (e.g., Air Operations Center Communication Squadron, Maintenance Operations Center) (1)	*			K			
3.2.1.24. Define Offensive Counterair (OCA) (1)	*			K			

3.2.1.25. Define Defensive Counterair (DCA) (1)	*			K			
3.2.1.26. Define Air Interdiction (AI) (1)	*			K			
3.2.1.27. Define Close Air Support (CAS) (1)	*			K			
3.2.1.28. Explain Strategic Attack (1)	*			K			
3.2.1.29. Explain Personnel Recovery (e.g., Civilian Search and Rescue, Combat Search and Rescue) (1)	*			K			
3.2.1.30. Explain Airlift Operations (1)	*			K			
3.2.1.31. Explain Air Refueling (1)	*			K			
3.2.1.32. Explain Special Operations (1)	*			K			
3.2.1.33. Explain Dynamic / Deliberate Targeting (1)				K			
3.2.1.34. Define Air Moving Target Indicator (1)	*			K			
3.2.1.35. Define Ground Moving Target Indicator (1)	*			K			
3.2.1.36. Define Continuum of Control (1)	*			K			
3.2.1.37. Define Airspace Management (1)	*			K			
3.2.1.38. Define Combat Identification (1)	*			K			
3.2.1.39. Define Unit Control Center (UCC) (1)	*			K			
3.2.1.40. Define Mission Planning Cell (MPC) (1)	*			K			
3.2.1.41. Define Engagement Orders (1)	*			K			
3.2.1.42. Explain Major Components of the System of Record (1)	*			K			
3.2.1.43. Explain Internal equipment of the System of Record (1)	*			K			
3.2.1.44. Explain External equipment of the System of Record (1)	*			K			
3.2.1.45. Define Mission Crew compositions (1)				K			
3.2.1.46. Execute Identification Matrix in accordance with Rules of Engagement (2)	*			P			
3.2.1.47. Demonstrate proper use of the phonetic alphabet. (2)	*			P			
3.2.1.48. Operate Primary System of Record (2)	*			P			
3.2.1.49. Set-up Primary System of Record (2)	*			P			
3.2.1.50. Configure Primary System of Record (2)	*			P			
3.2.1.51. Operate recording equipment (2)	*			P			
3.2.1.52. Demonstrate detection, initiation and maintain tracking on assigned aircraft (2)	*			P			
3.2.1.53. Demonstrate track management (e.g., mission, callsign, platform, specific type) (2)	*			P			
3.2.1.54. Create and modify database (e.g., airspaces, overlays) (2)	*			P			
3.2.1.55. Create and modify a doctrine (e.g., track doctrine, identification automation) (2)	*			P			

3.2.1.56. Demonstrate system of record directory and file management functions (e.g., exporting and importing weapon system feature configurations) (2)	*			P			
3.2.1.57. Demonstrate establishment and modification of Link 11/Link 22 (2)	*			P			
3.2.1.58. Demonstrate establishment and modification of Link 16 (2)	*			P			
3.2.1.59. Demonstrate establishment and modification of JREAP connections (e.g., A, B, C) (2)	*			P			
3.2.1.60. Explain the establishment and modification of SADL (2)	*			K			
3.2.1.61. Demonstrate how to Read/Plot/Convert target and position using reference systems (2)	*			P			
3.2.1.62. Assess hooked data display (2)	*			P			
3.2.1.63. Recognize emergency codes (2)	*			P			
3.2.1.64. Classify a track as an emergency (2)	*			P			
3.2.1.65. Perform Emergency Procedures (2)	*			P			
3.2.1.66. Enter a point as an emergency (2)	*			P			
3.2.1.67. Troubleshoot system degradation (e.g., radio, scope, sensor issues) (2)	*			P			
3.2.1.68. Perform System Reset (2)	*			P			
3.2.1.69. Recognize situation display degradation (2)	*			P			
3.2.1.70. Execute Electromagnetic Protection (EP) tactics (2)	*			P			
3.2.1.71. Demonstrate Scope Scan Pattern fundamentals (2)	*			P			
3.2.1.72. Interpret crew schedules (2)	*			pk			
3.2.1.73. Identify High Value Airborne Assets Protection Measures (2)				K			
3.2.1.74. Perform air picture establishment and maintenance (2)				P			
3.2.1.75. Identify current operational Identification, Friend or Foe (IFF) employment considerations and capabilities (2)				K			
3.2.1.76. Perform effective Crew Resource Management (CRM) (3)				P			
3.2.1.77. Identify Operational Risk Management (e.g., Identify signs and symptoms of cognitive overload in self and others) (3)				pk			
3.2.1.78. Configure Communication equipment (e.g., Communication Interface Panel, Chat) (3)				P			
3.2.1.79. Execute effective crew coordination (3)				P			
3.2.1.80. Provide and receive mission-oriented feedback (3)	*			P			
3.2.1.81. Demonstrate correct R/T communication procedures (3)	*			P			

3.2.1.82. Identify appropriate voice authentication procedures (3)	*			P			
3.2.1.83. Perform positional handover (3)				P			
3.2.1.84. Perform external coordination (3)				P			
3.2.1.85. Utilize required forms and logs (e.g., 4145 Daily Activity Log, Operations Logbook, Go/No Go) (3)				P			
3.2.2. Tactical Level Execution (Intermediate) **Required Behaviors:** 1. Executes Integrated Mission Operations 2. Applies Overarching Battle Management Command and Control **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
3.2.2.1. Apply Tactical Data Link capabilities to satisfy information exchange requirements (1)							
3.2.2.2. Execute positional communication in accordance with Air Land Sea Space Application Air Control Communications (1)							
3.2.2.3. Apply AFMAN 11-214 training rules during execution (1)							
3.2.2.4. Explain supporting operations (e.g., airlift, air-to-air refueling, Intelligence, Surveillance, and Reconnaissance (ISR), space, and rotary-wing (RW)) (1)					K		
3.2.2.5. Explain mission set concepts (i.e., Continuum of control, Defensive Counterair, Offensive Counterair, Air-to-Air, Air-to-Surface) (1)					K		
3.2.2.6. Apply mission set concepts (i.e., Continuum of control, Defensive Counterair, Offensive Counterair, Air-to-Air, Air-to-Surface) (1)							
3.2.2.7. Explain sensor degradation (1)					K		
3.2.2.8. Explain current operational Identification, Friend or Foe (IFF) employment considerations and capabilities (1)							
3.2.2.9. Explain methods and procedures for identification (1)							
3.2.2.10. Explain Primary Mission, Employment, Capabilities of **Adversary** forces and impact to C2 Considerations (e.g., kinetic and non-kinetic effects, Anti-Radiation Missiles (ARM) profiles) (1)					K		
3.2.2.11. Explain Primary Mission, Employment, Capabilities of **Friendly** forces and impact to C2 Considerations (e.g., kinetic and non-kinetic effects, Anti-Radiation Missiles (ARM) profiles) (1)					K		

3.2.2.12. Explain Close control (e.g., Cruise Missile Defense Concepts and Intercept Geometry) (1)							
3.2.2.13. Explain joint and coalition integration and utilization of all-domain effects (1)		5					
3.2.2.14. Explain Integrated Crew Employment: Pulse/Agile Combat Employment (ACE) Operations (1)							
3.2.2.15. Explain effects of equipment outages (1)							
3.2.2.16. Explain internal equipment of the TOC (1)							
3.2.2.17. Explain external equipment of the TOC (1)							
3.2.2.18. Explain unit capabilities (e.g., sensors and support equipment) (1)		5					
3.2.2.19. Explain methods of electronic warfare (1)					K		
3.2.2.20. Explain effects of Electronic Interference (1)					K		
3.2.2.21. Explain Degraded Sensors (1)					K		
3.2.2.22. Demonstrate console setup for effective mission execution (e.g., Display Profiles, key bindings, mutations, overlays) (1)		5					
3.2.2.23. Explain standoff weapons employment for composite force operations to maintain acceptable levels of risk and achieve the Commander's intent (2)		5					
3.2.2.24. Apply Concepts of Surveillance Operations (e.g., Identification, tracking, doctrine automation) (2)							
3.2.2.25. Explain Air Force peacetime/wartime concept of operations, tenets of aerospace power, guidance and directives (2)		5			K		
3.2.2.26. Explain applicable Air Force instruction organization and application (e.g., including but not limited to: Air Force Manual (AFMAN) 11-214, Air, Land, Sea, Space Application (ALSSA), Air Combat Command (ACC), and Air Force Tactics, Techniques and Procedures (AFTTP 3-2.5)) (2)							
3.2.2.27. Explain the physical forces that affect aircraft design and flight (2)							
3.2.2.28. Explain aircraft control surfaces and resulting aircraft action (2)							
3.2.2.29. Explain ROE effects on identification procedures (2)							
3.2.2.30. Explain weather impacts on mission operations (2)							
3.2.2.31. Explain ATC facilities/roles (2)							
3.2.2.32. Explain Letters of Agreement (LOAs) (2)							
3.2.2.33. Explain Flight Information Publications (FLIPs) (2)							
3.2.2.34. Explain airspace categories and classes (2)							
3.2.2.35. Explain post-mission operations and the use of required forms and logs (2)							

3.2.2.36. Explain basic capabilities of Navy air defense systems (2)							
3.2.2.37. Explain basic capabilities of Army air defense systems (2)							
3.2.2.38. Demonstrate use of emergency and safety equipment (2)							
3.2.2.39. Identify the procedures to mitigate safety hazards (2)							
3.2.2.40. Explain Integrated Crew Employment (2)							
3.2.2.41. Explain missionized datalink architecture (2)							
3.2.2.42. Troubleshoot to correct deficiencies in Link Operations (2)							
3.2.2.43. Explain High Value Airborne Assets Protection Measures (2)							
3.2.2.44. Explain Integrated Air Missile Defense (2)							
3.2.2.45. Describe Airspace Management Procedures (2)							
3.2.2.46. Prioritize multi-source information into timely battle management decisions (e.g., thresher, CBIS, chat, data link, radio) (2)		5					
3.2.3. Tactical Level Execution (Advanced) **Required Behaviors:** 1. Leads C2 assets utilizing platform capabilities to drive force packaging required to achieve deliberate and dynamic desired effects 2. Cultivates battle management proficiency by ensuring awareness of combined and joint all-domain effects and providing tactical execution techniques 3. Applies expertise to meet mission requirements and manage risk during composite force operations 4. Develops and directs the crew communication plan to support mission execution **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*							
3.2.3.1. Execute C2 operations in Degraded, Contested, or Operationally Limited (DIL) environments							
3.2.3.2. Implement battle management decisions based on primary mission, employment, capabilities of **Adversary** forces and impact to C2 considerations (e.g., kinetic and non-kinetic effects, Anti-Radiation Missiles (ARM) profiles) (1)							
3.2.3.3. Implement battle management decisions based on primary mission, employment, capabilities of **Friendly** forces and impact to C2 considerations (e.g., kinetic and non-kinetic effects, Anti-Radiation Missiles (ARM) profiles) (1)							

3.2.3.4. Provide tactical mentoring to inexperienced battle managers through tailored plans of instruction (2)		7					
3.2.3.5. Lead tactics developmental sessions (e.g., Part-Task Training, Weapons and Tactics Talks) (2)		7					
3.2.3.6. Evaluate local & distributed simulation scenarios to ensure the quality of training meets Commander's intent (2)							
3.2.3.7. Develop improvements to advance level of the units tactical training scenarios (2)							
3.2.3.8. Analyze Aerospace Concepts (e.g., peacetime/wartime ops, tenets, control) (2)		7				K	
3.2.3.9. Analyze Battle Management Team (BMT) experience and coordinate external support to fill knowledge gaps (e.g., intel, weapons officer, Joint Interoperability Division Training Center) (3)							
3.2.3.10. Examine crew contracts (e.g., Battle Management Area (BMA) safety, promote threat awareness, adhere to mission timelines) (3)							
3.2.3.11. Manage coordination with lateral and senior C2 elements (3)		7					
3.2.3.12. Enforce Air Force guidance and directives (3)		7					
3.2.3.13. Analyze environmental factors and degradation on communications equipment and sensors (3)							
3.2.3.14. Calculate equipment requirements, crew composition & quantity of frequencies needed to support mission execution (4)							
3.2.3.15. Manage communications coordination card development (4)							
3.2.4. Tactical Level Execution (Expert) **Required Behaviors:** 1. Leads complex large-force operations utilizing platform capabilities to drive force packaging required to achieve deliberate and dynamic desired effects 2. Applies expertise to meet mission requirements **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*							
3.2.4.1. Orchestrate crew execution through expertise of primary mission, employment, capabilities of forces and impact to C2 considerations (kinetic and non-kinetic effects, Anti-Radiation Missiles (ARM) profiles) (1)							
3.2.4.2. Advocates for additional resources and/or authorities based on operational or strategic environment (1)							

3.2.4.3. Translates strategic guidance to correlate tactical priorities to Airman (e.g., National Security Strategy, National Defense Strategy to mission priorities) (2)		7				K	
3.2.4.4. Evaluate competing mission priorities against real time tactical risk to justify a recommended course of action (2)							
3.3. Battle Management Principles **Description:** The DoD/DoW's framework for conducting command and control. **Supporting Competencies:** Communication, Analytical Thinking, Decision Making, Strategic Thinking **TR:** AFI 13-1 CRC Vol 3, DAFMAN 13-1BCC Vol 3, AFTTP 3-1.TACS, JP 1, JP 3-0, AFTTP 3-1.Threat Guide							
3.3.1. Battle Management Principles (Basic) **Required Behaviors:** 1. Defines Air Force organizational structure and command authorities 2. Identifies Battle Management Functions, responsibilities, and procedures 3. Recognizes friendly and enemy systems, missions, capabilities, and limitations 4. Identifies components of guiding documents **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*							
3.3.1.1. Identify Theater Air Control System (TACS) elements (i.e., BCC, CRC, ASOC, AWACS, AOC) (1)				K			
3.3.1.2. Define Mission Command and purpose of Mission Type Orders (1)					K		
3.3.1.3. Identify acceptable level of risk (1)				K	K		
3.3.1.4. Identify the levels of war (1)				K	K		
3.3.1.5. Identify Combatant Commands and Combined Commands (1)				K			
3.3.1.6. Identify Major Commands (1)				K			
3.3.1.7. Explain command authorities (i.e., OPCON, ADCON, TACON) (1)				K			
3.3.1.8. Identify components of the Theater Air Ground System (1)				K			
3.3.1.9. Identify Defense Conditions (DEFCONs) (1)							

3.3.1.10. Explain Air Defense Emergencies (1)							
3.3.1.11. Explain the core functions & responsibilities of Operational C2 (2)					K		
3.3.1.12. Identify the fundamental C2 functions (2)				K			
3.3.1.13. Define Air Domain awareness (2)					K		
3.3.1.14. Explain Operational Risk Management (ORM) process (2)				K			
3.3.1.15. Apply ORM in missionized scenario (2)				P			
3.3.1.16. Identify methods to gain threat awareness (e.g., Systems, Capabilities, Intel) (3)				K			
3.3.1.17. Define Information Dominance (3)					K		
3.3.1.18. Define decision superiority (3)					K		
3.3.1.19. Define pacing threats (3)				K			
3.3.1.20. Identify adversary nations threat profile and global priorities (3)					K		
3.3.1.21. Define the kinetic/non-kinetic mission (3)				K	K		
3.3.1.22. Identify USAF aircraft and categories (i.e., MAF, CAF, Special Operations Forces) (3)				K	K		
3.3.1.23. Identify Air to Air Threats (3)				K	K		
3.3.1.24. Identify Surface to Air Threats (3)				K	K		
3.3.1.25. Identify Air to Surface Threats (3)				K	K		
3.3.1.26. Define Radar Fundamentals (3)				K	K		
3.3.1.27. Define active/passive sensor concepts (e.g., characteristics, types, and weather considerations) (3)				K	K		
3.3.1.28. Define Electronic Warfare (3)				K			
3.3.1.29. Identify purpose of mission planning documents (i.e., JAOP, AOD, AADP, ATO, ACO, SPINS, ROE, OPTASKLINK) (4)				K			
3.3.1.30. Identify the purpose of the US National **Security** Strategy (NSS) (4)				K	K		
3.3.1.31. Identify the purpose of the US National **Defense** Strategy (NDS) (4)				K	K		
3.3.1.32. Identify the purpose of the US National **Military** Strategy (NMS) (4)				K	K		
3.3.1.33. Identify the purpose and elements of JP 3-0 Joint Operations (4)					K		
3.3.1.34. Describe read file and local directives and their impacts on mission sets (4)				K			
3.3.2. Battle Management Principles (Intermediate) **Required Behaviors:** '1. Explains relationships between Command and Control organizations and mission responsibilities							

2. Explains responsibilities of strategic leaders and guidance they produce 3. Explains battle management functions, responsibilities, and procedures 4. Outlines friendly and adversary systems, missions, capabilities, and limitations 5. Extracts key information from guiding documents **Criteria:** *Depth of Knowledge: New practices of all workplace elements*							
3.3.2.1. Explain components of Air Domain Awareness (1)					K		
3.3.2.2. Associate TACS elements to the levels of war (1)				K			
3.3.2.3. Differentiate Combatant Commands and Combined Commands (1)				K	K		
3.3.2.4. Differentiate Major Commands (1)				K	K		
3.3.2.5. Explain how command authorities (i.e., OPCON, ADCON, TACON) apply in various scenarios (1)				K	K		
3.3.2.6. Identify components of the Theater Air Ground System by their functions (1)				K	K		
3.3.2.7. Associate Area Air Defense Commander roles and responsibilities to Integrated Air Missile Defense (IAMD) (2)							
3.3.2.8. Identify mission, roles, function, and organization of Theater Air Control System (TACS) elements (1)				K	K		
3.3.2.9. Explain the purpose of North Atlantic Treaty Organization (NATO) (1)				K			
3.3.2.10. Describe acceptable level of risk and its considerations (2)					K		
3.3.2.11. Explain core concepts of Mission Command (2)				K			
3.3.2.12. Interpret Mission Type Orders to include Specified and Implied Tasks (2)					K		
3.3.2.13. Associate the fundamentals of Joint Operations (Ref: JP 3-0) to the levels of war (2)							
3.3.2.14. Differentiate the fundamental C2 functions (3)					K		
3.3.2.15. Differentiate continuum of control procedures (3)					K		
3.3.2.16. Associate threat information to mission impact (4)		5		K			
3.3.2.17. Identify Air to Air Threat capabilities (4)					K		
3.3.2.18. Identify Surface to Air Threat capabilities (4)					K		
3.3.2.19. Identify Air to Surface Threat capabilities (4)					K		
3.3.2.20. Associate Radar Fundamentals to Electronic Warfare principles (4)					K		
3.3.2.21. Interpret National Security Guidance regarding pacing threats (5)		5			K		

3.3.2.22. Interpret mission planning documents (e.g., JAOP, AOD, AADP, ATO, ACO, SPINS, ROE, OPTASKLINK) (5)				K	K		
3.3.2.23. Apply information from Flight Crew Information File (FCIF)/Special Interest Items (SII) to missionized scenario (5)				P			
3.3.3. Battle Management Principles (Advanced) **Required Behaviors:** 1. Incorporates strategic leader guidance and proposes COAs 2. Validates responsibilities and procedures 3. Briefs friendly and enemy systems, missions, capabilities, and limitations **Criteria:** *Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area*							
3.3.3.1. Oversee implementation of C2 policies and procedures (1)							
3.3.3.2. Associate organizational mission to National Security Documents (1)		7					
3.3.3.3. Describe similarities and differences of Joint, Allied, Coalition, and Host Nation entities (1)		7				K	
3.3.3.4. Extract delegated authorities from theater guidance to develop authorities matrix (2)							
3.3.3.5. Define Joint All Domain Command and Control (JADC2) (e.g., Multi domain connectivity, Cross-Domain Fires, Sensor to Shooter Linkages, Dynamic Retasking / Replanning, cloud-based infrastructure) (2)						K	
3.3.3.6. Associate Threat capabilities and limitations to Operations Plans (OPLANs) (3)							
3.3.3.7. Associate Friendly aircraft capabilities and limitations (US and Coalition) to Operations Plans (OPLANs) (3)							
3.3.4. Battle Management Principles (Expert) **Required Behaviors:** 1. Evaluates plans and procedures and recommends changes to key stakeholders 2. Validates or establishes new guidance and procedures **Criteria:** *Depth of Knowledge: Established practice with some workplace elements*							
3.3.4.1. Analyze Threat capabilities, limitations, and impacts to operations (1)							

3.3.4.2. Analyze Friendly (i.e., US and Coalition) capabilities, limitations, and impacts to operations (1)							
3.3.4.3. Direct C2 publications reviews (2)							
3.3.4.4. Evaluate Joint All Domain Command and Control (JADC2) (e.g., Multi domain connectivity, Cross-Domain Fires, Sensor to Shooter Linkages, Dynamic Retasking / Replanning, cloud-based infrastructure) implementation (2)							
3.4. Planning **Description:** The process of defining requirements, allocating capabilities, and preparing teams to achieve operational and strategic objectives with post mission analysis to capture best practices. **Supporting Competencies:** Communication, Analytical Thinking, Accountability, Teamwork **TR:** JP 5-0, JP 3-30, AFTTP 3-3.IPE, AFMAN 13-1 CRC Vol 3, AFMAN 13-1 AOC Vol 3, CJCSI 3151.01							
3.4.1. Planning (Basic) **Required Behaviors:** 1. Supports stakeholders for mission planning efforts 2. Provides proper inputs during planning, briefing, or debriefing efforts and informs lessons learned 3. Identifies planning process steps and inputs **Criteria:** *Consistency of Application: Sustained application of competency over time*							
3.4.1.1. Identify key stakeholders for mission planning (1)				K			
3.4.1.2. Describe roles and responsibilities of key stakeholders to support mission accomplishment (1)				K			
3.4.1.3. Identify key information for a COA proposal (2)		5					
3.4.1.4. Identify methods for information gathering (2)				K			
3.4.1.5. Identify Data Link planning considerations (2)				K			
3.4.1.6. Define purpose and function of a Mission Planning Cell (2)				K			
3.4.1.7. Identify Unit-level responsibilities associated with Airspace Control Plan (ACP)/Air Tasking Order (ATO) / Area Air Defense Plan (AADP) Implementation (2)							
3.4.1.8. Identify characteristics of decision making (3)				K			
3.4.1.9. Define Course of Action and Strategy (3)					K		

3.4.1.10. Identify the steps in the Air Force Planning Process (3)					K		
3.4.1.11. Associate Air Force Planning Process with Tactical/Operational mission planning (3)					K	K	
3.4.1.12. Review mission planning briefing and contracts (e.g., contract, authority, communication, action) (3)				P			
3.4.1.13. Identify Emissions Control (EMCON) Plan steps (3)				K			
3.4.1.14. Define a Contract (3)				K			
3.4.1.15. Identify the Joint Planning Process outlined in JP 5-0 (3)					K		
3.4.2. Planning (Intermediate) **Required Behaviors:** 1. Explains planning process steps, inputs, and outcomes 2. Provides proper inputs during planning, briefing, or debriefing efforts and informs lessons learned 3. Supports planning efforts and provides inputs to support commanders intent **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
3.4.2.1. Explain Mission Planning Cell processes (1)					K		
3.4.2.2. Develop Emissions Control (EMCON) plan (1)							
3.4.2.3. Develop a missionized SMART goal (1)		5					
3.4.2.4. Implements Air Force Planning Process for Tactical/Operational mission planning (e.g., 3-3 Integrated Planning Employment) (2)							
3.4.2.5. Participate in crew mission briefing and debriefing (2)				P			
3.4.2.6. Extract information from guidance (e.g., Air Operations Directive, Special Instructions, Rules of Engagement, Area Air Defense Plan, Airspace Control Order, Airspace Control Plan) (2)		5		P	pk		
3.4.2.7. Develop a problem statement from an analyzed scenario/situation (3)							
3.4.2.8. Collaborate with key stakeholders for mission planning (3)							
3.4.2.9. Develop COAs to address a decision point (3)		5					
3.4.3. Planning (Advanced) **Required Behaviors:** 1. Leads teams through mission planning process 2. Analyzes planning process steps and propose solutions to accomplished guidance							

3. Evaluates lessons learned and drives COA improvement **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*							
3.4.3.1. Brief mission plan to meet Commander's Intent (1)							
3.4.3.2. Define the differences between a Debrief Focal Point and Learning Point (1)		5				K	
3.4.3.3. Define Mission, Environment, Enemy, Effects, Capabilities, Plan, Phasing, Contracts, Contingencies (ME3C-PC^2) for tactical problem solving (2)		7				K	
3.4.3.4. Apply the steps of the Mission, Environment, Enemy, Effects, Capabilities, Plan, Phasing, Contracts, Contingencies (ME3C-PC^2) planning methodology (2)		7				pk	
3.4.3.5. Distribute external agency memorandums, letters of agreement, and/or partnership agreements (2)							
3.4.3.6. Prepare external agency memorandums, letters of agreement, and/or partnership agreements (2)							
3.4.3.7. Define the key elements of an instructional fix (3)		7				K	
3.4.3.8. Assess key mission events to support mission reconstruction and debrief (3)							
3.4.3.9. Assess trends / lessons learned during mission execution (3)							
3.4.3.10. Develop methods to correct trends/lessons learned (e.g., corrective action plan) (3)							
3.4.3.11. Assess external coordination requirements for standard and non standard mission sets (3)							
3.4.4. Planning (Expert) **Required Behaviors:** 1. Develops best practices by evaluating prior mission effectiveness 2. Leads teams of personnel through planning efforts to meet the Commander's intent **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*							
3.4.4.1. Evaluate guidance/direction against effects-based planning concepts (1)							
3.4.4.2. Analyze Courses of Action (COA) through lessons learned (1)							

3.4.4.3. Recommend COAs based on operational environment analysis (2)							
3.4.4.4. Translate operational and strategic guidance to achieve mission success (e.g., Offensive Plan, Air Operations Directive, National Security Documents) (2)							
3.5. Communications/Information Sharing **Description:** The process of gathering and sharing information as a force multiplier to enhance mission accomplishment. **Supporting Competencies:** Communication, Analytical Thinking, Organizational Awareness, Precision **TR:** CJCSM 6120.01, MIL-STD-6016, ALSSA / AFTTP 3-2.5, AFMAN 13-1 CRC Vol 1 & 3, AFMAN 17-1302-0, AFI 10-701, AFI 11-214, DERG							
3.5.1. Communications Information Sharing (Basic) **Required Behaviors:** 1. Identifies communication means, methods, and proper procedures 2. Identifies systems, structure, components, and limitations 3. Identifies reference system features, components, and proper format 4. Identifies COMSEC, encryption, and information security requirements **Criteria:** *Consistency of Application: Sustained application of competency over time*							
3.5.1.1. Explain external C2 agencies for data link troubleshooting				K			
3.5.1.1. Review mission fact sheet and coordination card for mission planning (1)				P			
3.5.1.2. Configure Internal and External Communication equipment (1)				P			
3.5.1.3. Configure radios for secure/non-secure anti-jam voice and data operations (1)				P			
3.5.1.4. Operate crew coordination methods (e.g., Chat, internal nets, collaborations) (1)				P			
3.5.1.5. Perform internal crew coordination (1)				P			
3.5.1.6. Perform external agency coordination (1)				P			
3.5.1.7. Perform Voice Tell procedures IAW crew aid (1)				P			
3.5.1.8. Perform cross, force and stop tell procedures to link participants (1)				P			

3.5.1.9. Recognize TDL errors (1)				P			
3.5.1.10. Locate link participant information utilizing the Operational Tasking Data Link (OPTASK LINK) (e.g., unit filters, track blocks) (1)				P			
3.5.1.11. Identify purpose of data link governing documentation (e.g., Chairman Joint Chiefs of Staff Manual (CJCSM) 6120 Joint Multi-Tactical Data Link Operating Procedures (JMTOP)) (1)					K		
3.5.1.12. Interpret TDL messages (e.g. PPLI, FTM, MTM, RTM) (1)				P			
3.5.1.13. Report Electromagnetic Interference IAW contracts and employment standards (1)				P			
3.5.1.14. Counter communications jamming IAW contracts and employment standards (1)				P			
3.5.1.15. Identify features of Common Operational/Tactical Picture (1)				K			
3.5.1.16. Identify roles of Primary Track Producer and Track By Exception (1)				K			
3.5.1.17. Communicate Intelligence, Surveillance, and Reconnaissance reports IAW contracts and employment standards (e.g., LOWDOWN, Tactical Reports) (1)				P			
3.5.1.18. Apply brevity to battle management actions (1)				P			
3.5.1.19. Identify RADC/SADC coordination responsibilities (1)		5		K	K		
3.5.1.20. Identify Types of Coordination Nets (e.g. Datalink Coordination Net, Voice Product Net) (1)				K			
3.5.1.21. Explain effects of electromagnetic interference (1)				K			
3.5.1.22. Identify inter-agency communication pathways and data link architecture (1)				K			
3.5.1.23. Perform Radio Telephony procedures IAW contracts and employment standards (1)				P			
3.5.1.24. Identify brevity terms (1)				K			
3.5.1.25. Identify Fire Support Coordination Measures (1)				K			
3.5.1.26. Explain use for TDL filters (1)				K			
3.5.1.27. Utilize TDL filters (1)				P			
3.5.1.28. Perform basic data link troubleshooting (1)				P			
3.5.1.29. Develop brief (e.g. System of the Day, Threat Of the Day, ID Matrix) (1)				P			
3.5.1.30. Perform brief (e.g. System of the Day, Threat Of the Day, ID Matrix) (1)				P			
3.5.1.31. Identify characteristics of active listening (1)				K			
3.5.1.32. Adjust communication style to meet audience demands (1)							

3.5.1.33. Explain aspects of communication (e.g., clarity and impact, active reception and empathy, adaptability) (1)				K			
3.5.1.34. Communicate positional data IAW contracts and governing documentation (2)				P			
3.5.1.35. Configure TDL Equipment (e.g. JRE Software, link lab, or link emulation software) (2)				P			
3.5.1.36. Utilize system tools to automate surveillance and identification tasks (2)				P			
3.5.1.37. Identify features of the electromagnetic spectrum (e.g., characteristics of frequencies, frequency bands and bandwidth) (2)				K			
3.5.1.38. Report equipment discrepancies or anomalies IAW with contracts and employment standards (3)				P			
3.5.1.39. Utilize Geographical Coordinate Reference Systems (3)				P	pk		
3.5.1.40. Identify cryptographic materials and tools (e.g., Simple Key Loader) (4)				K			
3.5.1.41. Perform authentication procedures (4)				P			
3.5.1.42. Adhere to Communications Security (COMSEC) /Operations Security (OPSEC) protocols (4)				P			
3.5.2. Communications Information Sharing (Intermediate) **Required Behaviors:** 1. Explains communication means, methods, and proper procedures 2. Defines systems, structure, components, and limitations 3. Explain reference system features, components, and format **Criteria:** *Consistency of Application: Sustained application of competency over time in a variety of situations*							
3.5.2.1. Utilize cryptographic materials and tools to enable voice and data communication (1)							
3.5.2.2. Coordinate with C2 agencies to resolve data link errors (1)				P			
3.5.2.3. Develop communication card using Information Exchange Requirements and data (1)							
3.5.2.4. Apply learning points to improve communication standards and contracts (1)				P			
3.5.2.5. Explain internal and external communication equipment configuration and features (1)				K			
3.5.2.6. Utilize crew coordination methods (1)				P			

3.5.2.7. Explain components of Operational Tasking Data Link to participate in Tactical Data Link networks (1)				K			
3.5.2.8. Apply TDL filters to resolve information exchange errors (1)				P			
3.5.2.9. Correct data link message set errors (e.g., using Data Extraction and Reduction Guide (DERG) tools) (1)							
3.5.2.10. Perform external agency coordination (1)				P			
3.5.2.11. Utilize TDL governing documentation to participate in TDL networks (1)				P			
3.5.2.12. Explain Intelligence, Surveillance, and Reconnaissance reports IAW contracts and employment standards (1)				K			
3.5.2.13. Perform RADC/SADC coordination responsibilities (1)							
3.5.2.14. Utilize brevity terms in internal and external communication (1)				P			
3.5.2.15. Explain inter-agency communication pathways and data link architecture (1)				K			
3.5.2.16. Explain TDL Equipment and radios/frequency spectrum (1)				K			
3.5.2.17. Explain COMSEC tools and features, encryption, and information security requirements (1)					K		
3.5.2.18. Contribute to Common Operational or Tactical Picture (COP, CTP) (e.g., manipulation of system tell areas, management of manual tracks, change data order messages) (1)				P			
3.5.2.19. Correct COP/CTP errors through effective communication on Data Link Coordination (DCN), Voice Product Nets (VPN), and Track Supervision Net (TSN) (1)				P			
3.5.2.20. Manage Multi-TDL Network (e.g., Link 11, Link 16, SADL, JREAP) to ensure seamless flow of data (1)							
3.5.2.21. Instruct brief procedures (e.g., System of the Day, Threat of the Day, Tactical Board Brief, ID Matrix) (1)		5					
3.5.2.22. Perform characteristics of active listening (1)				P			
3.5.2.23. Instruct how to adjust communication style to meet audience demands (1)		5					
3.5.2.24. Demonstrate aspects of communication (e.g., clarity and impact, active reception and empathy, adaptability) (1)		5					
3.5.2.25. Instruct Communications Security (COMSEC) / Operations Security (OPSEC) adherence (1)							
3.5.2.26. Utilize system tools to automate surveillance communication tasks (2)							
3.5.2.27. Explain features of Electronic Warfare (e.g., Data Link intrusion, communications jamming, chat intrusion) (2)				K			
3.5.2.28. Explain propagation of radio frequencies (2)				K	K		

3.5.2.29. Develop standardized weapon system features (e.g., TDF profiles, tags, key bindings, filters) (3)							
3.5.2.30. Manage reference points, overlays, and other tactical graphics within the system (3)				P			
3.5.2.31. Utilize appropriate reference system and format for communicating positional data (3)				P			
3.5.3. Communications Information Sharing (Advanced) **Required Behaviors:** 1. Teaches voice communication means, methods, and proper procedures 2. Demonstrates digital network features, structure, components, and limitations 3. Instructs reference system features, components, and proper format **Criteria:** *Consistency of Application: Sustained application of competency over time in complex situations*							
3.5.3.1. Evaluate brief procedures (e.g., System of the Day, Threat of the Day, Tactical Board Brief, ID Matrix) (1)							
3.5.3.2. Instruct characteristics of active listening (1)		7					
3.5.3.3. Evaluate the use of proper radio/telephony (R/T) procedures and brevity words (1)							
3.5.3.4. Determine the most effective voice communication nets for internal and external communication in a complex tactical scenario (1)							
3.5.3.5. Integrate various crew coordination methods to ensure seamless information flow and shared situational awareness (1)							
3.5.3.6. Integrate Communications Security (COMSEC) and Operations Security (OPSEC) principles into all mission planning and execution procedures (1)							
3.5.3.7. Evaluate adherence to Communications Security (COMSEC) protocols (e.g., proper handling, storage, accountability, and destruction of classified and cryptographic materials) (1)							
3.5.3.8. Instruct track production procedures to minimize Common Operational Picture errors (1)							
3.5.3.9. Analyze Tactical Data Links (TDLs) capabilities and limitations (2)							
3.5.3.10. Design data link filters plans to meet Information Exchange Requirements. (2)							
3.5.3.11. Resolve complex TDL issues (e.g., connectivity problems, data degradation, and message conflicts) (2)							

3.5.3.12. Direct the execution of authentication procedures (3)							
3.5.3.13. Manage the configuration of radios (3)							
3.5.4. Communications Information Sharing (Expert) **Required Behaviors:** 1. Validates voice communication means, methods, and procedures 2. Establishes digital network features, components, structure 3. Evaluates compliance with reference system features, components, and format **Criteria:** *Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency*							
3.5.4.1. Evaluate crew-wide radio/telephony (R/T) discipline during large force and complex employment (1)							
3.5.4.2. Formulate the unit's COMSEC/OPSEC procedures and advanced training to counter electronic threats (1)							
3.5.4.3. Develop multi-TDL network architecture IAW joint operational documents to meet information exchange requirements (2)							
3.5.4.4. Create stable, multi-link network plan that includes joint and allied partners (2)							
3.5.4.5. Validate Combatant Commander Information Exchange Requirements are met through the Common Operational Picture (COP) (3)							
3.5.4.6. Assess operator performance in the use of geographical coordinate systems (3)
