AFSC 2W0X1
MUNITIONS SYSTEMS

Basic Senior Master

MUNITIONS SYSTEMS OCCUPATIONAL BADGE DISCRIPTION: The badge includes the heraldic shield, which also represents the United States' advanced conventional stockpile acting as a deterrent to forestall enemy attacks. The shell and flame, of which is synonymous with this great profession, is traced back as far as 1802 with the Spanish artillery. The shell and flame is a reminder that we are custodians of the USAF arsenal, readied and made available at all times, for national defense. The olive wreath surrounding the shield symbolizes the peace provided by defending the United States in performing this unique profession. The insignia includes three variations for the basic, senior, and master level echelons.

CAREER FIELD EDUCATION AND TRAINING PLAN

ACCESSIBILITY: Publications and forms are available on the e-Publishing website www.e-publishing.af.mil for downloading or ordering.

RELEASABILITY: There are no releasability restrictions on this publication.

SUMMARY OF CHANGES: Numerous changes have been made throughout the document. Review in its entirety.

Supersedes CFETP 2W0X1, 21 Oct 2021 (Certified Current 26 May 2025)
Pages: 75

PART I

PREFACE

1. Training and developing highly skilled and motivated munitions technicians is a fundamental requirement to conduct successful operations and meet the ever-changing mission demands of today as well as those that rise up in the future! This CFETP is a comprehensive education and training document that identifies 2W0X1 education and training requirements, training support resources, and minimum core task requirements for the Munitions Systems specialty. The CFETP provides munitions personnel a clear career-path to success while incorporating all aspects of career field training. **NOTE:** Munitions managers should utilize Part II to support duty position qualification training for civilian personnel occupying associated munitions positions. This CFETP was developed in accordance with the requirements in DAFMAN 36-2689, *Training Program*, accessible at www.e-publishing.af.mil.

2. The CFETP consists of two parts; all parts are used by supervisors to plan, manage, and control training within the 2W0X1 AFSC. Trainees not only use the CFETP to outline their current and past training, but also as a roadmap to help guide them through their career path.

2.1. **Part I** provides information necessary for overall management of the specialty. Section A explains how individuals will use the plan; Section B identifies career field progression information, duties and responsibilities, training strategies, and career field path; Section C indicates resource constraints (i.e. funds, manpower, equipment, facilities); Section D identifies transition training guide requirements for the Munitions Systems (2W0) career field.

2.2. **Part II** is designed to provide a granular view of the requirements for task qualification and is a critical tool for effective talent management and skill development within the career field. Section A is the 2W0 Occupational Competency Model (OCM) and Behavioral Listing that directly corresponds to the Occupational Competency Model. Section B contains the Course Objective List (COL) and training standards supervisors will use to determine if Airmen satisfied training requirements. Section C identifies support materials such as career specific AFQTPs and other supplemental courses/resources. Section D identifies a training course index supervisors can use to determine resources available to support training. Included here are both mandatory and optional courses. Section E identifies MAJCOM unique training requirements supervisors can use to determine additional training required for the associated qualification needs. Section F is the 2W0 Specialty Training Standard (STS) and includes duties, tasks, Technical References (TRs) to support training, AETC conducted training, wartime course requirements, core task and correspondence course requirements. At unit level, supervisors and trainers will use Part II to identify, plan, and conduct training commensurate with the overall goals of this plan.

3. Using guidance provided in the CFETP will ensure munitions systems personnel (military and civilian) receive effective and efficient training at the appropriate point in their career development. This plan will enable us to train today's workforce for tomorrow's mission.

ABBREVIATIONS/TERMS EXPLAINED

Advanced Training (AT). Formal course which provides individuals who are qualified in one or more positions of their Air Force Specialty (AFS) with additional skills and knowledge to enhance their expertise in the career field. Training is for selected career Airmen at the advanced level of the AFS.

Air Force Career Field Manager (AFCFM). An individual at Air Staff that determines training needs and requirements and directs training programs for his/her career field(s).

Air Force Combat Ammunition Center (AFCOMAC). The common name for the 9th Munitions Squadron, located at Beale Air Force Base, where munitions systems personnel train on combat ammunition planning and employment.

Air Force Job Qualification Standard/Command Job Qualification Standard (AFJQS/CJQS). A comprehensive task list which describes a particular job type or duty position. AFJQS/CJQS is used by supervisors to document task qualifications. The tasks on AFJQS/CJQS are common to all persons serving in the described duty position.

Air Force Qualification Training Package (AFQTP). A training package that is used by field personnel to assist with task certification.

Career Field Education and Training Plan (CFETP). A CFETP is a comprehensive, multipurpose document encapsulating the entire spectrum of education and training for a career field. It outlines a logical growth plan that includes training resources and is designed to make career field training identifiable, to eliminate duplication, and to ensure this training is budget defensible.

Competencies. A combination of knowledge, skills, abilities and other characteristics that manifest in observable and measurable pattern of behaviors required for mission success.

Competency Model. A collection of competencies that together defines successful performance in a particular work setting. Competency models are the foundation for important human resource functions such as recruitment and hiring, training and development, and retention. Competency models can be developed for specific jobs, job groups, organizations, occupations, or missions.

Core Task. A task the AFCFM identifies as a minimum qualification requirement within an Air Force specialty or duty position as listed in Part II.

Course Objective List (COL). A publication derived from initial and advanced skills Course Training Standard, identifying the tasks and knowledge requirements, and respective standards provided to achieve 3- or 7-skill level in this career field. Supervisors use the continuum of learning to assist in conducting graduate evaluations.

Critical Tasks. Tasks identified by the work center supervisor as having a detrimental effect on mission accomplishment if not performed correctly. Critical tasks may or may not be the same as core tasks but are mandatory if identified as ‘critical’ to the individual’s position by the supervisor or work center.

Education and Training Course Announcement. Contains specific MAJCOM procedures, fund cite instructions, reporting instructions, and listings for those formal courses conducted or managed by the MAJCOMs or FOA.

Exportable Training. Additional training via computer assisted, paper text, interactive video, or other means to supplement training.

Field Technical Training (Type 4 or Type 7). Special or regular on-site training conducted by a field training detachment (FTD) or by a mobile training team (MTT).

Foundational Competencies. A set of accepted and valued competencies applicable to all Airmen (officer, enlisted, and civilian) to achieve success across the wide array of Air Force missions, roles, functions, and duties.

Initial Skills Training. A formal resident course which results in the awarding of the apprentice skill level within an Air Force Specialty (AFS).

MAJCOM Functional Manager (MFM). Identifies command qualification requirements and coordinates training solutions for skill levels assigned.

Master Task Listing (MTL). A comprehensive list (100%) of all tasks performed within a work center and consisting of the current CFETP or AFJQS and locally developed AF Form 797 (as a minimum). Should include tasks required for deployment and/or UTC requirements.

Master Training Plan (MTP). Employs a strategy for ensuring the completion of all work center job requirements by using a Master Task Listing and provides milestones for tasks, CDC completion, and prioritizes deployment/UTC, home station training tasks, upgrade, and qualification tasks.

Occupational Competencies. Competencies required by an individual to successfully execute a mission, role, function, job, task, or duty within a designated or specified workforce category or group of functions requiring similar work (e.g., Aircraft Maintenance, Civil Engineering, and Nursing).

Occupational Survey (OS). A detailed survey of tasks performed within a particular AFS.

On-the-Job Training (OJT). Hands-on, over-the-shoulder training conducted to qualify personnel in both upgrade (skill level award) and job qualification (duty position qualification) training.

Qualification Training (QT). Actual hands-on task performance training designed to qualify an individual in a specific duty position. This portion of the dual channel on-the-job training program occurs both during and after the upgrade training process. It is designed to provide the performance skills required to do the job.

Ready Airman Training. Training that prepares an Airman to survive, operate and succeed in a deployed environment, while reinforcing Airman's foundational competencies. Ready Airman Training provides Airmen the knowledge, skills, and abilities to survive, operate and succeed across the full range of military operations in support of the Combatant Command. These

knowledge, skills and abilities are not routinely acquired during initial occupational, mission oriented or ancillary training venues.

Resource Constraints. Resource deficiencies, such as money, facilities, instructor positions, student man-years, other manpower requirements, and equipment that preclude desired training from being delivered. MAJCOM Functional Managers coordinate with the respective Air Force Specialty Code functional in identifying and providing resources prior to initiation of course development.

Skills Training. A formal course which results in the award of a skill level.
Specialty Training. A mix of formal training (technical school) and informal training (on-the-job) to qualify and upgrade Airmen in the award of a skill level.

Specialty Training Standard (STS). An Air Force publication that describes the skills and knowledge an Airman in a particular Air Force specialty needs on the job. It further serves as a contract between AETC and the user to show the overall training requirements for an Air Force specialty code that the formal schools teach.

Standard. An exact value, a physical entity, or an abstract concept, established and defined by authority, custom, or common consent to serve as a reference, model, or rule in measuring quantities or qualities, establishing practices or procedures, or evaluating results.

Task Qualified. Identifies individuals who have completed training on both core and non-core tasks. Individual and trainer initial training completion blocks of the STS, the person is then considered qualified to perform that task.

Total Force. The United States Air Force's Total Force includes the Regular Air Force (RegAF), Air National Guard (ANG), Air Force Reserve (AFR), civilian workforce, and the Combat Air Patrol when conducting missions for the Air Force as the official Air Force Auxiliary.

Training Business Area (TBA) 2.0. A web-based application providing real-time visibility of technical qualifications, certifications, and training status. It duplicates or replaces the functionality of the STS.

Training Planning Team (TPT). Comprised of the same personnel as a U&TW, however TPTs are more intimately involved in training development, and the range of issues are greater than is normal in the U&TW forum.

Upgrade Training (UGT). Mandatory training which leads to attainment of a higher skill level.

Utilization and Training Workshop (U&TW). A forum of the Air Force Career Field Manager (AFCFM), MAJCOM Functional Managers, Subject Matter Experts (SME), and AETC training personnel that determine career training requirements.

SECTION A – GENERAL INFORMATION

A1. **Purpose of the CFETP.** This CFETP provides information necessary for AFCFM, MFM, commanders, training managers, supervisors and trainers to plan, develop, manage, and conduct an effective career field training program. The plan outlines the training individuals in this AFS

should receive to develop and progress throughout their career. This plan identifies initial skills, upgrade, qualification, advanced and proficiency training. Initial skills training is the AFS specific training an individual receives upon entry into the AF or upon retraining into this specialty for award of the 3-skill level. Normally, this training is conducted by AETC at one of the technical training centers. Upgrade training identifies the mandatory courses, task qualification requirements, and correspondence course completion requirements for award of the 3-, 5-, 7-, 9-skill level. Qualification training is actual hands-on task performance training designed to qualify an Airman in a specific duty position. This training program occurs both during and after the upgrade training process. It is designed to provide the performance skills and knowledge required to do the job. Advanced training is formal specialty training used for selected airmen. Proficiency training is additional training, either in-residence or exportable advanced training courses, or on-the-job training provided to personnel to increase their skills and knowledge beyond the minimum required for upgrade. The CFETP has several purposes—some are:

A1.1. Serves as a management tool to plan, manage, conduct, and evaluate a career field-training program. Also, it is used to help supervisors identify training at the appropriate point in an individual's career.

A1.2. Identifies task and knowledge training requirements for each skill level in the specialty and recommends education and training throughout each phase of an individual's career.

A1.3. Lists training courses available in the specialty, identifies sources of training, and the training delivery method.

A1.4. Identifies major resource constraints that impact full implementation of the desired career field training process.

A2. **Use of the CFETP.** The plan will be used by MFMs and supervisors at all levels to ensure comprehensive and cohesive training programs are available for everyone in the specialty.

A2.1. 2W0X1 AETC training personnel will develop or revise formal resident, nonresident, field and exportable training based upon requirements established by the users and documented in Part II of the CFETP. They will also work with the AFCFM to develop acquisition strategies for obtaining resources needed to provide the identified training.

A2.2. 2W0X1 MFMs will ensure their training programs complement the CFETP mandatory initial, upgrade, and proficiency requirements. OJT, resident training, and contract training or exportable courses can satisfy identified requirements. MAJCOM-developed training to support this AFSC must be identified for inclusion into the plan.

A2.3. Everyone will complete the mandatory training requirements specified in this plan. The list of courses in Part II will be used as a reference to support training.

A3. **Coordination and Approval of the CFETP.** AFCFM (HQ AF/A4LW) is the approval authority for the CFETP. The AFCFM and MFMs will ensure the currency and accuracy of this document in accordance with the requirements and timelines specified in DAFMAN 36-2689, *Training Program*.

A3.1. MAJCOM representatives and the AFCFM will identify and coordinate on 2W0X1 training requirements utilizing the list of courses in Part II to eliminate duplicate training.

A3.2. All questions or change recommendations regarding the CFETP will be routed through the respective MFM for discussion at the 2W0X1 U&TW.

SECTION B – CAREER PROGRESSION AND INFORMATION

B1. **Specialty Summary, Duties, Responsibilities, and Qualifications.** The source document for Specialty Summary, Duties, Responsibilities, and Qualifications is the Department of the Air Force Enlisted Classification Directory (DAFECD) available online, in MyFSS at: https://myfss.us.af.mil/ by searching for DAFECD. This document is reviewed by MFMs and AFCFM every six months, published on MyFSS, and is an authoritative data source for career entry and progression.

B2. **Competency Based Progression.** The Air Force defines competencies as a combination of knowledge, skills, abilities and other characteristics that manifest in observable and measurable pattern of behaviors required for mission success. The Munitions Systems Specialty has rebuilt the training platform using competencies to identify the behaviors that are needed to be successful in the profession. This has been accomplished by identifying and integrating the 2W0XX occupational competencies and leveraging the Air Force's foundational competencies in a manner that provides Airmen pathways to successful development. The Foundational Competencies are a set of accepted and valued competencies, which enable success across a wide array of AF missions, roles, functions, and duties. These competencies are the core of Airmen development and enable Airmen with tools, pathways, and capabilities to improve their performance in any job, specialty, or situation. The foundational competencies are grouped into different categories of Developing Self, Others, Ideas, and Organization. Occupational Competencies are required of all Airmen within a specific workforce category and provide the breadth of experience across the AFS. These competencies provide a framework that describes the knowledge, skills, abilities, and other characteristics needed to perform the mission successfully.

	Competency	Definition
Developing Self	Accountability	Demonstrates reliability and honesty; takes responsibility for the actions and behaviors of self and team
	Perseverance	Displays grit in accomplishment of difficult long-term goals. Works strenuously toward challenges; maintains effort and interest over years despite failure, adversity, and plateaus in progress.
	Communication	Effectively presents, promotes and prioritizes varied ideas and issues both verbally and non-verbally through active listening, clear messaging, and by tailoring information to the appropriate audience
	Decision Making	Makes well-informed, effective and timely decisions that weigh situational constraints, risks, and benefits
	Information Seeking	Demonstrates an underlying curiosity; desires to know more about things, people, oneself, the mission or issues; an eager, aggressive learner
	Flexibility	Adapts to and works with a variety of situations, individuals, or groups effectively
	Resilience	Negotiates, manages, and adapts to significant sources of stress or trauma
	Initiative	Does more than is required or expected to improve job results; takes action appropriately without prompting
	Self-Control	Keeps emotions under control and restrains negative actions when under stress
Developing Others	Teamwork	Collaborates effectively with others to achieve a common goal or complete a mission task
	Develops People	Invests in others to maximize their contributions to the mission by inspiring and providing an environment of continual feedback and learning opportunities
	Service Mindset	Desires to help or serve others to meet their needs; makes and focuses efforts to discover and meet others' needs
	Leadership	Inspires, builds, and sustains others' motivation and morale to accomplish the mission; organizes people and actions
Developing Ideas	Analytical Thinking	Identifies problems, evaluates alternative perspectives / solutions, makes effective recommendations, and identifies courses of action
	Digital Literacy	Uses technology to identify, critically evaluate and synthesize data and information; explore, create and manage digital content; and appropriately interact in a virtual environment
	Creative Thinking	Develops new insights into new situations; questions conventional approaches
	Fostering Innovation	Builds a culture of behaviors and business practices that encourages, champions, and rewards creativity and informed risk taking; is open to change
	Influence	Intends to persuade, convince, or impress others to elicit their support to make specific impacts or achieve particular effects on others
Developing Orgs	Resource Management	Carefully and responsibly administrates resources placed under an Airman's control with the intent to maximize readiness and lethality and improve organizational performance
	Results Focused	Demonstrates concern for working well or for competing against a standard of excellence
	Change Management	Adapts, helps others adapt, or implements change with the goal of ensuring unit goals are properly aligned to the desired end state
	Strategic Thinking	Considers and organizes activities and resources to achieve a desired goal; thinks on a large and small scale, long- and short-term
	Precision	A concern for order, quality, and accuracy with an underlying drive to reduce uncertainty in the environment

Figure 1.1. Airmen's Foundational Competencies (AFH 36-2647).

B3. **Occupational Competency Model.** A career field's competencies can be viewed in a model, which is an organized collection pertinent to the career field. The occupational model provides a framework to effectively assess, maintain, and monitor the competencies required for mission success for Airmen within the Munitions Systems career field. The occupational modeling process follows a distinct process with continued involvement from the career field and allows Airmen to see how their task lists, OJT, formal courses, and other training, education, and experiences are aligned to the career field's strategic objectives. Career fields work with trained experts to identify and develop an AFS mission-based competency model, which consists of the competencies, sub-competencies, and definitions. The model focuses on integrating not just the technical components, but also leadership, management, combat, joint, all-domain, and social mastery required for Airmen to succeed in their career field. General overview for specific competencies and sub-competencies is outlined in Part II of this CFETP.

B4. **Skills and Career Progression.** Adequate training and timely progression from the apprentice to the superintendent skill level play an important role in the Air Force's ability to accomplish its

mission. It is essential that everyone involved in training do their part to plan, manage, and conduct an effective training program. The guidance provided in this part of the CFETP will ensure each individual receives viable training at appropriate points in their career.

B4.1. Apprentice (3) Level.

- Training: Completion of the Munitions Systems Apprentice course, J3ABR2W031 047.
- Experience: Upon completion of the Munitions Systems Apprentice course, trainees will work with a trainer to enhance their knowledge and skills. They will use the 2W051 Career Development Course (CDC) and Task Qualification Training identified in the STS, AFJQS, MAJCOM, and base level-identified training programs to progress within the AFSC. Once qualified on a task, a 2W031 may perform the task unsupervised, except when prohibited by safety or security requirements.

B4.2. Journeyman (5) Level.

- Training: Completion of the 2W051 CDCs, core tasks, and 12 months OJT (minimum of 9 months for retrainees).
- Experience: CDCs may be completed in any sequence. Supervisors determine which CDC part an upgrade Airman will enroll. 2W051 Part 1 encompasses a general approach to 'munitions systems' organization structure and processes and materiel; while 2W051 Part 2 generally references production techniques, equipment, and specific munitions items. The 12-month OJT requirement is pre-established period required for trainees to continue gaining experience, increasing task proficiency, and enhancing knowledge competency required to execute additional responsibilities levied upon Journeymen. Once upgraded to the 5-skill level, a Journeyman will enter into experience-based career-broadening continuation training. 2W051 personnel will be assigned positions commensurate with their rank, abilities, and experience. Individuals will use their CDC to prepare for Weighted Airman Promotion System (WAPS) testing. 2W051 personnel are highly encouraged to consider continuing their education toward the award of an Associate's or higher-level degree from a nationally or regionally accredited institution.

B4.3. Craftsman (7) Level.

- Training: Completion of the ACC 7 Lvl Combat Ammunition Planning and Production course, ACC AFCOMAC 7, core tasks, and 12 months OJT.
- Experience: Qualification in and possession of AFSC 2W051. Craftsmen can expect to fill various supervisory positions within an organization. They may also be assigned to work in staff positions at squadron, group, wing, or MAJCOM levels. Our 7-skill level munitions personnel are highly encouraged to continue academic educational pursuits through Associate's or higher-level degree programs.

B4.4. Superintendent (9) Level.

- Training: Completion of the Advanced Munitions Systems course, J3AAR2W091 047, ACC 9 Lvl Combat Ammunition Planning and Production course, ACC AFCOMAC 9, and core tasks.
- Experience: Qualification in and possession of AFSC 2W071. 9-skill level munitions managers can be expected to fill supervisory and management positions within an organization. They should also strive to gain experience in all major functional divisions and should seek additional training in budget, manpower, resources, and personnel management through continuing education programs. They may be assigned to work in staff positions at squadron, group, wing, or command levels.

B4.4.1 AFCOMAC. SMSgts and CMSgts will attend AFCOMAC CAPP course when scheduled to ensure proper class structure and appropriate training of all attendees is accomplished.

B5. **Munitions Badge Criteria.**

Basic Badge: is awarded after the successful graduation of The Apprentice Munitions Systems Specialist course, coupled with the award of the 5-skill level, review, approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

Senior Badge: is awarded after 6 years of performing in munitions related positions; certification as a munitions crew chief, the award of the 7-skill level and review, approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

Master Badge: is awarded after 10 years of performing in munitions coded positions, the award of the 9-skill level, meeting all requirements for the senior badge, and review, approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

B6. **Missile Maintenance Badge Criteria.**

Basic Badge: is awarded after completion of Apprentice Munitions Systems Specialist course and 12 months working directly with guided missiles or missile systems, and review approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

Senior Badge: is awarded after award of the 7-skill level, and 48 months cumulative experience in direct work with guided missiles or missile systems, and review approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

Master Badge: is awarded after MSgt or above with 5 years in the specialty from award of the 7-skill level and 60 months cumulative experience in direct work with guided missiles or missile Systems, and review approval, and certification by the assigned munitions squadron (or flight) chief and final approval by the commander. Document and process an AF Form 2096.

B7. **Maintenance Badge Criteria.**

Basic Badge: The wear of the basic badge is authorized after award of the 5-skill level.

Senior Badge: The wear of the senior badge is authorized after award of the 7-skill level.

Master Badge: The wear the master badge is authorized after award of the 9-skill level.

B8. **Training Decisions.** Training decisions are made during the Specialty Training Requirements Team (STRT) meeting and finalized during the Utilization and Training Workshop (U&TW). Functional managers utilize survey data in the decision-making process. The AFCFM, in conjunction with MFMs and Subject Matter Experts (SME), works with curriculum developers from the 363d Training Squadron, Sheppard AFB, to develop munitions systems training processes. Changes to the process, including this CFETP, the OCM/STS, AFJQS, CDCs, and formal course content, will be processed via local 2W0X1 supervision and forwarded to the MFM for coordination and consideration. The MFMs forward their recommendation to the AFCFM for coordination and approval.

Note: The CFETP uses a building block approach (Basic to Expert) to encompass the entire spectrum of training requirements for the 2W0X1 AFSC. The spectrum includes a strategy for when, where, and how to meet the training requirements. The strategy is apparent and affordable to reduce duplication of training and eliminate a disjointed approach to training.

B9. **Community College of the Air Force (CCAF).** Upon completion of basic military training and assignment to an AF career field, all enlisted personnel are registered in a CCAF degree program and are afforded the opportunity to obtain an associate in applied science degree. To be awarded, degree requirements must be successfully completed before the student separates from the Air Force, retires, or is commissioned as an officer. See DAFI 36-2688, *Community College of the Air Force*, and the CCAF website for details regarding the AAS degree programs at www.airuniversity.af.edu/CCAF/.

B9.1. Munitions Systems Technology Degree Requirements. Degree requirements for the Munitions Systems Technology degree (4VRA) can be found in the current Air University Community College of the Air Force (CCAF) General Catalog found at www.airuniversity.af.edu/CCAF/.

B9.2. Professional Certifications. Certifications assist the professional development of our Airmen by broadening their knowledge and skills. Additionally, specific certifications may award collegiate credit by CCAF and civilian colleges, saving time and Air Force tuition assistance funds. It also helps airmen to be better prepared for transition to civilian life. To learn more about professional certifications and credentialing programs, visit www.airuniversity.af.edu/Barnes/CCAF/Display/Article/803252/.

B9.3. Air Education and Training Commend (AETC) Instructor. Individuals desiring to become an AETC Instructor must possess at a minimum; an associate degree or should be actively pursuing

an associate degree. Instructor Special Duty Assignment (SDA) requires an AETC instructor candidate to have a CCAF degree or be within one year of completion (45 semester hours). A degree faculty is necessary to maintain accreditation through the Southern Association of Colleges and Schools.

Note: AFCOMAC Cadre must possess a degree in Munitions Systems Technology before the award of the 'T2W0X1' AFSC.

B9.4. Air Force Credentialing Opportunities On-Line (AF COOL). The AF COOL Program (https://afvec.us.af.mil/afvec/af-cool/welcome) is managed by CCAF and provides a research tool designed to increase an Airman's awareness of national professional credentialing and funding opportunities available for all Air Force occupational specialties. AF COOL also provides information on specific occupational specialties, civilian occupational equivalencies, AFSC-related national professional credentials, credentialing agencies, and professional organizations.

B9.5. Enlisted Development Teams (DT). The 2W0 DT is the deliberate force development steering group for the 2W0 career field. The 2W0 DT outlines the training, education, and experience requirements for key leadership positions (KLPs) within the munitions career path. Additionally, this DT provides recommendations to ensure the best-qualified Senior Noncommissioned Officers (SNCOs) are developed and placed into these KLPs at the unit, MAJCOM, and HQ AF levels. The guidelines and vectors are the 2W0 DT's collective recommendation for experience level, training, education, or position type that an individual can be considered for or should seek for additional professional growth. These vectors also consist of recommendations for identified positions with the 2W0 construct for which a member should seek out in subsequent assignments; however, it will not identify a specific location of assignment. The AFRC DT process is member initiated by completing the Development Plan through MyVector (https://myvector.us.af.mil/myvector). Vectors will be delivered to all SNCO's, completing their Development Plan and a cutoff will be established to develop a Key Personnel List by the DT board. 2W0XX DT policy and guidance can be found on the HAF AMMO SharePoint: https://usaf.dps.mil/teams/AMMO2W10027/HAF%20EDT/Forms/AllItems.aspx.

B9.6. DT Purpose, Objective, and Goal. The purpose of the DT is to define and integrate the processes required to develop MSgt, SMSgt and CMSgt 2W0s to meet current and future AF requirements and emphasizes educational and training opportunities. The objective is to deliberately develop MSgt, SMSgt and CMSgt 2W0s through a carefully tailored series of experiences and challenges combined with education and training opportunities. The goal is to produce dynamic 2W0 leaders to lead and manage conventional munitions operations during peacetime and conflict.

B10. **Enlisted Career Field Path.**

Rank	Upgrade Training	Professional Development (Note 1)	Career Ladder (Note 1)
AB, Amn, A1C 	3-Level Apprentice - Complete Initials Skills Course	- BMT - FTEC - CDCs	- Technician

SrA 	5-Level Journeyman - 12 months OJT (Retrainee 9 mo OJT) - Complete CDC - Complete Core Tasks	- Airmen Leadership School - Junior Enlisted Foundations Course - AF Trainer Course	- Technician - Supervisor - Crew Chief - Inspector
SSgt 	7-Level Craftsman - Minimum rank of SSgt - 12 months OJT - Complete AFCOMAC - Complete Core Tasks	- NCO Foundations Course - CCAF - DAF Training Course - Instructor Certification - Enlisted-to-AFIT	- Crew Chief - Supervisor - Inspector - NCOIC - Quality Assurance Evaluator - Tech Training Instructor - GACP Cell Technician
TSgt 	7-Level Craftsman - Complete Core Tasks	- NCOA - NCO Foundations Course - SEJPME I - Instructor Certification - CCAF - Enlisted-to-AFIT	- NCOIC - Section Chief - Production/Shift Supervisor - GACP Cell Supervisor - Quality Assurance Evaluator - Weapons Safety Mgr - Tech Training Instructor - AFCOMAC Instructor
MSgt 	9-Level Superintendent - Complete Core Tasks - Complete AFCOMAC as a SNCO - Complete Advanced Munitions System course (Ref para B4.4.)	- SNCO Foundations Course - SNCOA - CCAF - SEJPME II - Contingency Wartime Planners Course - Acquisition Professional Development Program	- MASO - Section/Flight Chief - GACP Cell Mgr - MAJCOM Munitions Mgr - Quality Assurance Evaluator - Weapons Safety Mgr - AFCOMAC Instructor
SMSgt 	9-Level Superintendent - Complete Core Tasks - Complete AFCOMAC as a SNCO - Complete Advanced Munitions System course (Ref para B4.4.)	- PME - SNCOA - Contingency Wartime Planners Course - Acquisition Professional Development Program	- MASO - Section Chief - Flight Chief - Functional Area Mgr - KDPs/KLPs - MAJCOM Functional Mgr
CMSgt 	Chief Enlisted Manager (CEM)	- PME - Chief Leadership Course - Contingency Wartime Planners Course - Acquisition Professional Development Program	- Flight Chief - Squadron SEL - KDPs/KLPs - MAJCOM Functional Mgr - Career Field Mgr

Note 1. This should be used as a guide (not all encompassing) to provide supervisors and members with an idea of what positions they should be striving for to gain experience as they progress through the grade and skill levels.

SECTION C – RESOURCE CONSTRAINTS

C1. **Resource Constraints.** There are currently no resource constraints.

SECTION D – TRANSITIONAL TRAINING GUIDE

D1. **Transitional Training Guide.** There is currently no transition training requirement.

PART II

SECTION A – OCCUPATIONAL COMPETENCY MODEL

A1. **Purpose.** Designed to provide a conceptual overview of the Munitions Systems Occupational Competency Model (OCM). This section serves as the foundational blueprint of the professional skills required within the 2W0 Air Force Specialty (AFS).

A2. **Competency.** Lists the observable and measurable patterns of behaviors, knowledge, skills, abilities, and other characteristics needed to perform successfully on the job. These are derived from two areas: foundational and occupational competencies.

A3. **Sub-Competency.** Lists the more specific skills and knowledge areas that fall under a major competency. For instance, under the Resource Management competency, the sub-competencies include Personnel Management, Equipment Management, Financial Management, and Infrastructure Management.

Competency	Sub-Competency	Sub-Competency Description
Resource Management	Personnel Management	Deliberate planning, organizing, and placement of professional human resources.
	Equipment Management	The process of procuring, managing, and maintaining equipment.
	Financial Management	The continual process of acquiring and utilizing funding in support of mission execution and fulfillment of future plans.
	Infrastructure Management	The process of ensuring functionality, safety, security, and efficiency of the built environment in support of munitions requirements
Munitions Sustainment	Stockpile Surveillance	The process of ensuring munition systems perform according to designed specifications.
	Inventory	The process of ensuring munitions accountability and availability.
Project Management	Operational Management	The targeted production of munitions and their associated commodities to meet mission requirements.
	Customer Support	To assist and provide guidance to personnel and organizations in the planning, training, maintaining, and disposition of munitions and associated commodities throughout their lifecycle.
Program Management	Program Management	The application of knowledge, skills, tools, and techniques required to manage programs IAW policy.
Data Management	Data Management	The process of collecting, inputting, keeping, and using data.
Communication	Communication	Articulates information, ideas, and thoughts utilizing oral, written, visual, and active listening skills.
Personnel Development (Leadership)	Personnel Development (Leadership)	The process of developing professional munitions leaders.

Figure 1.2. 2W0X1, Munitions Systems, Occupational Competency Model and Sub-Competency Description

A3.1. After the model is developed, a team of subject matter experts begin building competency proficiency levels, providing the depth of knowledge, which leads to rubrics that consist of the

competency, a description of the competency, and measurable and observable behaviors. The rubrics will help Airmen learn which behaviors are aligned to the career field's strategic direction, the professional development expectations, and the criteria for success.

Proficiency Levels	The proficiency levels are broken into four parts: expert, advanced, intermediate, and basic Under each proficiency level are predetermined criteria selected by a group of SMEs from a career field and validated by the AFS. The criteria were used as the basis to develop the obserable behaviors, which are consistent but progressive in nature as a member moves up the scale from basic to expert. Some of the critera (e.g., depth of knowledge, consistency of application/complexity, and thinking challenge) allows an individual to become an expert through the experience gained in a particular job and over a period of time. For example, the person can quickly move up different proficiency levels while they are serving as a technician at a flight; they move quickly because they are exposed to an abundance of situations. While other criteria, (e.g., scope, impact, and reach of influence) requires more of a hierarchical approach to gain the experience needed to progress through the competency levels. Moving through the proficiency levels may be be difficult to do at certain jobs. For example, if scope at the expert level requires job integration with the AF-level, then the individual may have to be in a position where they can gain that experience (i.e., at HHQ, wing, or an organization with far reaching capabilities).
Expert Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area	
Advanced Depth of Knowledge: New practices of all workplace elements	
Intermediate Depth of Knowledge: Established practices of all workplace elements	
Basic Depth of Knowledge: Established practice with some workplace elements	

Figure 1.3. Proficiency Levels

Criteria	Basic	Intermediate	Advanced	Expert
Depth of Knowledge	Established practice with some workplace elements	Established practices of all workplace elements	New practices of all workplace elements	New practices/concepts and theories of all workplace elements; is a credible resource in this area
Consistency of Application	Sustained application of competency over time	Sustained application of competency over time in a variety of situations	Sustained application of competency over time in complex situations	Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency
Thinking Challenge	Within establish procedures or similar situations	A wide variety of situations	No established procedures	Requires developing imaginative procedures
Scope	Specific Area	Integration with concerned areas	Integration with organizational strategies	Integration with AF-level/within industry
Impact on...	Specific workplace tasks	Specific workplace projects	Management decisions	AF-level practices/within industry
Reach of Influence	Individuals	Unit/Groups	Wing/Institutional	MAJCOM/AF-Level/Industry

Figure 1.4. Context for Proficiency Levels and Impact Levels

A3.2. In incorporating the occupational competency model into the CFETP, each sub-competency rubric is constructed so leaders, supervisors, trainers, instructors, or mentors can now set members up to build these supporting competencies, institute behaviors, and place their Airmen in situations where they can apply those strategies. The culmination of these elements ensure we can develop Airmen who are better prepared, mission-focused, and ready to succeed. Additionally, DAFMAN 36-2643, *Air Force Coaching and Mentoring Program*, has information on how competencies can be used when an established mentoring strategy is put into effect to foster and develop Airmen.

A4. **Behaviors.** An activity performed to achieve objectives of the job. Behavior involves observable (physical) components and unobservable (mental) components and consist of the performance of one or more tasks. Because behavior correlates to practical experience blended with the continual development of supporting (Foundational) competencies the behavior proficiency level may not align with skill level. Therefore, it becomes unnecessary to certify/document behavior proficiency progression. Airmen can be self-empowered to take hold of their professional development by clearly knowing the behaviors needed for success on the job and can use the model to gain a deeper understanding of what success looks like within their career field or organization and begin to build a path towards attaining those successful behaviors through self-development. Behavior progression should be addressed during Airman feedback/mentoring sessions and developmental opportunities.

1.	**RESOURCE MANAGEMENT**
1.1.	**PERSONNEL MANAGEMENT** **Description:** Deliberate planning, organizing, and placement of professional human resources. **Supporting Competencies:** Communication, Strategic Thinking, Decision Making, Problem Solving
1.1.1.	PERSONNEL MANAGEMENT **BASIC** *(Reach of Influence: Individuals/Self)*
1.1.1.1.	Identifies and explains organizational mission and structure
1.1.1.2.	Identifies personnel requirements necessary to complete mission objectives (e.g., vehicle qualifications, SCR qualification, task qualification)
1.1.1.3.	Proactively mitigates personnel operational concerns (e.g., shortfalls, overages, imbalances)
1.1.2.	PERSONNEL MANAGEMENT **INTERMEDIATE** *(Reach of Influence: Work-center)*
1.1.2.1.	Selects team composition to execute mission objectives (e.g., shift breakdown, leave, TDYs, ANG/AFR duty limitations and schedules)
1.1.2.2.	Negotiates manning moves/solutions with other work centers to meet mission objectives
1.1.2.3.	Manages training and qualifications for work center requirements (e.g., SEIs, AMMO-62, vehicle qualifications)
1.1.3.	PERSONNEL MANAGEMENT **ADVANCED** *(Reach of Influence: Squadron/Flight)*
1.1.3.1.	Utilizes UMD/UPMR to assign personnel to allocated position numbers
1.1.3.2.	Determines qualifications for special or additional duty positions
1.1.3.3.	Analyzes manpower documents and communicates readiness concerns to decision makers
1.1.3.4.	Advocates for additional resources to meet mission objectives (e.g., manpower, training)
1.1.4.	PERSONNEL MANAGEMENT **EXPERT** *(Reach of Influence: MAJCOM/AF Level)*
1.1.4.1.	Coordinates with applicable agencies to manage AFS resources
1.1.4.2.	Address personnel issues with applicable agencies (e.g., assignments, readiness, development)
1.2.	**EQUIPMENT MANAGEMENT** **Description:** The process of procuring, managing, and maintaining equipment. **Supporting Competencies:** Resource Management, Communication, Strategic Thinking, Troubleshooting
1.2.1.	EQUIPMENT MANAGEMENT **BASIC** *(Reach of Influence: Individuals/Self)*
1.2.1.1.	Determines required equipment by utilizing guidance and directives to ensure safe operations
1.2.1.2.	Maintains equipment by using applicable technical data/manuals to ensure reliability
1.2.2.	EQUIPMENT MANAGEMENT **INTERMEDIATE** *(Reach of Influence: Work-center)*
1.2.2.1.	Interprets technical data/manuals to provide training and effective maintenance practices
1.2.2.2.	Schedules preventative maintenance to preserve reliability
1.2.2.3.	Tracks/inventories by using applicable management system to maintain accountability (e.g., MC2, DPAS)
1.2.3.	EQUIPMENT MANAGEMENT **ADVANCED** *(Reach of Influence: Squadron/Flight)*
1.2.3.1.	Seeks out innovative opportunities for improvement to better execute mission objectives (e.g., MMHE focal point, LME, IT, and commercial solutions)
1.2.3.2.	Monitors overall status of stock/mobility/and war ready materials to ensure health and reliability of all items
1.2.4.	EQUIPMENT MANAGEMENT **EXPERT** *(Reach of Influence: MAJCOM/AF Level)*
1.2.4.1.	Balances resources to match allowance standards and alleviate shortfalls
1.2.4.2.	Collaborates with program offices procuring equipment for new mission requirements (e.g., 1067)
1.2.4.3.	Integrates new and existing equipment required to execute all operations

1.3.	**FINANCIAL MANAGEMENT** **Description:** The continual process of acquiring and utilizing funding in support of mission execution and fulfillment of future plans. **Supporting Competencies:** Resource Management, Communication, Accountability, Analytical Thinking
1.3.1.	FINANCIAL MANAGEMENT **BASIC** *(Reach of Influence: Individuals/Self)*
1.3.1.1.	Utilizes financial management system to prepare documents (e.g., DTS, purchase request, GTC, TICMS)
1.3.1.2.	Identifies FIAR principles to support culture of compliance (e.g., FWA)
1.3.2.	FINANCIAL MANAGEMENT **INTERMEDIATE** *(Reach of Influence: Workcenter and Unit)*
1.3.2.1.	Analyzes funding requests to meet mission objectives
1.3.2.2.	Develops budget and up channels shortfalls to prioritize funding utilization
1.3.2.3.	Conducts cost comparison to provide best purchasing options
1.3.2.4.	Communicates funding streams to allocate resources
1.3.3.	FINANCIAL MANAGEMENT **ADVANCED** *(Reach of Influence: Wing/Institutional)*
1.3.3.1.	Analyzes needs and identifies alternate funding streams
1.3.3.2.	Builds & Communicates Spend Plan to execute allocated funds
1.3.4.	FINANCIAL MANAGEMENT **EXPERT** *(Reach of Influence: MAJCOM/AF Level/Industry)*
1.3.4.1.	Advocates for funding for Air Force wide initiatives to modernize enterprise or fleet
1.3.4.2.	Advises munition leaders to develop strategies in support of the budget process
1.4.	**INFRASTRUCTURE MANAGEMENT** **Description:** The process of ensuring functionality, safety, security, and efficiency of the built environment in support of munitions requirements. **Supporting Competencies:** Communication, Resource Management, Stewardship, Strategic Thinking
1.4.1.	INFRASTRUCTURE MANAGEMENT **BASIC** *(Reach of influence: Individual)*
1.4.1.1.	Identifies facility requirements to meet explosives safety and security standards
1.4.1.2.	Seeks out opportunities to enhance infrastructure
1.4.2.	INFRASTRUCTURE MANAGEMENT **INTERMEDIATE** *(Reach of influence: Work center and unit)*
1.4.2.1.	Schedules and conducts workplace assessments to ensure facility compliance
1.4.2.2.	Corrects and reports discrepancies to outside agencies through completion
1.4.3.	INFRASTRUCTURE MANAGEMENT **ADVANCED** *(Reach of influence: Installation)*
1.4.3.1.	Advocates for facility improvements to improve daily operations
1.4.3.2.	Communicate requirements to HHQ and key decision makers
1.4.4.	INFRASTRUCTURE MANAGEMENT **EXPERT** *(Reach of influence: MAJCOM level/Air Staff)*
1.4.4.1.	Advocates for facility construction (e.g., MILCON, UMMC, FSRM)
1.4.4.2.	Evaluate infrastructure availability and demands against new mission requirements
2.	**MUNITIONS SUSTAINMENT**
2.1	**STOCKPILE SURVEILLANCE** **Description:** The process of ensuring munition systems perform according to designed specifications. **Supporting Competencies:** Accountability, Knowledge Management, Resource Management, Strategic Thinking
2.1.1.	STOCKPILE SURVEILLANCE **BASIC** *(Impact On: Specific Workplace tasks)*

2.1.1.1.	Executes surveillance concepts and procedures to preserve stockpile health (e.g., warehousing, packaging, and marking)
2.1.1.2.	Completes workcenter functions in a thorough, accurate, and reliable manner (e.g., inspections, documentation, MSPs)
2.1.2.	STOCKPILE SURVEILLANCE **INTERMEDIATE** *(Impact On: Specific Workplace projects)*
2.1.2.1.	Standardizes daily work through research, experience, and networking relationships
2.1.2.2.	Anticipates future requirements while addressing short-term needs
2.1.3.	STOCKPILE SURVEILLANCE **ADVANCED** *(Impact On: Management Decisions)*
2.1.3.1.	Interprets and communicates current and projected goals to posture stockpile preservation
2.1.3.2.	Anticipates and resolves stockpile surveillance concerns of employees, peers, upper management, and customers
2.1.4.	STOCKPILE SURVEILLANCE **EXPERT** *(Impact On: AF-level practices/within industry)*
2.1.4.1.	Establish strategic priorities and standards that address the details and timelines needed to achieve HHQ directives and mission objectives
2.1.4.2.	Communicates serviceability trends that impacts enterprise-wide stockpile preservation (e.g., CMRS, PQDR, and malfunctions)
2.2.	**INVENTORY** **Description:** The process of ensuring munitions accountability and availability. **Supporting Competencies:** Accountability, Communication, Resource Management, Strategic Thinking
2.2.1.	INVENTORY **BASIC** *(Scope: Specific Areas)*
2.2.1.1.	Provides accurate munitions inventory for on hand supply (e.g., structure total asset inquiry, cycle counts)
2.2.1.2.	Demonstrates capability to utilize munitions systems and associated documents (e.g., TICMS, MC2, AMST, AF Form 68, AF Form 4331)
2.2.2.	INVENTORY **INTERMEDIATE** *(Scope: Integration with concerned areas)*
2.2.2.1.	Enforces compliance with munitions policies (retrograde, SE, and forecasting)
2.2.2.2.	Analyzes asset availability for supported unit requirements
2.2.3.	INVENTORY **ADVANCED** *(Scope: Integration with organizational strategies)*
2.2.3.1.	Advocates to HHQ for future stockpile supportability
2.2.3.2.	Analyzes asset availability to support theater requirements
2.2.4.	INVENTORY **EXPERT** *(Scope: Integration with AF-level/within industry)*
2.2.4.1.	Aligns processes with enterprise-wide munitions policy
2.2.4.2.	Advises key decision-makers on current and future mission requirements
3.	**PROJECT MANAGEMENT**
3.1.	**OPERATIONAL MANAGEMENT** **Description:** The targeted production of munitions and their associated commodities to meet mission requirements. **Supporting Competencies:** Communication, Leadership, Teamwork, Strategic Thinking
3.1.1.	OPERATIONAL MANAGEMENT **BASIC** *(Consistency of application: Sustained application of competency over time)*
3.1.1.1.	Identifies and explains applicable principles and procedures for assigned duties
3.1.1.2.	Interprets guidance, achieves proficiency, and provides feedback to ensure mission execution
3.1.2.	OPERATIONAL MANAGEMENT **INTERMEDIATE** *(Consistency of application: Sustained application of competency over time in variety situations)*

3.1.2.1.	Inteprets guidance to provide training and effective maintenance practices for task accomplishment
3.1.2.2.	Organize teams based on qualifications and available resources to meet mission requirements
3.1.3.	OPERATIONAL MANAGEMENT **ADVANCED** *(Consistency of application: Sustained application of competency over time in complex situations)*
3.1.3.1.	Prioritizes mission and training requirements based on available resources
3.1.3.2.	Leverages experience to develop plans for complex operations (e.g., aircraft generations, TARRP, APF, and FSREs)
3.1.4.	OPERATIONAL MANAGEMENT **EXPERT** *(Consistency of application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency)*
3.1.4.1.	Translates strategic direction into actionable results
3.1.4.2.	Formulates required joint and combined team composition and advocates for resources
3.1.4.3.	Develops innovative strategies to meet future-state requirements (e.g., global integration, site surveys, and MCA)
3.2.	**CUSTOMER SUPPORT** **Description:** To assist and provide guidance to personnel and organizations in the planning, training, maintaining, and disposition of munitions and associated commodities throughout their lifecycle. **Supporting Competencies:** Communication, Leadership, Teamwork, Strategic Thinking
3.2.1.	CUSTOMER SUPPORT **BASIC** *(Consistency of Application: Sustained application of competency over time)*
3.2.1.1.	Identifies customer service relationships between supported and supporting organizations (e.g., expediters, custodians, Ops, and control)
3.2.1.2.	Provides consistent quality service for internal and external customers
3.2.2.	CUSTOMER SUPPORT **INTERMEDIATE** *(Consistency of Application: Sustained application of competency over time in various situations)*
3.2.2.1.	Develops organizational partnerships with customers to meet anticipated requirements
3.2.2.2.	Mentors workcenter personnel on customer service relationships between supported and supporting organizations
3.2.3.	CUSTOMER SUPPORT **ADVANCED** *(Consistency of Application: Sustained application of competency over time in complex situations)*
3.2.3.1.	Utilizes policies and procedures to manage complex customer relationships (e.g., total force integrations, contingencies)
3.2.3.2.	De-conflicts priorities between supported and supporting organizations (e.g., DIFM, LRS, flightline deliveries, OT&E, program offices, Joint)
3.2.4.	CUSTOMER SUPPORT **EXPERT** *(Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply competency)*
3.2.4.1.	Incorporates new concepts and strategies to reduce barriers that hinder customer support or mission execution
3.2.4.2.	Publishes best practices for AFS members to streamline and enhance customer service objectives
4.	**PROGRAM MANAGEMENT**
4.1.	**PROGRAM MANAGEMENT** **Description:** The application of knowledge, skills, tools, and techniques required to manage programs IAW policy. **Supporting Competencies:** Initiative, Communication, Time Management, CPI

4.1.1.	PROGRAM MANAGEMENT **BASIC** *(Depth of Knowledge: Establish practice with some program elements)*
4.1.1.1.	Applies related principles, procedures, requirements, regulations, and policies
4.1.1.2.	Organizes information and navigates management systems to provide accurate information
4.1.2.	PROGRAM MANAGEMENT **INTERMEDIATE** *(Depth of Knowledge: Establishes practices of all program elements)*
4.1.2.1.	Seeks out information to independently organize work, set priorities, and determine resource requirements
4.1.2.2.	Coordinates compliance actions to meet program requirements
4.1.3.	PROGRAM MANAGEMENT **ADVANCED** *(Depth of Knowledge: New practices of all workplace elements)*
4.1.3.1.	Develops strategies to assess and evaluate programs for compliance
4.1.3.2.	Provides oversight of complex programs (e.g., CCIP, XP, UDM and RA)
4.1.4.	PROGRAM MANAGEMENT **EXPERT** *(Depth of Knowledge: New practices/concepts and theories of all workplace elements; is a credible resource in this area)*
4.1.4.1.	Establishes strategies, techniques, and processes used to plan and develop programs
4.1.4.2.	Develops and administers training plans used to educate new program managers on roles, responsibilities and practices
5.	**DATA MANAGEMENT**
5.1.	**DATA MANAGEMENTDescription:** The process of collecting, inputting, keeping, and using data.**Supporting Competencies:** Digital Literacy, Communication, Knowledge Management, Precision
5.1.1.	DATA MANAGEMENT **BASIC** *(Consistency of Application: Sustained application of competency over time)*
5.1.1.1.	Utilizes various data sources, systems of record, and repositories to fulfill operational needs
5.1.1.2.	Audits collected data for accuracy, accountability, and usability in order to drive data driven decisions
5.1.2.	DATA MANAGEMENT **INTERMEDIATE** *(Consistency of Application: Sustained application of competency over time in various situations)*
5.1.2.1.	Researches, interprets, and analyzes collected data in order to provide recommended course of action and/or solution
5.1.2.2.	Coordinates technical support with applicable agencies to resolve problems (e.g., MIS, APSR)
5.1.3.	DATA MANAGEMENT **ADVANCED** *(Consistency of Application: Sustained application of competency over time in complex situations)*
5.1.3.1.	Collaborate with stakeholders to determine data requirements and meet mission objectives
5.1.3.2.	Prioritizes database shortfalls and implements corrective actions
5.1.4.	DATA MANAGEMENT **EXPERT** *(Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency)*
5.1.4.1.	Authors/publishes guidance, training, and directives needed for accurate data management
5.1.4.2.	Apply data analyses to develop strategic priorities in support of mission objectives
6.	**COMMUNICATION**
6.1.	**COMMUNICATION** **Description:** Articulates information, ideas, and thoughts utilizing oral, written, visual, and active listening skills. **Supporting Competencies:** Communication, Active Listening, Self-Awareness, Self-Control
6.1.1.	COMMUNICATION **BASIC** *(Consistency of Application: Sustained application of competency over time)*

6.1.1.1.	Recognizes and employs communication tools (e.g., Word, Power Point, Email, Teams, social media etc.)
6.1.1.2.	Utilizes all five types of communication (e.g., Written, Visual, Verbal, Non-verbal, & Active Listening)
6.1.2.	COMMUNICATION **INTERMEDIATE** *(Consistency of Application: Sustained application of competency over time in a variety of situations)*
6.1.2.1.	Utilizes communication skills to integrate and fosters information sharing
6.1.2.2.	Tailors messaging and briefings to address identified concerns of the audience
6.1.3.	COMMUNICATION **ADVANCED** *(Consistency of Application: Sustained application of competency over time in complex situations)*
6.1.3.1.	Recognizes non-verbal reactions of audience, anticipates audience concerns, and adjusts presentations accordingly
6.1.3.2.	Clearly conveys complex information in a concise manner
6.1.4.	COMMUNICATION **EXPERT** *(Consistency of Application: Able to innovate and formulate strategies; able to model/guide/teach others the competency of how to apply the competency)*
6.1.4.1.	Translates strategic intent into operational guidance
6.1.4.2.	Coaches, mentors, and guides others on strategic communication techniques
6.1.4.3.	Voices differing opinions without triggering a defensive response
7.	**PERSONNEL DEVELOPMENT (LEADERSHIP)**
7.1.	**PERSONNEL DEVELOPMENT** **Description:** The process of developing professional munitions leaders. **Supporting Competencies:** Mentoring, Communication, Leadership, Develops Others
7.1.1.	PERSONNEL DEVELOPMENT **BASIC** *(Reach of Influence: Train to the Individual Level)*
7.1.1.1.	Seeks out formal and informal developmental opportunities
7.1.1.2.	Receives feedback/counseling and makes appropriate corrections to behavior
7.1.1.3.	Embraces followership
7.1.2.	PERSONNEL DEVELOPMENT **INTERMEDIATE** *(Reach of Influence: Train to the Supervisory Level Units/Workcenter)*
7.1.2.1.	Encourages accountability and ownership
7.1.2.2.	Coaches/mentors others to develop professionally and personally (e.g., provides feedback, internal training, and development opportunities for subordinates)
7.1.2.3.	Recognizes and de-escalates conflicts
7.1.2.4.	Bridges technical and professional knowledge with personal, interpersonal, and managerial skills
7.1.3.	PERSONNEL DEVELOPMENT **ADVANCED** *(Reach of Influence: Wing/Institutional Train to the Leader/Management Level)*
7.1.3.1.	Communicates the strategic vision to members
7.1.3.2.	Creates new processes to facilitate continued personnel development
7.1.4.	PERSONNEL DEVELOPMENT **EXPERT** *(Reach of Influence: Train to the Strategic Level)*
7.1.4.1.	Prioritizes objectives and aligns people around new strategy
7.1.4.2.	Maps out AFS future state for personnel (e.g., mission and strategy)
7.1.4.3.	Develops elements of human capital strategies and professional path (e.g., vectoring)

SECTION B – COURSE OBJECTIVE LIST (COL)

B1. **Course Objectives.** A detailed listing of formal training objectives for any 2W0 formal training course may be obtained by submitting an email request to the AETC 2W0X1 Training Manager, 363TRS.TrainingManagers@us.af.mil, or by phone request at DSN: 736-0539.

SECTION C – SUPPORT MATERIALS

C1. **Support Materials.** This section of the CFETP lists available support materials such as Qualification Training Package (QTP); computer-based instruction (CBI); computer-based training (CBT); computer assisted instruction (CAI); and correspondence courses for the 2W0X1 AFSC.

C1.1. Education & Training Course Announcements (ETCA). Courses are listed on the ETCA site. Utilization of these courses is dependent on the mission and individual unit requirements and are often subject to change. Members searching for munitions related courses should contact their unit Munitions Training Manager for scheduling or for the current list, visit: https://usaf.dps.mil/teams/app10-etca/SitePages/home.aspx

C1.2. U.S. Army Defense Ammunition Center courses are listed at the Directorate for Education catalog site. Announcements are subject to change. Several distance learning training courses are also available thru the Defense Ammunition Center. For the current list, visit: https://defenseammunitioncenter.army.mil/index.html

C1.3. Air Force Career Development Academy (AFCDA) Courses are listed at: https://usaf.dps.mil/sites/aetc-ksl-2af/2AF/A3/2%20AF%20A3%20AFCDA/SitePages/Home.aspx

C1.4. Qualification Training Packages are listed at: https://usaf.dps.mil/teams/AMMO2W10027/Training%20Tools%20%20Guides/Forms/AllItems.aspx

C1.4.1. Munitions Inspector Qualification and Certification

C1.4.1.1. This document establishes minimum training and certification requirements for personnel seeking inspector certification. It is not designed to meet inspector familiarization training for personnel who require inspection knowledge but will not be certified (i.e. Storage personnel); local programs must cover that requirement. Its primary objective centers on establishing an Air Force standard to equip munitions inspectors with the knowledge to effectively perform munitions inspections. This program is designed to increase munitions safety and inspection programs awareness, technical knowledge and operational proficiency of munitions technicians (military, civilian service and contractors) performing inspector duties.

C1.4.1.2. Applicability. This package applies to all personnel involved with the inspection of munitions. This includes Department of the Air Force civil service employees (permanent and temporary), contractors and military personnel (RegAF, Guard, and Reserve).

C1.4.1.3. Recertification will be performed every 12 months after initial certification at the discretion of the Senior Munitions Inspector IAW the Munitions Inspector AFQTP.

C1.4.2. Crew Chief Qualification and Certification

C1.4.2.1. This training plan establishes minimum training and certification requirements for personnel seeking crew chief certification. It is not designed to meet specific requirements for individual bases and or work centers. This training plan is to be used in conjunction with the 2W0X1 Career Field Education and Training Plan (CFETP) to qualify and certify personnel appointed to perform munitions crew chief duties IAW DAFMAN 21-201, *Munitions Management*, and local operating instructions. Its primary objective centers on establishing an Air Force standard to equip munitions crew chiefs with the knowledge to effectively perform munitions crew chief operations. This program is designed to increase munitions safety and operational awareness, technical knowledge and operational proficiency of munitions technicians (military, civilian service and contractors) while performing crew chief duties. This AFQTP must be used in its entirety to train and certify all personnel performing crew chief duties.

C1.4.2.2. This package applies to all personnel who perform crew chief duties regardless of crew size. This includes Department of the Air Force civil service employees (permanent and temporary), contractors and military personnel (RegAF, Guard, and Reserve).

C1.4.2.3. Recertification will be performed every 15 months IAW Crew Chief AFQTP.

SECTION D – TRAINING COURSE INDEX

D1. **Training Course Index.** This section of the CFETP lists all AF in-residence, field, AFCDA, and exportable courses used to support. List all advanced/supplemental courses and tie to a specific requirement in the CFETP (certification, upgrade training, equipment, assignment, etc.) for the 2W0X1 AFSC. For recert requirements, use the AFQTP.

D2. **Entry/Initial Skills (EIS) Training Courses.**

COURSE NUMBER (Note 1)	**TITLE**	**NOTES**
J3ABR2W031 047_	Munitions Systems Apprentice	Course Completion is required for the award of the 3-Level.

D3. **Mission Readiness Training (MRT) Courses.**

COURSE NUMBER (Note 1)	**TITLE**	**NOTES**
J3AZR2W051 047_	Munitions Inspection (In-Residence)	Required for Senior Munitions Inspector IAW DAFMAN 21-201.
J7AZT2W051 047_	Munitions Inspection (Mobile Training Team)	Required for Senior Munitions Inspector IAW DAFMAN 21-201.

J3AZR2WXXX 047_	Munitions Accountable Systems Officer (MASO)	Required for appointment to MASO in lieu of experience requirements IAW DAFMAN 21-201.
J3AZR2W0X1 047_	Munitions Operations	Supplements TICMS/OPS experience for MASO, serves as introductory course for Muns Ops.
J3AAR2W091 047_	Advanced Munitions Systems	Required for award of 9 skill level
L3AZR2W071 0C2A	Weapons Safety Management Course	Prerequisite for WSM
ACC AFCOMAC 7	ACC 7-Lvl Combat Ammunition Planning and Production	Required for the award of 7 skill level IAW DAFMAN 21-201.
ACC AFCOMAC 9	ACC 9-Lvl Combat Ammunition Planning and Production	Required for the award of 9 skill level IAW DAFMAN 21-201.
J5AZA2W071 0T0A [9E-F58/322-F37 (MC)]	Technical Transportation of Hazardous Material (Army Course)	AMMO-62 course taught at in-residence locations
J5AZB2W071 0T0B [9E-F58/322-F37 (MC)]	Technical Transportation of Hazardous Material (Army MTT)	AMMO-62 course taught as MTT

D4. **Field Training Detachment (FTD) Courses.**

COURSE NUMBER (Note 1)	**TITLE**	**NOTES**
J4AMP2W0X1 047_	Munitions Crew Chief	
J4AMP2W0X1 J47_	Munitions Control	
J4AMP2W0X1 M47_	Theater Integrated Combat Munitions System (TICMS)	
J4AMP2W0X1 N47_	Munitions Logistics	
J4AMP2W0X1 A47_	Missile Maintenance (AIM-9M)	
J4AMP2W0X1 D47_	Missile Maintenance (AGM-88)	

Note 1: The standard AETC course code is a 15-digit alpha/numeric code (to include spaces). In the tables above the last digit is the course revision (i.e. A, B, C, D, etc.) annotated with a '_' placeholder to reduce administrative burden on future updates. Reference ETCA for the most current course code.

SECTION E – MAJCOM UNIQUE REQUIREMENTS

E1. **MAJCOM Unique Requirements.** MAJCOM Unique requirements are determined by each MAJCOM and are dependent upon mission and environment. Please contact your MAJCOM Training Manager for information regarding this section.

SECTION F – SPECIALTY TRAINING STANDARDS

F1. **Documentation.** Document and certify completion of task training IAW DAFMAN 36-2689. Use of Part II within this CFETP is mandatory in Airman's individual training records. Supervisors, trainers, and trainees must ensure all training documentation is contained within an Airman's Individual Training Plan (ITP).

F2. **Transcribing from Old CFETP to New CFETP.** All AFJQSs and previous CFETPs are replaced by this CFETP; therefore, transcribing of all training records to this CFETP STS is mandatory. Use this CFETP STS (or automated STS) to identify and certify all past and current qualifications. Document and certify all previous and current training IAW DAFMAN 36-2689 and AFI 36-2650.

Note: There is no requirement to sign off any tasks identified as 'Schoolhouse Use Only'. These tasks are only in the STS to codify the Munitions Systems Apprentice course.

F3. **Upgrade Qualification Procedures.** All 5-skill level trainees must be qualified on 5-skill level core tasks identified in the core task table. All 7-skill level trainees must be qualified in core tasks identified in the core task table and attend AFCOMAC's CAPP course. All 9-skill level trainees must be qualified on 9-skill level core tasks identified in the core task table, complete the Advanced Munitions Systems course J3AAR2W091 047, and attend AFCOMAC's CAPP course as a SNCO.

F4. **Promotion Testing.** STSs are utilized as a guide for development of the Specialty Knowledge Test (SKT) portion of promotion tests used in the Weighted Airman Promotion System (WAPS). The SKT is developed at the USAF Airman Advancement Division by Senior NCOs with extensive subject matter area knowledge judged by test development team members to be the most appropriate for promotion to higher grades. Questions are based on the study references listed in the Enlisted Promotions References and Requirements Catalog (EPRRC). Individual responsibilities are in AFI 36-2502, *Enlisted Airman Promotion/Demotion Programs*. and AFMAN 36-2664, *Personnel Assessment Program*. The WAPS is not applicable to the Air National Guard and Reserve.

F5. **Recommendations for Feedback on the Product or Process.** All questions or change recommendations will be routed through the respective MFM. MFMs report inadequacies and suggested corrections for this STS through the publication OPR. Supervisors and trainees will use the Customer Service Line (DSN: 736-4147) or email 82TRG.CSIL@us.af.mil to report training deficiencies identified during initial evaluation.

Core Task Table	5-Level	7-Level (Note 1)	9-Level (Note 2)
All Functional Areas	1.1, 1.2, 2.3.1, 2.3.2, 2.3.4, 2.3.5, 3.3, 3.4, 3.6.1, 3.6.2, 3.6.3, 4.1.2, 5.9.1 5.9.2, 5.9.3, 5.9.4, 5.9.5, 5.9.6, 5.9.7, 7.1.6, 7.2.1, 7.3.2, 8.5.1, 8.5.2, 8.5.4, 8.5.5, 8.5.6, 9.5, 10.1, 10.6.2, 12.1.1, 12.7.1, 15.6, 15.8, 15.9.1, 15.9.3, 15.9.6, 15.9.8, 15.9.9, 18.1, 18.2, 18.3, 18.5, 18.6, 21.1.1, 21.1.2, 21.1.3	5.5, 5.6, 6.1, 6.2, 6.3, 6.4, 6.5, 6.6, 6.7, 6.8, 8.5.3, 8.7.1, 8.9.1, 8.9.2, 8.9.3, 9.7, 10.2.1, 13.1, 13.3	5.8, 6.10, 8.7.2, 8.8.3, 8.8.4, 8.8.5, 8.9.4, 8.10.2, 8.12.1, 8.12.2

Note 1: Core Task 10.2.1. Does not apply to non-aircraft/flying units.

Note 2: Upon completion of upgrade and award of 9-skill level, SCNO training records may be permanently archived.

BY ORDER OF THE SECRETARY OF THE AIR FORCE OFFICIAL

KENYON K. BELL, Lieutenant General, USAF
DCS/Logistics, Engineering and Force Protection

1. Qualitative Requirements (Behavioral Statement STS Coding System)
2. 2W0X1 STS

Attachment 1
Qualitative Requirements

This attachment contains the proficiency code key used to indicate the level of training and knowledge provided by resident training and career development courses.

Behavioral Statement STS Coding System	
Code	Definition
K	Subject Knowledge Training – The verb selection identifies the individual's ability to identify facts, state principles, analyze, or evaluate the subject.
P	Performance Training – Identifies that the individual has performed the task to the satisfaction of the course; however, the individual may not be capable of meeting the field requirements for speed and accuracy.
pk	Performance Knowledge Training – The verb selection identifies the individual's ability to relate simple facts, procedures, operating principles, and operational theory for the task.
-	This mark is used alone instead of a scale value to show no proficiency training is provided in the course or CDC.
X	This mark is used alone in the course columns to show that training is required but not given due to limitations in resources.
Explanations	
Occupational Sub-Competency column cross-references the task to the correlating competency. OCM Behavior reference column cross-references the specific behavior the task correlates to in the OCM specific Behavior listed in Part II A4. 5/7 This mark identifies core tasks for the 5/7-skill level. ^ This mark is used to identify tasks that require third-party certification. When used in conjunction with the 5/7-level marking it becomes a core task that requires third party certification. NOTES: • Mission-critical maintenance tasks or tasks with definite potential for personnel injury or damage should be documented on Special Certification Roster (SCR) as outlined in DAFI 21-101, *Aircraft and Equipment Maintenance Management*. • Use AFMAN 21-204, *Nuclear Weapons Maintenance*, for certification requirements associated with nuclear weapons tasks. • **All tasks and knowledge items shown with a proficiency code in the 3-skill level column are trained during war time.**
