This manual further implements Department of Air Force Policy Directive (DAFPD) 65-6, *Budget*. The purpose of this manual is to provide guidance on using current (Fiscal Year [FY] 2027 Appropriations Acts) symbols and budget codes and their descriptions. This manual applies to the Regular Air Force (RegAF), the United States Space Force (USSF), Air Force Reserve (AFR), Air National Guard (ANG), and the Civil Air Patrol (CAP) when performing Department of the Air Force (DAF) assigned missions in its role as a volunteer civilian auxiliary of the DAF. Ensure all records generated as a result of processes prescribed in this publication adhere to Air Force Instruction 33-322, *Records Management and Information Governance Program*, and are disposed in accordance with the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management System. This publication requires the collection and maintenance of information protected by the Privacy Act of 1974 authorized by Department of Defense Instruction 5400.11, DoD Privacy and Civil Liberties Programs. Refer recommended changes and questions about this publication to Deputy Assistant Secretary for Budget, Policy and Fiscal Control (SAF/FMBF) using the Department of the Air Force (DAF) Form 847, *Recommendation for Change of Publication*; route DAF Form 847 from the field through appropriate functional chain of command. This publication may be supplemented at any level, but all supplements must be routed to the Deputy Assistant Secretary for Budget, Policy and Fiscal Control for coordination prior to certification and approval. **(T-1)** The authorities to waive wing/unit/delta level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. See Department of the Air Force Manual (DAFMAN) 90-161, *Publications Processes and Procedures*, for a description of the authorities associated with the Tier numbers. Submit requests for waivers through the chain of command to

the appropriate Tier waiver approval authority, or alternately, to the requestor's commander for non-tiered compliance items. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the DAF. Compliance with the attachments in this publication is mandatory.

SUMMARY OF CHANGES

This FY 2027 edition continues as Department of the Air Force Manual (DAFMAN) 65-604. This document has been substantially revised and requires a complete review. As an annual publication, it updates all special working symbols the Department of the Air Force (DAF) uses within the Department of War (DoW) for each FY. It includes changes to existing codes, new projects within appropriations, and new appropriations.

Chapter 1

OVERVIEW

1.1. How To Use This Manual.

1.1.1. Do not reprint or stock annual codes beyond the year in which they are current. However, comptroller activities may refer to previous codes as long as necessary.

1.1.2. For pre-FY99 appropriation act symbols and codes, see previous versions of Air Force Manual 65-604 and Financial Management Data Quality Service website: **https://fmdqs.cce.af.mil/home?3**.

1.1.3. The current listing of financial management codes (including future and historical) which are continually updated and maintained are found in the Air Force Financial Management Data Dictionary (FMDD), accessible via the Financial Management Data Quality Service (FMDQS) at **https://fmdqs.cce.af.mil/home?3**.

1.2. Time Limits for Appropriations.

1.2.1. A single-year appropriation (577XXXX and 977XXXX) begins 1 October 2026, expires on 30 September 2027, and cancels 30 September 2032.

1.2.2. A two-year appropriation (577/8XXXX and 977/8XXXX), such as Research, Development, Test and Evaluation, (RDT&E), begins 1 October 2026, expires on 30 September 2028, and cancels on 30 September 2033.

1.2.3. A three-year appropriation (577/9XXXX and 977/9XXXX), such as those for procurement, begins 1 October 2026, expires on 30 September 2029, and cancels on 30 September 2034.

1.2.4. Five-year appropriations (577/1XXXX and 977/1XXXX) begin on 1 October 2026, expire on 30 September 2031, and cancel on 30 September 2036.

1.2.5. A no-year appropriation is designated by an “X” after the agency two-digit prefix, i.e., 57X or 97X, which means there are no time limits on the availability of funds in the appropriation. Funds do not expire, which means they are available until completely expended. However, Office of Management and Budget or the agency head may cancel no-year authority provided that the purpose for which the authority was provided has been carried out and there have been no disbursements against the authority for at least two FYs.

Chapter 2

ROLES AND RESPONSIBILITIES

2.1. The Assistant Secretary of the Air Force, Financial Management and Comptroller (SAF/FM) will:

2.1.1. Direct and manage the financial management activities and operations of the Department of the Air Force.

2.1.2. This responsibility includes, but is not limited to, setting and supervising the execution of policies and procedures governing the expenditure of the Department of Air Force funds. See Title 10 United States Code (USC) Section 9022, *Financial management,* Title 10 United States Code Section 135(c)(3), *Under Secretary of Defense (Comptroller),* and Headquarters Air Force Mission Directive (HAFMD) 1-12, *Assistant Secretary of the Air Force (Financial Management and Comptroller)*.

2.2. The Deputy Assistant Secretary for Budget (SAF/FMB) will:

2.2.1. Issue guidance on organizational and appropriation funding responsibilities and the proper use of Department of the Air Force funds.

2.2.2. Develop and maintain budget structure and associated data elements and codes.

2.3. Commanders, Directors, Airmen, and Guardians will:

2.3.1. Ensure all activities that prepare, justify, or execute (i.e., carry out) Department of the Air Force (DAF) appropriated funds requirements, (including Air Force business areas of the Defense Working Capital Fund) will:

2.3.1.1. Approve and use funds only for congressionally authorized purposes.

2.3.1.2. Guidance on program, budget and administering appropriated funds is provided in this manual and DAFMAN 65-605, Volume 1, *Budget Guidance and Technical Procedures*.

2.3.1.3. Determine funding priorities, approve execution and/or spend plans, and ensure funding resources are allocated and executed in a legal, effective, and efficient manner.

2.3.1.4. Ensure the Automated Funds Management (AFM) system is used for official distribution and sub-allocation of funding at all levels, unless executing specific Classified programs which exist outside the traditional DAF financial systems.

Chapter 3

SYMBOLS AND CODES

3.1. Summary of Appropriation Numbers, Fund Codes, and Titles.

3.1.1. Department of the Air Force (DAF) appropriations appear grouped by appropriation type and in numerical order. Supplemental appropriations that have a unique appropriation symbol follow the primary appropriation.

3.1.1.1. Each appropriation classification in **Table 3.1** consists of an agency code, an FY designation, and an appropriation symbol.

3.1.1.2. The first two digits identify the agency code. The DAF agency code is Department 57. The DoW agency code is Department 97. The Navy (including Marine Corps) agency code is Department 17. The Army agency code is Department 21.

3.1.1.3. For one-year accounts, the third digit identifies the FY; for example, 5773400 designates the FY 2027 Operation and Maintenance (O&M), Air Force appropriation. For multiyear accounts, the third and fourth digits identify the multiple FYs of the appropriation; for example, 577/93010 designates the FY 2027/2029 Aircraft Procurement, Air Force appropriation. For no year funding, the appropriation is identified with an X in the third digit. It may or may not be followed by a FY or a FY designation. For example, 97X1516.0200 designates the no FY Base Realignment and Closure Account (BRAC), Air Force Appropriation received in FY 2021. BRAC's FYs are determined by the limit (in this case, "60F2"). The limit is the 4-digit alpha - numeric after the treasury symbol. This limit will remain the same each FY starting in FY 2019.

3.1.1.4. The remaining digits (usually four) indicate the appropriation or account.

3.1.2. Each appropriation also has a two-digit fund code, which is identified both in the appropriation summary at **paragraph 3.1** and in the detailed listing of codes that follows in **Chapter 3** Tables.

3.2. Summary of Appropriation Numbers, Fund Codes, and Titles Table.

3.2.1. The individual appropriation listing in **Table 3.1 and Table 3.2** includes a brief description of the appropriation or account content. **Table 3.3** includes account limitations.

3.2.2. Where applicable, each section also contains the individual program, project and sub-project codes for budget execution. The "*" in the appropriation is a placeholder for the FY.

OPERATION AND MAINTENANCE

4.1. O&M. These funds are used to purchase fuel and spare parts for mission and training operations, supporting civilian personnel, and purchase supplies, equipment, and service contracts for the repair of weapons and facilities. Department of Defense (DoD) 7000.14-R, *Financial Management Regulation*, Volume 2A, Chapter 1 prohibits use of O&M funds for the purchase or replacement of an investment item, which costs equal to or greater than $350,000. For equipment items subject to centralized item management and asset control, refer to DoD 7000.14-R, Volume 2A, Chapter 1 to determine if investment funds must be used. The appropriation classification in **Table 4.1** consists of a two-digit fund code, brief description or account content.

4.1.1. BUDGET ACTIVITY 01: OPERATING FORCES. This budget activity consists of four activity groups: Air Operations; Combat Related Operations; Space Operations; and Combatant Commands. The individual appropriation listing in **Table 4.1 and Table 4.2** includes a brief description of the appropriation or account content.

4.1.1.1. The Air Operations activity group includes support for all fighter and bomber forces, remotely piloted aircraft, intelligence, surveillance, and reconnaissance platforms, missiles, weapons, nuclear deterrence activities, command and control operations, and training and range operations. It also includes Air Force wide support for weapon systems sustainment, flying hours, facilities, operational communications, and command and base operations.

4.1.1.2. The Combat Related Operations activity group comprises the support element for combat forces and employs a wide range of assets to accomplish a myriad of missions. These forces are supported by the Strategic Offensive Command, Control, Communications, and Intelligence (C3I), the National Military Command Center, the National Airborne Operations Center and the Minimum Essential Emergency Communications Network. It also includes air base ground defense, physical security, explosive ordinance disposal forces, nuclear, chemical, and biological defense activities, cyberspace operations, counter-drug operations, and tactical intelligence and special activities.

4.1.1.3. The Combatant Commands (COCOM) activity group supports COCOM direct missions, operation and administration to provide for the functional combatant capability and geographic worldwide mobility of United States forces. This funding is critical to defending the homeland and deterring foreign adversaries by executing the National Security Strategy and National Military Strategy of the United States.

4.1.2. Budget Activity R1: Reimbursements. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA01 (operating forces). Sales codes

are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.1.3. BUDGET ACTIVITY 02: MOBILIZATION. The Mobilization budget activity consists of the following mission areas: Airlift Operations; C3I; Mobilization Preparedness; and the Airlift Readiness Account.

4.1.3.1. The Airlift Operations mission area supports the day-to-day mission activity of mobility operations (e.g., tactical airlift, air refueling, and operational support airlift for the movement of personnel and cargo). It also supports Headquarters Air Mobility Command (AMC), its detachments, and other numbered Air Force headquarters. This support includes administrative support necessary in managing the peacetime logistics mission as well as training and preparing airlift forces to meet wartime objectives.

4.1.3.2. The Airlift Operations C3I mission area supports the core of mobility operations through the provision of AMC command and control systems. These systems provide the capability to direct and control airlift and aircrew forces for worldwide deployment and provide in-transit visibility of cargo and passengers; generate billing data; provide for deliberate planning, analysis, and modeling; and provide for software maintenance and personnel to operate current systems including the Global Decision Support System. In addition, mobility support activities support airborne senior leader command, control, and communications suites by providing secure and non-secure voice, data, and video connectivity, seamless and dedicated satellite communications service and support across global airbridge routes, guidance provided by White House Military Office requirements.

4.1.3.3. The Mobilization Preparedness mission area supports mobility operations with the capability to sustain crisis situations through the provision and pre-positioning of war readiness materials (WRM). It includes manpower authorizations, peculiar (specific to something) support equipment, facilities, and the associated costs specifically identified and measurable for the procurement and maintenance of equipment or secondary items within the war reserve stockpile. In addition, it supports the medical wartime mission through contingency hospitals located outside the continental United States. Beginning in FY 2021, this mission area supports medical readiness activities which occur outside of the Military Treatment Facility (previously funded by the Defense Health Agency).

4.1.3.4. The Airlift Readiness account covers the difference between revenue and expenses for airlift within the Transportation Working Capital Fund enabling the United States Transportation Command (USTRANSCOM) to charge competitive rates.

4.1.4. BUDGET ACTIVITY R2: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA02 (mobilization). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.1.5. BUDGET ACTIVITY 03: TRAINING AND RECRUITING. The Training and Recruiting budget activity consists of three activity groups: Accession Training; Basic Skills and Advanced Training; and Recruiting and Other Training and Education.

4.1.5.1. The Accession Training activity group produces the enlisted and officer personnel needed to meet total force requirements. This training provides an effective, efficient military indoctrination program that facilitates a smooth transition from civilian life to the

military environment. Officer accessions receive indoctrination training through the USAFA, Air Force Reserve Officer Training Corps, Officer Training School (OTS), Warrant Officer Training School, and Airman Education and Commissioning Program. Enlisted accessions receive indoctrination training through Basic Military Training (BMT). Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

4.1.5.2. Basic Skills and Advanced Training provide Air Force personnel and individuals of other Services training and education essential to operate, maintain, and manage complex Air Force weapon systems and associated support structure. Programs cover initial and follow-on technical skills progression training, undergraduate flying training, professional military education, specialized professional development, expeditionary skills training and education, and related training support. Most follow-on specialized and skill progression training is conducted at technical training centers or through distributed learning venues. Some training, however, is at civilian educational institutions and contractor facilities. Training and Education capabilities also support partner nation international students. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

4.1.5.3. Recruiting and other training and education includes total force personnel acquisition marketing and operations, voluntary education programs for active component, language and culture training leadership and professional development programs, and the Air Force Junior Reserve Officer Training Corps.

4.1.6. BUDGET ACTIVITY R3: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA03 (training and recruiting). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.1.7. BUDGET ACTIVITY 04: ADMINISTRATION AND SERVICE-WIDE ACTIVITIES. The administration and service-wide budget activities consist of four activity groups: Logistic Operations; Service-wide Support (Administration); Security Programs; and Support to Other Nations.

4.1.7.1. The Logistic Operations activity group includes Depot Maintenance, Engineering and Installation Support, Acquisition and Combat Support, Second Destination Transportation, and the Defense Courier Division at Air Force Materiel Command installations. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

4.1.7.2. The Service-wide Activities activity group cuts across the entire Air Force to ensure combat capability and maintain readiness, effective leadership, efficient management, and adequate support to Air Force units and personnel in diverse geographic locations. Also provides personnel support functions and fulfills a broad range of essential needs to sustain mission capability, quality of life, workforce productivity, and the preservation of the physical plant.

4.1.7.3. The Security Program activity group includes the Air Force Office of Special Investigations and a series of classified programs. Air Force Office of Special Investigations protects Air Force resources through specialized investigative support and has a major investigative role in the DoW counterdrug program.

4.1.7.4. The Support to Other Nations activity group includes security assistance, humanitarian assistance, U.S. participation in international and multinational activities, the United States share of support to the North Atlantic Treaty Organization (NATO), Supreme Headquarters Allied Powers Europe, NATO Airborne Early Warning and Control Program, and other international headquarters support.

4.1.8. BUDGET ACTIVITY R4: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA04 (administration and service-wide activities). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.2. Space Force Operation and Maintenance. For expenses necessary to operate, sustain, and maintain space lift operations, Department of War satellites, and many of the Department of the Air Force's ground-based and space-based space systems; organize, train, and equip Guardians; provide pay and benefits for civilian personnel; and purchase day-to-day supplies and equipment. O&M resources support essential combat enablers such as intelligence, weather, and civilian pay. The individual appropriation listing in **Table 4.3** includes a brief description of the appropriation or account content.

Table 4.3. Space Force Operation and Maintenance.

Appropriation	Fund Code	Description
5773410	A8	O&M, Space Force

4.2.1. BUDGET ACTIVITY 01: OPERATING FORCES. This budget activity consists of two activity groups supporting Space Force: Combat Related Operations and Space Operations.

4.2.1.1. The Combat Related Operations activity group comprises Global C3I and Early Warning resources that provide Strategic Offensive and Defensive C3I tailored to the needs of the President of the United States, Secretary of War, North American Aerospace Defense, United States Northern Command (USNORTHCOM), United States Space Command (USSPACECOM), United States Strategic Command (USSTRATCOM) and operational commanders. This activity also consists of Space Force-wide communications

programs supporting development of a survivable communications capability for worldwide Command and Control communications during pre-attack, trans-attack and post-attack periods.

4.2.1.2. The Space Operations Forces activity group consists of assets and force structure to provide the capability to launch payloads into various earth orbits, communicate with these space-based platforms, and worldwide network of sites and terminals to relay data gathered by satellite constellations. Other programs include education and training, special programs, depot maintenance, and contractor logistics support and systems support with the personnel and infrastructure support for manpower and facilities used to execute these missions.

4.2.2. BUDGET ACTIVITY R1: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA01 (operating forces). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.2.3. BUDGET ACTIVITY 04: ADMINISTRATION AND SERVICE-WIDE ACTIVITIES. The administration and service-wide budget activities consist of one activity group supporting Space Force: Service-wide Support (Administration).

4.2.3.1. The Service-wide Support activity group funds the Office of the Chief of Space Operations, the Air Force Office of the Assistant Secretary for Space Acquisition and Integration and the Headquarters Space Systems Command.

4.2.3.2. This includes civilian personnel, technical/administrative support for the mission, staff functions, support activities and honor guard. Funds broad mission areas integral to Space Force readiness, effective leadership, efficient management, and adequate support to units and personnel. Also funds functions that will foster a dedicated space culture/ethos, which include space doctrine development, space warfare tactics, techniques and procedure development, education and training functions, and personnel management.

4.2.4. BUDGET ACTIVITY R4: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA04 (administration and service-wide activities). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.3. Air Force Reserve Operation and Maintenance. For expenses not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; transportation of remains (except for those expenses paid by DFAS, citing AF O&M funds), see Department of Air Force Instruction (DAFI) 34-160, *Mortuary Affairs Program*; recruiting; procurement of services, supplies, equipment; and communications. The individual appropriation listing in **Table 4.4 and Table 4.5** includes a brief description of the appropriation or account content.

Appropriation	Fund Code	Description
5773740	54	O&M, Air Force Reserve

4.3.1. BUDGET ACTIVITY (BA) 01: OPERATING FORCES**.** Provides for the operation and training of all Air Force Reserve units. Activities supported include aircraft operations, ground training, base level aircraft maintenance, maintenance of other equipment, supply activities, security for Air Force Reserve resources, Facilities, Sustainment, Restoration and Modernization, Cyberspace Activities, Base Operating Support, and Chemical Biological Radiological Nuclear Explosive. Includes funds for civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay; travel and transportation expenses of military and civilian personnel; transportation of material; rental of automated data processing equipment; communications services and maintenance of equipment, including vehicles; for purchase of supplies, equipment, and services from the AFWCF and from commercial sources. Includes funds for expenses of field training exercises and maneuvers. Also provides for funds from which the Air Force Reserve can reimburse the Consolidated Sustainment Activity Group – Maintenance (CSAG-M) for depot level maintenance including corrective maintenance of aircraft, equipment, and accessories, electronic and communications equipment, vehicles, and other equipment. The use of CSAG-M includes depot level maintenance, aircraft overhaul, reclamation, manufacture, assembly and disassembly, inspection, testing, sustaining engineering, maintenance, and updates.

4.3.2. BUDGET ACTIVITY R1: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA01 (operating forces). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.3.3. BUDGET ACTIVITY 04: ADMINISTRATION AND SERVICE-WIDE ACTIVITIES. The command function of Air Force Reserve, the administrative activities of the Air Reserve Personnel Center, recruiting, and other base support not included in the Operating Force activity require this program. Includes funds for civilian personnel service and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay and other non-personnel type expenses as identified in BA 01.

4.3.4. BUDGET ACTIVITY R4: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA04 (administration and service-wide activities). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.4. Air National Guard Operation and Maintenance.

Table 4.5. Air National Guard Operation and Maintenance.

Appropriation	Fund Code	Description
5773840	58	O&M, Air National Guard Appropriation

4.4.1. BUDGET ACTIVITY (BA) 01: OPERATING FORCES. Fuel for the operation of Air National Guard mission related aircraft; fuel for operating jet engine test cells, aircraft ground support equipment, and power equipment for communications units; and expenses incident to the base operation and maintenance of nonfederal owned Air National Guard installations having training support as a primary mission.

4.4.1.1. Also provides funds for operational support of the Air National Guard/Air Force blended wings and associate units. It includes funds for military technicians and civilian personnel services and benefits, operation, maintenance, and repair of facilities by contract, including leased property rentals and service agreements; travel and transportation expenses of military technicians, and civilian personnel; transportation of material; purchase and rental of electronic data processing equipment; commercial communications service, maintenance of base equipment including vehicles; medical support; and purchase of supplies, equipment, and services. This activity also includes funds for depot level maintenance, including corrective maintenance of aircraft, equipment and accessories, electronic and communications equipment, vehicles and other equipment.

4.4.1.2. Depot level maintenance includes repair, overhaul, reclamation, manufacture, assembly and disassembly, inspection, testing, and service engineering, including contractor-furnished supplies and equipment incident to maintenance service performed under contract. It also includes government furnished materiel procured from Defense Working Capital Fund (DWCF) using Depot Maintenance Business Area funds and consumed by the depots in support of the Air National Guard.

4.4.2. BUDGET ACTIVITY R1: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA01 (operating forces). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

4.4.3. BUDGET ACTIVITY 04: Administration and Service-wide Activities. Provides for personnel compensation and benefits of those civilian employees assigned to staff functions of the Air National Guard within the National Guard Bureau and the travel and per diem expenses of personnel assigned to those staff functions. This activity also supports recruiting efforts throughout the United States to obtain and retain quality enlisted and officer personnel into the Air National Guard. It provides those essential resources to accomplish the recruiting mission and provides local, regional, and national advertising designed to increase public awareness and generate recruiting opportunities.

4.4.3.1. 993 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS. For collection of refunds unidentifiable with this subsidiary accounting classification of the source appropriation and for repayments of refunds collected in error. Restricted for use by Defense Finance and Accounting Service Indianapolis (DFAS-IN), Ft. Benjamin Harrison, Indianapolis IN 46249-0001.

4.4.3.2. 995 ADVANCE PAYMENTS. Covers advances provided state agencies for the management, maintenance, security, and operation of facilities used in training of ANG personnel.

4.4.4. BUDGET ACTIVITY R4: REIMBURSEMENTS. This budget activity consists of all reimbursable authority, funding, execution, and reimbursements for BA04 (administration and

service-wide activities). Sales codes are required for all records (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

Chapter 5

PROCUREMENT

5.1. Aircraft Procurement. This appropriation provides for fabricating and procuring aircraft weapon systems to include UAVs and aerial targets; modifications; aircraft common support equipment; aircraft industrial preparedness; aircraft spares and repair parts; war consumables; miscellaneous aircraft requirements; special purpose automated data processing equipment; pre-delivery fuel; simulators and training devices; program management administration requirements; and first destination transportation. The individual appropriation listing in **Table 5.1** and **Table 5.2** includes a brief description of the appropriation or account content.

5.1.1. It excludes procuring of Air Force Supply Business Activity items (except from the Supply Business Activity) and base procurement aviation petroleum oils and lubricants (except pre-delivery fuel).

5.1.2. Budget Activity (BA) Structure: 01 Combat Aircraft, 02 Airlift Aircraft, 03 Trainer Aircraft, 04 Other Aircraft, 05 Modification of In-service Aircraft, 06 Aircraft Spares and Repair Parts, and 07 Aircraft Support Equipment and Facilities.

5.1.3. 100000 AIRCRAFT WEAPON SYSTEM (BA 01 – 04). This program provides for fabricating and procuring complete aircraft, including: flyaway costs, advance procurement (use Elements of Expense Investment Code 808 (5-digit) for advanced procurement); initial aircraft support equipment (common or peculiar [specific to one weapon system], see **Table 5.3**), training devices (for example, aircraft simulators for in-production aircraft); technical data and handbooks procured with end item; product improvement aircraft structural integrity per guidance within this manual; interim contractor support and interim supply support generated by new acquisitions until the date specified in the acquisition program baseline (between initial item deployment and permanent organic support); pre-delivery fuel; and

primary and alternate mission equipment. **Table 5.4** shows the source of funding for aircraft support equipment.

5.1.3.1. It excludes labor and expense material for work performed below or at depot level for modification of major end items of equipment except for modernization of equipment. It also excludes all base level maintenance, field support and/or service representatives, help desk, training, repairs, repair parts, and equipment operation.

5.1.3.2. 10**** Budget Program. Complete the Budget Program Activity Code (BPAC) by substituting the appropriate Budget Line-Item Code for the **** located at the DQS website, **https://fmdqs.cce.af.mil/home?3**.

5.1.4. 110000 MODIFICATIONS (BA 05). This program provides for:

5.1.4.1. Permanent and Permanent Safety modifications of in-service aircraft; aircraft peculiar and common support equipment; simulator and training equipment (aircraft), whether driven by an aircraft modification or by a requirement to modify the simulator; and components.

5.1.4.2. Procuring, under Headquarters Department of the Air Force (HQ DAF) approved and directed modernization and maintenance programs: modification kits and associated special tools; concurrent replacement of equipment taken from stock; peculiar ground support equipment required because of changes to configuration as a result of a modification; revised technical data and handbooks; and new software or software changes as a result of hardware changes. Modifying in-inventory components.

5.1.4.3. Engineering data.

5.1.4.4. Cost of retrofitting previously delivered aircraft and related equipment, reassigned for operational use, as a result of test programs (DoDI 5000.89_DAFI 99-103, *Capabilities-Based Test and Evaluation*).

5.1.4.5. Modifications to depot plant investment equipment items.

5.1.4.6. Fuel used for pre-delivery test of trial installations.

5.1.4.7. Modification installation costs for production kits including labor and expense materiel costs.

5.1.5. 11**** BUDGET PROGRAM. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

5.1.6. 120000 AIRCRAFT COMMON SUPPORT EQUIPMENT (BA 07). Budget Program (BP) 120000 (BP12) funds for replacement of organizational and intermediate level common support equipment for all out-of-production aircraft. Common (non-peculiar) organizational and intermediate level support equipment required as a result of modifications to out-of-production aircraft is procured with BP12 funds, applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose (DoD 7000.14-R, Volume 2A, Chapter 1). **(T-0)** The transition of Common Support Equipment, items from O&M, Air Force, to Aircraft Procurement, Air Force (under Centralized Item Management and Asset Control) beginning in FY20, are as follows:

*The planning phase is applicable to all weapon systems and modifications during any point in the program's life cycle. Funding covers program and supporting organization labor to accomplish the following: (1) Prepare documentation required for a depot source of repair decision. (2) Develop initial depot activation funding budget requests. (3) Initiate a depot maintenance activation working group. (4) Perform a gap analysis on individual projects.								
** Initial depot activation equipment purchases include support equipment, tooling, fixtures, equipment installation, automated test equipment and test program sets.								
Note: Depot activation ends when the "Organic Depot Maintenance Capabilities" memo is signed. Once obtained, O&M budget for recurring workload begins. In addition, once program reaches full repair capabilities, any changes to the repair line will be considered expansion of existing workload and funded via the Depot Working Capital Fund (applicable to form, fit, function modifications).

5.1.8. 130000 POST-PRODUCTION CHARGES (BA 07). This program provides for the following BP13 aircraft procurement requirements that have completed delivery, to include:

5.1.8.1. Production line close down cost.

5.1.8.2. Deferred support equipment (initial peculiar), and replacement of organizational and intermediate level peculiar support equipment, for all out-of-production aircraft.

5.1.8.3. Interim Contractor Support, including interim supply support, with an approved acquisition program baseline organic depot support determination between initial deployment and permanent organic support.

5.1.8.4. Initial procurement or replacement of aircraft flight simulators and flight crew or maintenance training devices and their initial support equipment for out of production aircraft.

5.1.8.5. Newly designated, increased requirement for, or replacement of, primary mission equipment.

5.1.8.6. Procure additional quantities of support equipment in support of force structure changes that increase the number of bases requiring support equipment during the post-production period of the weapon system (e.g., conversion of active to guard/reserve forces).

5.1.8.7. Procurement of investment type replenishment spares and repair parts which are exempt from the AF Working Capital Fund, Supply Division.

5.1.10. 140000 AIRCRAFT INDUSTRIAL RESPONSIVENESS (BA 07). This program provides for common facility capital type rehabilitation, necessary real property common facility maintenance and improvements, and compliance with environmental and energy requirements for government-owned, contractor-operated aircraft industrial facilities. This program also funds aircraft industrial productivity and preparedness improvement efforts, which includes industrial base technology modernization (an incentive effort to stimulate private capital investment) and industrial base program planning, which supports studies and analyses to ensure the industrial base can produce in peacetime and accelerate to meet critical needs during wartime.

5.1.12. 150000 (NOT CURRENTLY IN USE).

5.1.13. 160000 AIRCRAFT INITIAL SPARES AND REPAIR PARTS (BA 06). This program provides for procuring investment type initial spares and initial repair parts (to include depot lay-in of consumables, bench stock, etc.) required to support: new aircraft being procured; additional end items to the inventory; the modification program; updating changes; aircraft common ground support equipment; simulators and training devices; other production buys; whole spare engines and engine modules; and readiness spares package requirements tied to new acquisition or mission changes.

5.1.13.1. Budget as initial spares investment items whose pipelines are increased because of increased quantity of aircraft being procured. Initial spares managed by the Supply Business Activity require special budgeting considerations. Funds are required to reimburse the Supply Business Activity purchase of initial spares upon receipt or scheduled receipt of the items ordered for Working Capital Fund (WCF) items. For obligations by the Supply Business Activity, the standard reimbursement pattern is year one, 2.9%; year two, 17.0%; year three, 32.6%; year four, 23.8%; year five, 23.7%.

5.1.13.2. A program unique profile may be used after approval by the Deputy Assistant Secretary for Acquisition, Acquisition Integration (Execution Oversight) (SAF/AQXE) and the Deputy Assistant Secretary for Budget, Budget Investment RDT&E and Procurement (SAF/FMBIZ). For non-WCF items, initial spares funds must be obligated at the time the aircraft is placed on order (full funding policy), applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose. **(T-1)**

5.1.15. 170000 WAR CONSUMABLES (BA 07). This program provides for procuring war consumable equipment, which provides additional wartime support needed, if there are hostilities, to sustain operations until expanded production provides the required level of support.

5.1.15.1. Included in this program are auxiliary fuel tanks, missile launchers, pylons, ejector racks, decoys, and adapters consumed during wartime and peacetime operations.

5.1.15.2. The initial complement of this equipment (normally installed equipment) for a new weapon system will be procured with BP1000 funds as an integral part of the weapon system buy.

5.1.17. 180000 Procurement Other Than Air Force. This program provides for inventory shipped procurement, as defined in other budget programs in this appropriation, which requires the Air Force to make by designation or agreement for other agencies on a reimbursable basis. It also includes replacement authority for Air Force Materiel Command (AFMC) to replace to reimbursable customers (replacement-in-kind transactions only). It includes total aircraft weapon system cost; aeronautical vehicle; training equipment; peculiar AGE; data; advance buy; modification; common AGE; initial and replenishment spares and repair parts; and war consumables.

5.1.18. 18**** BUDGET PROGRAM. PROCUREMENT OTHER THAN AIR FORCE. The assigned major command (MAJCOM)/field command (FLDCOM) or base completes the BPAC by substituting digits 4 through 6 as listed below in **Table 5.5** to identify the supported system. When a code does not require an item specification, use 00). Refer to FMDQS website, **https://fmdqs.cce.af.mil/home?3** for historical 18**** BPACs.

5.1.19. 190000 MISCELLANEOUS PRODUCTION CHARGES (BA 07). This program provides for items which are not directly related to other procurement line items in this appropriation; cannot be reasonably allocated and charged to other procurement line items in this appropriation; can be managed as separate end items; contain certain classified programs; and are alternate mission equipment, not considered a modification, for out of production systems.

5.1.19.1. BP 190000 includes common electronic countermeasures and airborne reconnaissance systems but excludes trainers/simulators.

5.1.19.2. **** BUDGET PROGRAM. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the**** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

5.1.20. 19 UPWARD ADJUSTMENT (UPAD). This budget program activity code provides an accounting of reprogramming to pay legitimate upward adjustments against canceled aircraft/procurement appropriations.

5.1.21. 993000 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS. This budget program activity code provides for collecting refunds properly creditable to this appropriation but not identifiable to the subsidiary classification; and repaying of refunds collected in error. **Note**: Used only by DFAS-IN, Ft Benjamin Harrison, Indianapolis IN 46249-0001 and DFAS-IN, Operating Agency Code (OAC) 45, Accounting and Disbursing Station Number 380100.

5.1.22. 994000 PROGRESS PAYMENTS. This budget program activity code covers progress payments to contractors--less liquidations properly chargeable to other budget accounts.

5.1.23. 996000 APPROPRIATION REIMBURSEMENTS. This budget program activity code provides for accumulating reimbursements to this appropriation.

5.2. Air Force Procurement of Ammunition.

5.2.1. BUDGET ACTIVITY (BA) STRUCTURE. 01 Ammunition and 02 Small Arms. The individual appropriation listing in **Table 5.7** includes a brief description of the appropriation or account content.

5.2.2. 350000 BUDGET PROGRAM. This program provides for procuring munitions and related equipment (except guided missile warheads). Budget Program 35 includes rockets, cartridges, practice bombs, general-purpose bombs, spares and repair parts, modifications, flares, small arms and other miscellaneous items. Items included in the miscellaneous category include grenades, ground-burst simulators, etc.

5.2.4. 35***R Procurement of Ammunition Sales from Stock–Only BPACs. The BPACs in **Table 5.9** will be used exclusively to record obligations and expenditures associated with replenishing inventory items sold from stock using offsetting direct collections. Financial managers must ensure all transactions cite the appropriate Sales from Stock BPAC to maintain accurate cost attribution, audit traceability, and compliance with applicable fiscal and appropriation rules. Coordination with supply, logistics, and materiel management activities is required to validate replenishment actions meet Sales from Stock criteria and are executed in accordance with DoD 7000.14-R, Volume 3, Chapter 2, Paragraph 6.6.

5.4. Air Force Missile Procurement. This appropriation provides for fabricating and procuring missile weapon systems; modifications, modernization, retrofit, and update; spares and repair parts; war consumables; missile industrial responsiveness; miscellaneous missile requirements; site activation; hardware and site activation for Minuteman force modernization; technical data; special purpose ADPE; program management administration requirements; and First Destination Transportation. The individual appropriation listing in **Table 5.11** includes a brief description of the appropriation or account content.

5.4.1. It excludes procuring Air Force Supply Business Activity items (except from the Supply Business Activity); base procurement; contract technical services (see DAFI 21-101, *Aircraft and Equipment Maintenance Management*); engine component improvement (moved to RDT&E); missile launchers installed on aircraft (moved to Aircraft Procurement Account); space systems and launch vehicles/services (moved to the Space Procurement account) and munitions moved to 3011 in FY98.

5.4.2. BUDGET ACTIVITY (BA) STRUCTURE. 01 Ballistic Missiles; 02 Other Missiles; 03 Modification of In-service Missiles; 04 Missile Spares and Repair Parts; and 05 Other Missiles Support.

5.4.3. 200000 MISSILE WEAPON SYSTEM. This program provides for fabricating and procuring complete missiles, and guided rockets, including flyaway costs; advance

procurement (Use Elements of Expense Investment Code 808** for advance procurement); direct ground support equipment; training equipment and devices; site activation; technical data; depot tools and test equipment; and program management administration (PMA) requirements.

5.4.3.1. It excludes out-of-production missile systems; also excludes labor and expense material for work performed below or at depot level for modification or major end items of equipment except for modernization of equipment.

5.4.3.2. 20**** Budget Program. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

5.4.4. 210000 MODIFICATION. This program provides for:

5.4.4.1. Permanent and Permanent Safety: missile weapon systems, direct ground support equipment, and training equipment (missile).

5.4.4.2. Procuring under HQ DAF-approved and directed modification or maintenance programs: modification kits and special tools; concurrently replacing equipment taken from stock; peculiar ground support equipment; and revised technical data and handbooks.

5.4.4.3. Kit installation labor costs.

5.4.4.4. Modifying in-inventory components.

5.4.4.5. Engineering data.

5.4.4.6. Processing costs of equipment entering and leaving a modernization facility.

5.4.4.7. Modifications to depot plant investment equipment items.

5.4.4.8. Cost of updating changes to retrofit previously delivered missiles and related equipment approved before or as a result of test programs (DoDI 5000.89_DAFI 99-103).

5.4.4.9. Modification installation costs for production kits.

5.4.6. 220000 MISSILE SUPPORT EQUIPMENT. Budget Program 220000 (BP22) funds for the replacement of organizational and intermediate level support equipment for all out-of-production missile systems. This budget program funds replacement inert and dummy training (D-1 through D-5 and T-1 through T-5) missiles for out- of-production assets. Common support equipment as a result of modifications to out-of- production missiles is procured with BP22 funds. The following **Table 5.12** shows the source of funding for missile support equipment:

5.4.7. 22**** BUDGET PROGRAM. This BPAC is completed as follows: At all activity levels, the third digit represents the Force Management Code and is numeric, (1 for ballistic systems or 2 for tactical and other systems). At Headquarters Department of the Air Force/Office of the Chief of Space Operations (HQ DAF/OCSO) and MAJCOM/FLDCOM level, the next three digits (4th, 5th, and 6th fields) are filled with capital X shown in **Table 5.13**. At field activity levels, complete these three digits (4th, 5th, and 6th fields) by substituting the appropriate Budget Line-Item Code for the XXXs as follows: use 4th and 5th numeric digits from the list that follows. They are to be used to identify the system being supported. Double zeros (00) indicate no item specification is required. **(T-1).**

5.4.7.1. The 6th field can be alpha or numeric and reflects missile series identification.

5.4.7.2. Zero (0) indicates no specification, 8 indicates classified and use 9 for equipment common to several systems or no further detail as to specific management code is required. The letter Z indicates multiple applications within a weapon system.

5.4.8. 230000 SPACE PROGRAMS. This program provides for construction, procurement and/or modification of spacecraft, launch services, and related equipment to include ground control and communications equipment, spares, support equipment, power conditioning equipment, training devices, ground vehicles, and PMA requirements. In FYs 2016 and 2017, space programs moved to 3021 (Pseudo 3023), Space Procurement Air Force. In FY 2018, Space Procurement, Air Force moved to 3021.5703, FC R2. In FY 2021, space programs moved from 3021.5703 to the new Space Force account 3022.5703.

5.4.9. 240000 MISSILE INDUSTRIAL RESPONSIVENESS. This program provides for capital type rehabilitation, necessary real property maintenance and improvements, and compliance with environmental and energy requirements for Air Force-owned, contractor-operated missile industrial facilities. Also included is the Manufacturing Technology program that establishes and validates improved missile manufacturing methods, processes and techniques to reduce acquisition and support costs, reduce production lead times, improve product quality, provide domestic sources, increase production yields, and ensure economic productivity of Air Force war fighting equipment. This also funds missile industrial productivity and responsiveness improvement efforts, which include industrial base

technology modernization (an incentive effort to stimulate private capital investment) and industrial preparedness measures for industrial base program planning.

5.4.10. 250000 MISSILE REPLENISHMENT SPARES AND REPAIR PARTS. This program provides for procuring Supply Business Activity exempt replenishment spares and repair parts required supporting missiles and guided rockets in inventory; direct ground support equipment (AGE); automatic testing equipment; training devices; WRM; contract maintenance spares; and depot tools and test equipment.

5.4.11. 25**** Budget Program. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

5.4.12. 260000 MISSILE INITIAL SPARES AND REPAIR PARTS. This program provides for procuring initial spares and repair parts to support: missiles and guided rockets being procured; the modification and modernization program; related ground support equipment (AGE); automatic testing equipment; training devices; contract maintenance spares; depot tools and test equipment; and provisioning documentation.

5.4.13. Initial spares managed by the Supply Business Activity require special budgeting considerations. Funds are required to reimburse the Supply Business Activity purchase of initial spares upon receipt or scheduled receipt of the ordered items. **(T-1)** For obligations by the Supply Business Activity, the standard reimbursement pattern is year one, 2.9%; year two, 17.0%; year three, 32.6%; year four, 23.8%; year five, 23.7%. If a program unique profile is used, it must receive prior approval from SAF/AQXE and SAF/FMBIZ. **(T-1)**

5.4.15. 280000 Procurement Other Than Air Force. This program provides for procurement for other agencies, on a reimbursable basis, made by the Air Force by agreement or designation. It also includes replacement authority for AFMC to replace inventory shipped to reimbursable customers (replacement in-kind transactions only).

5.4.16. 28**** BUDGET PROGRAM. Complete the BPAC as follows shown in **Table 5.15**.

5.4.16.1. An alphanumeric fourth digit of a BPAC code for an item is a 1 to indicate FMS or a 9 to indicate non-FMS, a 6 to indicate replenishment authority resulting from FMS sales, or a 7 to indicate replenishment authority resulting from non-FMS sales.

5.4.16.2. The assigned MAJCOM/FLDCOM or base uses the last two alphanumeric digits from **Table 5.16** to identify the supported system. When a code does not require an item specification, use 00.

5.4.18. 993000 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS. This program provides for: Collecting refunds properly creditable to this appropriation but not identifiable to the subsidiary classification and repaying of refund collected in error. **Note**: Used only by DFAS-IN, Ft Benjamin Harrison, Indianapolis, IN 46249-0001, and DFAS-IN, OAC 45, ADSN 380100.

5.4.19. 994000 PROGRESS PAYMENTS. This program covers progress payments to contractors--less liquidations properly chargeable to other budget accounts.

5.4.20. 996000 APPROPRIATION REIMBURSEMENTS. This program provides for accumulating reimbursements to this appropriation.

5.5. Space Procurement. This appropriation provides for fabrication, procurement, and modification of spacecraft, launch services, and related equipment (including ground control and communication equipment) and training devices, expansion of public and private plants, erection of structures and acquisition of land related to these purposes. In FY 2021, all space procurement programs moved from the Air Force account 3021.5703 to the new Space Force account 3022.5703. The individual appropriation listing in **Table 5.17** includes a brief description of the appropriation or account content.

5.5.1. 230000 SPACE PROGRAMS. This program provides for fabricating, procuring, modernization retrofit and modification of standard space launch vehicles, stage vehicles, ground system modifications, and spacecraft. It also includes associated ground support equipment and PMA requirements. The individual appropriation listing in **Table 5.18** includes a brief description of the appropriation or account content.

5.5.2. 280000 Procurement Other Than Air Force. This program provides for procurement for other agencies on a reimbursable basis, made by Air force by agreement or designation.

5.5.3. 29 Upward Adjustment (UPAD). This budget program activity code provides an accounting of reprogramming to pay legitimate upward adjustments against cancelled space procurement appropriations.

5.5.4. This appropriation provides for the construction, procurement and modification of spacecraft, launch services, and related equipment to include ground control and communications equipment, spares, support equipment and training devices.

5.5.5. Budget Activity (BA) Structure. BA 01 Space Procurement, SF; BA 02 Spares; BA 03 Ground Vehicular Equipment; BA 04 Other Base Maintenance and Support Equipment; BA RB Reimbursable Activities.

5.5.5.1. 230000 SPACE PROGRAMS. This program provides for construction, procurement and/or modification of spacecraft, launch services, and related equipment to

include ground control and communications equipment, spares, support equipment, power conditioning equipment, training devices, ground vehicles, and PMA requirements.

5.5.5.1.1. USSF Vehicles (BPAC 23SFV0). Purchase process: The DAF vehicle buy program is managed by the Vehicle Support Chain Operations Squadron and an approved authorization is required for all vehicle purchases. PEO ACS, through Warner Robins Air Force Life Cycle (WR-ALC) Management Center, centrally procures all DAF registered vehicles; to include issuance of Time Compliance Technical Orders, Safety of Use instructions, and cradle-to-grave technical assistance.

5.5.5.1.2. Power Conditioning Equipment (BPAC 23PWCN). The Air Force Life Cycle Management Center Power Conditioning and Continuation Interfacing Equipment (PCCIE) Program Office (AFLCMC/HBZBD, Hill AFB, UT) centrally controls all equipment at 3Kva and larger for the Department of the Air Force (DAF). This office replaces and modernizes uninterruptible power supply (UPS) systems to meet DAF requirements. The Space Force PCCIE PEM should provide the PCCIE program office with detailed SF requirements for the enacted funds in this line. Note: UPS smaller than 3Kva are procured in the applicable O&M account.

5.5.5.2. 270000 PROCUREMENT OTHER THAN SPACE FORCE. This program provides for procurement for other agencies, on a reimbursable basis, made by U.S. Space Force by agreement or designation.

5.6. Department of Air Force Other Procurement. For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts. The individual appropriation listing in **Table 5.19** includes a brief description of the appropriation or account content.

5.6.1. USE OTHER PROCUREMENT, AIR FORCE (OPAF) funds for the purchase of an end item equal to or greater than $350,000. Refer to DoD 7000.14-R, Volume 2A, Chapter 1 for criteria to determine expense vs investment costs.

5.6.1.1. This appropriation provides for procuring the following categories of materiel:

5.6.1.1.1. Vehicles.

5.6.1.1.2. Electronic and telecommunication equipment, including cryptological equipment, and its executive software.

5.6.1.1.3. Other base maintenance and support equipment.

5.6.1.1.4. Initial and Air Force Working Capital Fund exempt replenishment spares and repair parts.

5.6.1.1.5. Installation/replacement of equipment.

5.6.1.1.6. Production product improvement, including technical data packages.

5.6.1.1.7. Reproduction models on production contracts.

5.6.1.1.8. Technical data and handbooks procured with the end item.

5.6.1.1.9. Modification of in-service assets where unit modification cost exceeds the $350,000 threshold. Other service/agency procured modifications equal or less than $350,000 per unit is also funded with investment funds when required by the procuring activity.

5.6.1.1.10. Acquisition of test articles for follow-on operational test and evaluation, qualification test and evaluation, qualification tests, production acceptance test and evaluation, and qualification operational test and evaluation, except for low-rate initial production (LRIP).

5.6.1.1.11. Interim Contractor Support.

5.6.1.1.12. Type I Training; power conditioning backup.

5.6.1.2. This appropriation does not provide for:

5.6.1.2.1. Procurement of expense equipment.

5.6.1.2.2. Contract technical services (see AFI 21-101).

5.6.1.2.3. Prototype models.

5.6.1.2.4. Development, maintenance of, and changes to, software.

5.6.1.2.5. Operational test of LRIP articles.

5.6.2. 8***** BUDGET PROGRAM. Budget Activity (BA) Structure: 02 Vehicular Equipment; 03 Electronics and Telecommunications; 04 Other Base Maintenance and Support Equipment; and 05 Spares and Repair Parts.

5.6.3. 82**** VEHICULAR EQUIPMENT. This budget program activity code provides for procuring wheeled and other ground vehicular equipment including railroad vehicles and all the items identified for provisioning in the foregoing appropriation description. Complete the BPAC shown in **Table 5.20** and **Table 5.21** accordingly by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

5.6.3.1. Purchase Process. The DAF vehicle buy program is managed by the Vehicle Support Chain Operations Squadron and an approved authorization is required for all vehicle purchases. PEO ACS through Warner Robins Air Force Life Cycle (WR-ALC) Management Center, centrally procures all DAF registered vehicles; to include issuance of Time Compliance Technical Orders, Safety of Use instructions, and cradle-to-grave technical assistance.

5.6.3.2. Exceptions to Central Procurement. The following organizations do not require local purchase approval from WR-ALC: Civil Air Patrol (CAP), Counter Narcotics and the Forestry Program. Research laboratories do not require local purchase approval from WR-ALC for unique test vehicles and trailers required for basic, applied, or advanced research projects when research apparatuses are integrated into the vehicle/trailer platform. **(T-1)**

5.6.7. 84304* Power Conditioning Equipment. The Power Conditioning and Continuation Interfacing Equipment (PCCIE) Program Office centrally controls all equipment at 3Kva and larger for the Department of the Air Force. This office replaces and modernizes uninterruptible power supply (UPS) systems to meet DAF requirements. For replacement or new PCCIE 3Kva or larger systems, use the Air Force Life Cycle Management Center at Hill Air Force Base, UT (AFLCMC/HBZBD). UPS smaller than 3Kva are procured in appropriation 3400, O&M.

5.6.8. 84599* Base Maintenance and Support Equipment. Includes the transition of common support equipment items from Operation and Maintenance to Other Procurement beginning in FY20. These equipment items are as follows: AFMETCAL, MHU-110/141 Trailers, 463L Pallets & Nets and Base and Aircraft Arresting Systems. These equipment items are centrally managed, and asset controlled by PEO ACS for Active, Guard, and Reserve and may not be procured by the major command.

5.6.9. Installation of Investment Equipment. Most costs involved with the installation of 3080 equipment should be budgeted in the BPAC procuring the equipment. Includes activities such as delivery, unpacking, assembling components, placement, connecting utilities, and labor.

5.6.9.1. All costs involving real property assets related to the installation of equipment must be budgeted according to construction thresholds (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)**

5.6.9.2. Activities not paid with procurement funds include site preparation (soil grading/site surveys), foundations, exterior utilities, area lighting, fences, sidewalks, etc.

5.6.10. 851001 Air Force Forest Management Program. Provides for procurement of investment items used solely for forestry, management, or support. Funding is from the Forestry Management deposit fund account.

5.6.11. 852001 DoW Forest Management Program. Provides for procurement of investment items used solely for Forestry, Management, or Support. The Army managed DoW Forestry Management deposit fund account funds this program**.**

5.6.12. 853001 Air Force Cropland and Grazing. Provides for procurement of investment items used solely for cropland and grazing support. The Cropland and Grazing deposit fund account provides funding.

5.6.12.1. 86`**** SPARES AND REPAIR PARTS. This budget program activity code funds reparable components, assemblies and subassemblies as initial stock (including readiness spares package requirements) in support of newly fielded electronics and telecommunications equipment. This activity also funds replenishment spares for non-stock listed items in support of classified programs that are exempt from management in the Air Force Consolidated Sustainment Activity Group – Supply, AFWCF.

MILITARY CONSTRUCTION

6.1. MILCON. The MILCON appropriation should be used for acquiring, constructing, installing, and equipping temporary or permanent public works, military installations, facilities and real property for the regular Air Force and Space Force. This appropriation will only provide for costs defined as real property "investment costs" (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** Real property is defined as land and any improvements thereto, and things permanently attached to it; including structures and equipment installed in or made part thereof. Real property is not equipment that is moveable and severable without impairing the structure. This appropriation includes projects for planning and design, major and minor construction, unspecified support activities and foreign currency fluctuation gains and losses. This appropriation does not provide for the Air Force Reserve or Air National Guard. The budget activities within this appropriation include the following: 01 Major Construction, 02 Minor Construction, 03 Planning and Design, and 04 Support Activities. The individual appropriation listing in **Table 6.1** includes a brief description of the appropriation or account content.

6.2. Budget Project Code.

6.2.1. 310 PROJECT PLANNING AND DESIGN.

6.2.2. 313 Project Planning and Design. Project planning and design is applicable for design activities carried out on projects in prior, current and future MILCON programs. Do not charge this account for costs incurred for advanced program planning (use applicable O&M, RDT&E, procurement, or working capital appropriations as appropriate). **(T-0)** This program or project under the authority of Title 10 United States Code Section 9540, *Architectural and engineering services* and Title 10 United States Code Section 2807, *Architectural and engineering services and construction design* provides for planning and design services for projects to the point of construction contract award. After the award, charge these services to the appropriate budget project code (321 – Major Construction, Inside the United States, 331 – Major Construction, Outside the United States, or 341 – Unspecified Minor Construction) (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** Project planning and design services include:

6.2.2.1. Investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys at locations not subsequently

acquired; if /when the location is acquired, such payments are made a part of the acquisition costs under the appropriate construction code.

6.2.2.2. Developing and preparing real estate planning reports and any other data required for the acquisition of real estate.

6.2.2.3. Designing and analyzing design for construction; developing and preparing construction drawings and specifications; developing and preparing construction cost estimates.

6.2.2.4. Participating in preconstruction contract award activities for the purposes of relating design, drawings, and specifications to construction.

6.2.2.5. Printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.

6.2.2.6. Project planning and design excludes the preparation of training and operating or maintenance manuals; construction supervision and inspection services, except that planning and design funds are used for oversight of host nation construction when the facility is intended for use by U.S. forces; and temporary duty (TDY) costs of using agency unless specifically approved by the SAF Deputy Comptroller, Budget (Design; Construction Agent is not considered the using agency). **(T-1)**

6.2.3. 320 MAJOR CONSTRUCTION, INSIDE THE UNITED STATES. 321 Major Construction, Inside the United States. This program or project under authority of enabling legislation provides for: acquiring land and structures; adding to, expanding, extending, converting, and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work; and altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services and includes planning and design services when performed after award of the construction contract; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes using agency (command) costs for travel and per diem, unless specifically approved by the Deputy Assistant Secretary (Budget). **(T-1)**

6.2.4. 330 MAJOR CONSTRUCTION, OUTSIDE THE UNITED STATES. 331 Major Construction, Outside the United States. This program or project under authority of enabling legislation provides for: acquiring land and structures; adding to, expanding, extending, converting and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work; and altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction and supervision services and includes planning and design services when performed after award of the construction contract; maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes using agency (command) costs for travel and per diem unless specifically approved by the Deputy Assistant Secretary (Budget). **(T-1)**

6.2.5. 340 UNSPECIFIED MINOR CONSTRUCTION.

6.2.5.1. 341 Unspecified Minor Construction. This program or project, under authority of enabling legislation Title 10 United States Code Section 2805, *Unspecified Minor*

Construction, and the temporary increase enacted by Public Law 117-263, *National Defense Authorization Act for Fiscal Year 2023,* Section 2801, when the estimated funded cost is not more than $9,000,000, provides for: acquiring land and structures; adding to, expanding, extending, converting and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work; and altering and repairing existing structures in the activation of an inactive installation, if feasible; and it includes construction and supervision services (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)**

6.2.5.2. Under authority of enabling legislation 10 USC § 2805 and the temporary increase enacted by Public Law 117-263, Section 2801, appropriations available for operation and maintenance will be used as necessary to carry out an unspecified minor MILCON project costing not more than $4,000,000 (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)**

6.2.6. 350 SUPPORT ACTIVITIES.

6.2.6.1. 351 Support Activities. This program or project, under the authority enabling legislation Title 10 United States Code Section 2663, *Land acquisition authorities,* provides for acquiring land not costing more than $750,000 (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)**

6.2.6.2. 354 Reimbursable Activities. This program or project, under the authority of enabling legislation, provides for performing construction and related services for another military department or another government agency, on a reimbursable basis, pursuant to orders received.

6.2.7. 378 MILCON FOREIGN CURRENCY GAIN. (MILCON Foreign Currency Management Account).

6.2.8. 379 MILCON FOREIGN CURRENCY LOSS. (MILCON Foreign Currency Management Account).

6.2.9. 993 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS. This program provides collecting refunds properly creditable to this appropriation not identifiable to the subsidiary classification and repaying funds collected in error. **Note:** Use restricted to DFAS-IN, Ft. Benjamin Harrison, Indianapolis IN 46249-0001 and DFAS-IN, OAC 45, ADSN 380100. **(T-0)**

6.2.10. 999 DEFENSE ACCESS ROADS. This program or project, under the authority of enabling legislation, provides for constructing off-site defense access roads (U.S. and possessions [Title 23 United States Code Section 210, *Defense access roads*]).

6.3. Air Force Reserve MILCON. This appropriation provides for acquiring, constructing, installing, and equipping temporary or permanent public works, military installations, and facilities as currently authorized by law for the Air Force Reserve. This appropriation provides only costs defined as real property "investment costs." Real property definition is land and any improvements thereto, and anything permanently attached to it including structures and equipment installed in and made a part thereof, thus becoming an integral part of the structure. Moveable equipment not

affixed as an integral part of a structure, and which is readily severable without either impairing or defacing either the equipment or the structure is not real property. Moveable structures not permanently attached to the land, and which are readily severable without either impairing or defacing either structure or the land is not real property. It includes projects for: planning and design; major construction; minor construction; and support activities. It excludes providing for the Regular Air Force and the Air National Guard. Budget Activity (BA) Structure: 01 Major Construction; 02 Minor Constructions; 03 Planning and Design; and 04 Support Activities.The individual appropriation listing in **Table 6.2** includes a brief description of the appropriation or account content.

6.3.1. BUDGET PROJECT CODE.

6.3.2. 310 PROJECT PLANNING AND DESIGN.

6.3.3. 313 Project Planning and Design. Project planning and design is applicable to specific projects after approval by the Department of Defense for inclusion in the Force and Financial program. Before such approval, consider costs incurred for similar services as advance planning expenses and, unless specifically directed otherwise, do not charge this account. This program or project under the authority of enabling legislation 10 USC §§ 18232-18236 provides for these services for public works projects that are not otherwise authorized by law (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** After such authorization provides these services under the appropriate construction code (321, 313, or 341). Project construction design services include:

6.3.3.1. Investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys, and mapping, at locations not subsequently acquired.

6.3.3.2. Developing, preparing, and documenting criteria before design.

6.3.3.3. Designing and analyzing design for construction; developing and preparing construction drawings, specifications, space criteria and construction standards; developing and preparing construction and land acquisition estimates.

6.3.3.4. Participating in preconstruction contract award activities for the purposes of relating design, drawings, specifications, and standards to construction. (Does not include TDY costs to attend.)

6.3.3.5. Printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.

6.3.3.6. Reviewing shop drawings and working drawings, as prepared by construction contractors, for adequacy of design and agreement with contract drawings and specifications.

6.3.3.7. Other functions such as developing and updating of design criteria; preparing standard designs and definitive drawings; management of MILCON program design and contract administrative services for design; and project cost certifications.

6.3.3.8. Preparing as-built drawings. Project construction design excludes the preparation of training manuals, and advance planning. (Fund advance planning from O&M-type appropriations.)

6.3.4. 320 MAJOR CONSTRUCTION, INSIDE THE UNITED STATES.

6.3.4.1. 321 Major Construction, Inside the United States.

6.3.4.2. This program or project under authority of enabling legislation provides for:

6.3.4.2.1. Acquiring land and structures.

6.3.4.2.2. Adding to, expanding, extending, converting, and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

6.3.4.2.3. Altering and repairing existing structures in the activation of an inactive installation, if feasible. It includes construction supervision and administration (printing & reproduction) incident to the project. Maintain records to identify the costs of these services as distinguished from direct construction costs. It excludes the preparation of training, operating, maintenance manuals, travel and supplies.

6.3.5. 340 MINOR CONSTRUCTION.

6.3.5.1. 341 Minor Construction. Use this program or project, under authority of enabling legislation Title 10 United States Code Section 18231, *Purpose*, Title 10 United States Code Section 18232, *Definitions,* Title 10 United States Code Section 18233, *Acquisition,* Title 10 United States Code Section 18234, *Location and use,* Title 10 United States Code Section 18235, *Administration; Other use permitted by Secretary,* and Title 10 United States Code Section 18236, *Contributions to States; other use permitted by States,* when the estimated funded cost is not more than $9,000,000 provides for (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose): **(T-0)**

6.3.5.1.1. Acquiring land and structures.

6.3.5.1.2. Adding to, expanding, extending, converting and replacing existing structures; relocating structures from one installation to another, including equipment installed in and made a part thereof and related utilities and site work.

7.1.2.1. Project 711 New Construction (BA 01). This project provides for:

7.1.2.1.1. Erecting, installing, assembling, relocating, constructing, or replacing family dwelling units.

7.1.2.1.2. Related land acquisition, site preparation, excavating, filling, landscaping, demolition, environmental remediation, or improving sites relating to work in Project 711.

7.1.2.1.3. Initial outfitting of major equipment to include appliances such as kitchen ranges, refrigerators, and dishwashers; provide plumbing and electrical connections for use of washing machines and clothes dryers.

7.1.2.1.4. Supervision and inspection of construction.

7.1.2.1.5. Construction of non-dwelling buildings associated with a family housing area.

7.1.2.1.6. Construction of roads, driveways, walks, and utility systems that primarily serve family housing units.

7.1.2.1.7. Construction of recreation and community facilities integral to a family housing area.

7.1.2.1.8. Replace damaged or destroyed family housing facilities.

7.1.2.1.9. Housing privatization project's scoring costs. If the housing privatization project proves infeasible, then a military family housing construction project is accomplished.

7.1.2.2. Project 713 Construction Improvements (BA 03). This project provides for construction for:

7.1.2.2.1. Upgrading inadequate family housing quarters and housing.

7.1.2.2.2. Improving adequate public quarters.

7.1.2.2.3. Converting existing facilities to family housing quarters.

7.1.2.2.4. Altering, adding, expanding, extending, improving, demolishing, or repairing family dwelling facilities, except as provided in P722.

7.1.2.2.5. Construction of family housing real property, other than dwelling units required subsequent to and because of previously acquired dwelling units.

7.1.2.2.6. Retrofitting existing units to make them more energy efficient, and to provide substantial savings in utility costs such as upgrading ceilings, roofs, wall insulation, and heating and air conditioning systems to current standards.

7.1.2.2.7. Alter family housing to accommodate physically handicapped family members except as provided in P722.

7.1.2.2.8. Supervision and inspection of construction.

7.1.2.2.9. Housing privatization project's scoring costs. If the housing privatization project proves infeasible, then a military family housing improvement project is accomplished.

7.1.2.2.10. Providing major equipment and fixtures to include appliances such as kitchen ranges, refrigerators, and dishwashers in existing units; provide plumbing and electrical connections for use of washing machines and clothes dryers.

7.1.2.3. Project 714 Planning and Design (BA 04). This project, under the authority of 10 USC §§ 9540 and 2807, provides for planning and design activities for projects in prior, current and future Family Housing Construction Programs (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** Planning and design services include:

7.1.2.3.1. Investigating and selecting sites, including the payment of property damage resulting from site exploration and selection surveys at locations not subsequently acquired; if and when the location is acquired, such payments are made a part of the acquisition costs.

7.1.2.3.2. Developing and preparing real estate planning reports and any other data required for the acquisition of real estate.

7.1.2.3.3. Designing and analyzing design for construction; developing and preparing construction drawings and specifications; developing and preparing construction cost estimates.

7.1.2.3.4. Participating in preconstruction contract award activities for the purposes of relating design, drawings, and specifications to construction.

7.1.2.3.5. Printing and reproducing drawings, specifications, and other documents required for soliciting bid proposals.

7.1.2.3.6. Developing and preparing master planning reports to define investment requirements at individual installations e.g., Housing Community Profile.

7.1.2.3.7. Project planning and design excludes: the preparation of training and operating or maintenance manuals; construction supervision and inspection services, except that planning and design funds are used for oversight of Host Nation construction when the facility is intended for use by U.S. forces; and TDY costs of using agency unless specifically approved by the Deputy Assistant Secretary (Budget) (Design; Construction Agent is not considered the using agency). **(T-1)**

7.1.2.4. Project 717 Family Housing Construction Foreign Currency Fluctuation. (BA 03). This program provides the Foreign Currency Fluctuation (FCF) Centrally Managed Account for the Air Force Family Housing Construction appropriation. This account captures the sum of the favorable foreign currency gains and unfavorable foreign currency losses. This account began in FY04 and is primarily used in DFAS accounting reports for the Deputy Assistant Secretary for Budget, Budget Investment Military Construction (SAF/FMBIC) use in managing the CMA. Effective in FY17, this is incorporated into BA 03 and must be tracked via separate Budget Activity Account Number (BAAN) to distinguish from other improvement projects (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)** Previously, FCF was captured in a separate BA.

7.1.2.5. Project 719 Reimbursement. This program provides for reimbursements to this appropriation.

7.2. Family Housing Operation and Maintenance, Air Force. This appropriation started in FY02 and provides for Air Force Family Housing Operation and Maintenance costs. Budget Activity (BA) Structure: 05 Utilities; 06 Operations; 07 Leasing; 08 Maintenance of Real Property Facilities; 11 Mortgage Insurance Premiums; and 12 Family Housing Privatization. The individual appropriation listing in **Table 7.2** includes a brief description of the appropriation or account content.

Exceptions are provided for Non-Temporary Storage (NTS) and privately owned vehicles (POV) expenditures; storage expenditures are billed in the year when the services are rendered (i.e. monthly storage fees from the vendor). See DAFMAN 65-605, Volume 1. PCS covers allowances/reimbursements expenses incident to a PCS: government-paid travel of dependents, monetary allowance in lieu of Transportation (MALT), MALT covers mileage for privately owned vehicle (POV) travel, Per Diem compensates for lodging, meals, and incidental expenses, temporary lodging expense (TLE), dislocation allowance (DLA), pet allowances, personally procured move (PPM). See Joint Travel Regulation (JTR) Chapters 2, Chapter 5 and Chapter 6, *Financial Management Regulation (FMR),* Volume 9, Chapter 6. Additional authorizations and references are in the Department of Defense (DoD) 7000.14-R, DAFMAN 65-605*,* Volume 1*,* DAFI 36-2110, *Total Force Assignments*, and Defense Transportation Regulation (DTR) 4500.9-R, (website: **https://www.ustranscom.mil/dtr/index.cfm**), for the shipments of Household goods (HHG), and privately owned vehicles (POV) including Non-Temporary Storage (NTS), and POV storage.

8.1.44. United States Transportation Command/Defense Personal Property Management Office (USTRANSCOM/TCJ9) Air Mobility Command (AMC) Transportation Working Capital Fund (TWCF). Provides transoceanic services, unaccompanied baggage, HHG shipments, including outside the continental United States (OCONUS) port terminals, handling services for organic HHG shipments, and POVs. Passenger movement through AMC military, Patriot Express flights, and contracts with commercial air carriers, provide strategic and tactical airlift services for the military member and their family member(s). Reference Department of Defense (DoD) 7000.14-R, *Financial Management Regulation,* Volume 10, paragraph 130301.

8.1.45. Air Force ADOS Reserve Component (RC). Air Force Reserve ADOS-R and Air National Guard ADOS-AC military personnel appropriation (MPA) for Operational Support-Active Component. ADOS-AC and ADOS-R tours are funded through applicable military or Reserve personnel appropriations to support the ADOS MPA days. ADOS-RC missions are to provide skilled manpower assets to support existing or emerging requirements. The ADOS-R and ADOS-AC on ADOS-RC AF AD tour can be entitled to a PCS if the orders are for 181 days or more at a specific location (CONUS/OCONUS). See JTR 051305 and DAFI 36-2619, *Active Duty Operational Support (ADOS) – Active Component (AC) Man-Day Program.*

8.1.45.1. ADOS-AC MPA with an OCONUS PCS between 180-365 days (MUST be 366 days or more) will not be entitled to a HHG or POV shipment.

8.1.45.2. ADOS-AC MPA OCONUS PCS orders for less than 366 days, the supported organization may fund the shipment of HHG, up to the weight allowance (ref JTR 020501. B.1.) The supported Organization must provide the O&M funded Transportation Code (TAC) for the shipment of the TDY weight allowance.

8.1.45.3. ADOS-AC MPA CONUS PCS more than 179 days will receive standard PCS allowances and HHGS/POV shipments and storages as determined by the servicing transportation office.

8.1.45.4. See Tables **8.44** and **8.45** with the complete Accession and Tables **8.46 and 8.47** with Separation ADOS-AC PCS Line of Accounting (LOA).

8.1.46. PCS Emergency Evacuation: Title 5 United States Code Section 550 (Payments During Evacuation). (5 CFR $$550.401-409) and Title 37 United States Code Section 476(e); authorize reimbursement of emergency evacuation allowances when the Secretary of the Air Force, a designee, or other competent authority directs or approves the evacuation of the military family member(s). Active-Duty Members are placed on TDY orders. Reference JTR Chapter 6. Evacuation Travel.

8.1.47. Diversion of an Airman Enroute PCS "TDY Hold Status." When a change of projected gaining location is required and the Airman is enroute PCS and has not arrived at the original gaining location, change of assignment at this time is a "diversion." Use of the term diversion should signal a high degree of urgency to all who are responsible for processing the change. A diversion can impose a severe personal and/or financial hardship on the Airman, unfairly place an Airman at a disadvantage, and result in excessive PCS costs to the government. Before directing a diversion, the assignment OPR should carefully weigh the circumstances and alternatives. (Reference DAFI 36-2110. See **paragraph 4.13** for requests to place an airman in a "TDY Hold" status when a temporary situation dictates an airman not return to the previous permanent duty station, nor proceed to the original gaining location, and a decision is pending regarding a new gaining permanent duty station. Also see DAFI 36-2110, paragraphs 6.35.3 and 6.35.4, for continuation of PCS.

8.1.48. Military members assigned to government or government-controlled quarters. The housing office issues assignment and reassignment orders for movement of the member's personal property placed in NTS, not charged to the member's PCS orders. See DoD 7000.14-R, Volume 10, section 130702, paragraph C, and AFI 24-602, *Personal Property Moving and Storage,* Volume 4, Chapter 6.

8.1.49. Generally, Defense Travel System (DTS) does not support PCS Permanent Duty Travel (PDT), not to be used for arranging travel or settling claims involving Military PCS. Only Exception is the deferred COT. Reference FMR Vol 9, Chapter 6. paragraph 2.0.

8.1.50. Airmen PCS orders must have a valid line of accounting to include a standard document number (SDN) and a Transportation Account Code (TAC), for all personal properties' shipments and storage prior to planning for their PCS travel.

8.1.51. Members' PCS orders are valid until receipt of a new PCS order away from the PDS. See JTR Section 010206, Table 1-6, Par 3a of the JTR.

8.1.52. Members' orders are valid for five years to make payments against the accounting line stated on the members' orders. After five years, required to contact SAF/FMBOP-M for the

current fiscal year line of accounting. The only exception to this rule applies to the non-temporary storage and POV storages payments, which are disbursed in the current year when the services are rendered.

Sub-Projects Shreds for PCS Travel Entitlements/Allowances
0A—Pet Expense is an authorized reimbursement for the costs related to the relocation of one household pet that arises from a permanent change of station. A household pet is a cat or a dog, owned for personal companionship. See JTR Chapter 5: Permanent Duty Travel Part A, section 050107.
0B—Blank
0C—Port Handling Charges. USTRANSCOM controlled Ports and Vehicle Processing Centers (VPCs) for POV Transportation CONUS/OCONUS for readying POV for shipment at the loading port or VPCs and use at the unloading port or VPC. See JTR 054708, para B.4.
0D—Travel and Transportation Allowances for Family Members. When family members travel on the Member's official PCS order are authorized transportation allowances. See JTR Chapter 5: Permanent Duty Travel Part A, section 0504.
1D— Pilot Program Childcare Provider Transportation (FY23 NDAA, Sec 627) Effective October 1, 2024 to September 30, 2027. Eligible Members may be reimbursed for transportation expenses incurred by a designated childcare provider for travel to and from the PCS location when childcare is not available at a child development center at the new PDS within 30 days of the member's reporting date, and is currently on the wait list at the new PDS. For a PCS between CONUS locations, reimbursement is limited to $500. For PCS to or from an OCONUS location, reimbursement is limited to $1,500. Service members must apply for reimbursement no later than one year from their reporting date at the new PDS. Only one childcare provider is authorized per military family. Only one Member in a military-to-military couple can request reimbursement. See JTR Chapter 5, section 050108
0E—Temporary Lodging Expense (TLE) Service members are authorized up to 21 days of TLE for a CONUS to CONUS move. For CONUS to OCONUS, up to 7 days total at the old CONUS duty station before departing to OCONUS is authorized. For OCONUS to CONUS, Service members are authorized up to 21 days. Retirement/Separation TLE is not authorized. See JTR Chapter 5: Permanent Duty Travel Part A, section 0506 and MAP 21-25(I) dated March 21, 2025

Sub-Projects Shreds for PCS Travel Entitlements/Allowances
2E—Extended Temporary Lodging Expense (TLE) within CONUS Travel Only. A service member may be eligible for additional days of TLE allowance. A Member receiving TLE will aggressively seek permanent government-owned, government-controlled, privatized, or private-sector rental housing. Extended TLE may only be authorized for the number of days needed to prevent undue financial hardship to the Members. An official, identified by the installation or Public Health Service liaison may authorize extended TLE in 10-day increments (up to a maximum of 60 total TLE days) upon determining that the Member remains eligible. See JTR Chapter 5: Permanent Duty Travel Part A, section 050604.
0F—Dislocation Allowance (DLA) Payments with Family Members is an allowance paid to military members to partially reimburse them for expenses incurred in relocating their households. The DLA amount varies by Member rank and dependency status. DLA is not authorized for a member's final PCS (separation or retirement), or first PCS (unless dependents must relocate), or for a member without dependents assigned to government quarters at the new PDS. DLA advance payments may be issued 30 days prior. See JTR Chapter 5: Permanent Duty Travel Part A, section 0505.
0G—BLANK
0H—Government-Procured Commercial Household Goods (HHGs) The Air Force Personal Property Activity (PPA) Headquarters manages the movement of household goods (HHG) for Air Force personnel during Permanent Change of Station (PCS) moves. They work with Joint Personal Property Shipping Offices and Personal Property Processing Offices worldwide to facilitate these shipments. PPA HQ is the overarching manager, the actual physical movement of HHG is handled by TSPs, with support and guidance from JPPSOs, PPPs, and the broader DP3 program Provides transportation of personal baggage, unaccompanied baggage, PBP& E, and household goods (including accessorial services). Includes all costs incident to shipping household goods, including contract packing, crating, drayage, storage in transit (temporary storage), uncrating, and unpacking. See JTR Chapter 5, Part C: Household Goods Transportation (Members) and the DTR 4500.9-R Part IV Personal property
0I—International Household Goods (HHGs) Shipments: AMC ensures the efficient and timely movement of Air Force personnel and their belongings, including international household goods shipments, to facilitate their assignments and support the overall mission of the Air Force. Airlift Operations: AMC is the primary provider of global airlift, playing a crucial role in the movement of personnel and cargo, including household goods, via Patriot Express flights (military-contracted civilian charter service) for overseas permanent changes of station (PCS) moves, particularly to and from Europe. Military members personal property shipped OCONUS. See JTR Chapter 5, and the DTR 4500.9-R for additional references.
0J—Per Diem Allowances for Member: Per Diem payable for travel from the old PDS to the new PDS of the Member PCS assignment. A Per Diem allowance is a daily payment, lodging, meals, incidentals expenses, including transportation expenses, and other reimbursements directly related to the PCS of the military member. See JTR, Chapter 5, Part A: Standard PCS Allowances and Chapter 2.
0K—Per Diem Allowances for Family Member(s): When family members travel is authorized, per diem is payable for travel directly from the old PDS to the new PDS of the Member PCS assignment. Note: PCS allowances are not authorized for dependent travel to,

Sub-Projects Shreds for PCS Travel Entitlements/Allowances
from, or while at an enroute TDY location. See JTR, Chapter 2 and Chapter 3, and Chapter 5, section 0503.
0L—Safe Haven Allowance (New): To be used only with Sub-Projects 571*/581*. A Safe Haven is a temporary location to which a dependent travels. Defined as the area to which family members will be or have been evacuated. The Safe Haven and the Evacuated area may be in the same city or country or may be in different cities or countries. Evacuation payments cover the period of time during which the evacuation order remains in effect but must not exceed 180 days. The clock begins on the day after the dependent's arrival at the safe haven. See JTR Chapter 6, section 060205.
0M—Travel and Transportation for Member: Transportation allowance, mileage, mileage for one-way travel of member's POV to port of embarkation and from port of debarkation, transportation of personal baggage and TDY travel costs directly related to PCS of the military member. See JTR, Chapters 2, 3, and 5 for additional allowances.
1M—New Transportation of Infant Subsistence: Service members during a Permanent Change of Station (PCS) who are breastfeeding their child up to 12 months old. Service members on PCS may now be reimbursed for up to $1,000 may include the following: commercial shipping fees, disposable storage bags or non-durable containers, cold shipping packages, refrigeration, excess baggage fees, and dry ice or regular ice. Expenses for this purpose may not include the cost of a rental vehicle. See JTR Table 2-24 (18).
0N—Non-Temporary Storage: Storage facilities authorized for use in the long-term storage of HHG consist of commercial warehouses. See DoD 7000.14-R, Volume 10, Chapter 13, DTR Part IV Personal Property, and JTR Chapter 5, section 0518, paragraph B. Non-Temporary Storage (NTS). See AFI 24-602V4. NTS expenses are charged to the current fiscal year or when services are rendered.
0P—TDY Hold Status for Member Only: When a change of projected gaining location is required, and the Airman is who is enroute between permanent duty stations, in a TDY "Hold" status, when directed to discontinue travel pending further orders. Authorization to place military members in hold status requires the advance approval of the Air Force Personnel Center. See DAFI 36-2110 for further guidance.
0Q—Overseas Tour Extension Incentive Program (OTEIP) travel for enlisted military member only. See DAFI 36-2110, A12, for additional references. PCS ID: Z.
0R—Re-Licensure Reimbursement for Spouses of Military Members: See DAFMAN 36-2102, Chapter 7, for authorized reimbursement of Military spouses' re-licensing and recertification costs for qualifying state licenses and certifications upon a qualifying PCS or PCA. Payments not to exceed $1,000. Reimbursement applications will be processed by the servicing finance office in accordance with the Air Force Consolidated Miscellaneous Payment Guide.
1R---Reimbursements Military Spouses associated with the relocation of small business: See DAFMAN 36-2102, Chapter 7. Payments not to exceed $1,000; Reimbursement applications will be processed by the servicing finance office in accordance with the Air Force Consolidated Miscellaneous Payment Guide.
0S—Dislocation Allowance (DLA) Payments without Family Members: Payment to partially reimburse a member without family members when transferred to a permanent duty station and not assigned to government quarters. See JTR Chapter 5, Permanent Duty Travel Part A, Section 0505.

Sub-Projects Shreds for PCS Travel Entitlements/Allowances
0T—Mobile Home Transportation Allowances: See JTR, Chapter 5, Part D, DoD 7000.14-R, Volume 9, AFI 24-602V4, Chapter 9, and DTR 4500.9-R for further guidance.
0U—Consecutive Overseas Tour (COT) & In Place (COT) Overseas Tour: Travel and Transportation Allowances for Family Member(s). See JTR paragraphs 050809, 050812.
0V—Private Owned Vehicle (POV) Shipment: A motor vehicle owned by or leased (12 or more months) to a member or dependents for the primary purpose of providing personal transportation and used as the primary means of transportation at the new PDS related to the execution of Global POV Contract V (GPC V). The vehicle must be self-propelled, licensed to travel on public highways, designed to carry passengers or HHG; and must have four or more wheels. See JTR Chapter 5: Permanent Duty Travel, Part E: Paragraphs 0529 and 0530.
0W—Consecutive Overseas Tour (COT) & In Place (COT) Overseas Tour: Travel and Transportation for Military Member. See JTR sections 050810, 050812.
0X—PCS Travel Advance: Service members may be able to request an advance of pay to cover expenses related to the PCS move. Travel advance payment is charged against the LOA on the PCS travel order. See DoD 7000.14-R Volume 7A, Volume 9, and www.dfas.mil/MilitaryMembers/travelpay,
0Y—Personally Procured Move (PPM): (formerly known as a Do-It-Yourself (DITY) move) PCS relocation option. A Member or a deceased member's next of kin may elect to personally-procure HHG transportation and be paid a monetary allowance of 100% - 130 % of the Government's "Best Value" cost for the actual HHG weight transported up to the maximum authorized weight allowance. The member must have orders authorizing a PDT, with HHG allowances, or a short distance HHG move in accordance with the JTR, section 0519. A Member, or next of kin who personally arranges for HHG transportation without going through a government transportation office is responsible for all issues and costs related to circumstances outlined in the JTR, Chapter 5, paragraph 3.2, Part C, subparagraph 051502, DoD 7000.14-R, Volume 9, Chapter 6, AFI 24-602, Volume 4, Chapter 8, and DAFI 36-2110.

8.1.57. Projects USAF 5710.** Officer Emergency Travel and 5810.** Enlisted Emergency Travel. USSF 571G.** OFFICER EMERGENCY TRAVEL and 581G.** Enlisted Emergency Travel (PCS ID: W). These projects provide for the payment of the Airmen's family member(s) authorized emergency evacuation allowances upon evacuation (reference 5 USC § 5725, and DoDD 3025.14). The Secretary of State orders the evacuation and the DoW supports the evacuation effort. (T-0) For specific entitlements, refer to the JTR, Chapter 5 and Chapter 6 and FMR Volume 9, Chapter 7. Only applicable to dependents of active component military members or dependents of military members of reserve components that are mobilized at the time of evacuation. Emergency PCS travel orders are authenticated at the AOR. Tables **8.48, 8.49 and 8.50** include a brief description of the subprojects or account content. **Note:** When an ESP is established, the "**" are replaced to identify the emergency ESP code.

8.1.58. PROJECTS USAF 5720.** Officer Low-Cost Travel and USAF 5820.** Enlisted Low-Cost Travel. USSF 572G.** Officer Low-Cost Travel and USSF 582G.** Enlisted Low-Cost Travel (PCS ID: V). Low-cost moves are PCSs between duty locations in proximity where both areas are serviced by the same local transit system or member could commute daily from either PDS per guidance issued in the JTR. It is determined in advance of approval there is no requirement for the Airman to relocate his household in conjunction with the move. Members reassigned under the low-cost move provisions outlined in this paragraph are not given new tours; therefore, they are not authorized COT leave travel, and it is not necessary to adjust the original tour completion date of members reassigned on low-cost moves. No enroute training or TDY is authorized in conjunction with low-cost PCS. Reference DAFI 36-2110, para 6.41 for authorization of allowances criteria. **Table 8.51** includes a brief description of the subprojects or account content.

8.1.58.1. PBP&E. A Member is authorized PBP&E when the member certifies that the PBP&E are necessary for official duty at the next PDS. PBP&E must be declared at the origin of the shipment and must be documented (to include certification or approval) according to agency or service transportation procedures. **(T-0)**

8.1.58.2. The weight of PBP&E is not included in the maximum authorized HHG weight allowance. The PBP&E maximum weight allowed is limited to 2,000 pounds net weight. See JTR, section 051304.

8.1.59. USAF and USSF Sub-Project 5821.0H and 5821.0V are restricted to Deputy Assistant Secretary for Budget, Budget Operations Personnel and Training MILPERS (SAF/FMBOP-M), for the United States Transportation Command/Program Analysis and Financial Management (USTRANSCOM/TCJ8) Service Contracts. These funds are not included in the overall Cost-Per Move rates.

8.1.59.1. Sub-Project 5821.0H provides funds to support the overhead cost for the for the Defense Personnel Property System (DPS/DP3) and E-TOPs (NTS system). FY13 Resource Management Decision (RMD) Document RF-C 008, titled "Household Goods Movement Overhead Costs for Military Personnel Moves." RMD (OSD) directs services MILPERS appropriation to fund the overhead systems costs of personal property movement.

8.1.59.2. Sub-Project 5821.0V provides funds to support overhead costs for the Global POV (LASER) service contract; to ship and/or store the member's personal vehicles.

8.1.60. USAF and USSF Projects 573*.** Officer COT Travels and 583*.** Enlisted COT Travels. These projects provide and are restricted to the Sub-Projects in **Table 8.52**. PCS orders are authenticated at the member PDS.

8.1.60.1. Consecutive Overseas Tour (COT). COT refers to members stationed OCONUS who are ordered to a consecutive overseas assignment at the same duty station or are reassigned/PCS to another overseas duty station. Members and dependents on a COT may be paid travel and transportation allowances in connection with authorized leave after

completing the initial tour if remaining at the same duty station or while transitioning to the new OCONUS duty station. See DAFI 36-3003, *Military Leave Program*.

8.1.60.2. Deferred COT. Deferred COT refers to members unable to use the COT leave travel and transportation allowances between the two tours because of military necessity, or when requested by members and approved by the commander and placed in the permanent change of station orders. Members have until the end of their new tour to use the COT leave travel and transportation allowances, otherwise, the authority expires. Deferred are the only PCS type orders processed through DTS. See DAFI 36-3003.

8.1.61. USAF and USSF Projects 573*.** Officer IPCOT Travels and 583*.** Enlisted IPCOT Travels. These projects provide and are restricted to the Sub-Projects in **Table 8.52**. PCS orders are authenticated at the member PDS.

8.1.61.1. In-Place Consecutive Overseas Tour (IPCOT). IPCOT refers to members assigned to a consecutive tour at the same overseas duty station.

8.1.61.2. Members cannot initiate the travel until they have entered the new IPCOT tour and have until the end of the IPCOT tour to use the travel and transportation allowances. See DAFI 36-3003.

8.1.62. USAF Project 5834.** Enlisted Overseas Tour Extension Incentive Program (OTEIP) Travels. These projects provide and are restricted to the Sub-Projects in **Table 8.52**. PCS orders are authenticated at the member PDS.

8.1.62.1. OTEIP Travel (PCS ID: Z). OTEIP is a military program that provides financial and other incentives to service members who choose to extend their overseas tours beyond the initial assignment length.

8.1.62.2. This program aims to increase retention and reduce the costs associated with Permanent Change of Station (PCS) moves by encouraging service members to stay in their current overseas locations. The published orders must contain the complete LOA prior to members making travel arrangements.

8.1.63. USAF and USSF Projects 574*.** Accession Travel—Officers and USAF 584*.** Accession Travel— Enlisted. (PCS ID: A). These projects provide for PCS movement of members to first permanent duty station in CONUS or overseas. This includes movements from home (or point where members received orders) to Air Force duty station or training schools of 20 weeks or more duration (except no prior service enlistees), or to processing station and then to first duty station. (Includes officers appointed from cadet or enlisted status upon graduation from OTS). **Tables 8.53, 8.54,** and **8.55** include a brief description of the subprojects or account content.

8.1.63.1. Accession PCS includes the move of non-prior service enlistees to technical training courses regardless of length, and graduates and eliminees from less than 20-week courses to their first permanent duty station. Military members assigned to school programs of 20 weeks duration or more will terminate their PCS accession move upon being assigned to the first school in the program.

8.1.63.2. Accession PCS also includes the move to a new permanent duty station when appointed from enlisted to officer status upon graduation from a training program. (Intra – school moves are training moves). It excludes travel of applicants from home to recruiting stations.

8.1.63.3. Sub-Project- 574*. ** Accession travel of officers to first permanent duty station or first training school of 20 weeks or more duration including:

8.1.63.3.1. Officers appointed to a commissioned grade from civilian life.

8.1.63.3.2. Reserve, Air Force ROTC and ANG officers called, or recalled, to extended active duty.

8.1.63.3.3. Officers appointed, or recalled, from enlisted status (from enlisted duty station to new permanent duty station or school).

8.1.63.3.4. Officers appointed from enlisted status upon graduation from OTS to new permanent duty station or school.

8.1.63.3.5. Officers appointed upon graduation from Air Force Academy, US Military Academy, or US Naval Academy to first permanent duty station or school.

8.1.63.3.6. Officers appointed from Alaska, Hawaii, and U.S. Territories.

8.1.63.3.7. Officers restored to full active duty following a required appellate review process or parole.

8.1.63.4. Sub-Project-584*.** Accession of enlisted candidates to first permanent duty station or first training school of 20 weeks or more duration including:

8.1.63.4.1. Enlistees from recruiting station or place of enlistment to basic military training centers, then to first permanent duty station or to technical training courses regardless of course length, and graduates and eliminees from courses of less than 20 weeks duration to their first permanent duty station.

8.1.63.4.2. Reenlisted or prior service personnel from place of reenlistment to first permanent duty station or to training school of 20 weeks or more duration or nearest Air Force base. DAFI 36-2606, *Reenlistment and Extension of Enlistment*.

8.1.63.4.3. Recalled enlisted reservists from home to first permanent duty station or training schools of 20 weeks or more duration or to processing station.

8.1.63.4.4. Accepted candidates from civilian life or recruiting stations to flying or training schools.

8.1.63.4.5. Enlisted members accepted from Alaska, Hawaii, and U.S. Territories.

8.1.63.4.6. Enlisted member candidates restored to full active duty following a required appellate review process or parole.

8.1.64. USSF and USSF Projects 575*.** Officer Training Travel and 585*.** Enlisted Training Travel (PCS ID: B, C, D). These projects provide for PCS movements of officers and enlisted personnel from previous permanent duty station to formal service or civilian schools, including technical training schools, flying training schools, and other approved courses of instruction, of 20 weeks duration or more. They also include officers and enlisted personnel school graduates and eliminees from school to their next permanent duty station. These projects EXCLUDE movements between overseas duty stations and training schools provided in Sub-Projects 577*.** and 587*.**. **Table 8.57** includes a brief description of the subprojects or account content.

8.1.64.1. Subproject 575*.** PCS movements of student officers or overseas officers moving in country.

8.1.64.1.1. From previous permanent duty station to and from (graduates and eliminees), and between technical and flying training schools listed in the training prospectus. Includes non-prior service technical training graduates and eliminees from courses of 20 weeks or longer duration.

8.1.64.1.2. PCS movements of student officers filling quotas directed by the Air University to and from (graduates and eliminees), or between career professional civilian schools, including those under the jurisdiction of Air University. Also includes schools of the medical education program under the jurisdiction of the AFMC.

8.1.64.1.3. PCS movements of student officers to, from (graduates and eliminees), or between flying training schools for initial aeronautical rating. These schools are under the jurisdiction of the Air Education and Training Command flying training program.

8.1.64.2. Subproject 585*.** PCS movements of student enlisted personnel or overseas enlisted personnel moving in country. Tables **8.58** and **8.59** include a brief description of the subprojects or account content.

8.1.64.2.1. From previous permanent duty station to and from (graduates and eliminees), and between technical and flying training schools listed in the training prospectus. Includes non-prior service technical training graduates and eliminees from courses of 20 weeks or longer duration.

8.1.64.2.2. PCS movements of student enlisted personnel filling quotas directed by the Air University to, from (graduates and eliminees), or between career or civilian schools including those under the jurisdiction of Air University. Also includes schools of the medical education program under the jurisdiction of the AFMC.

8.1.64.2.3. PCS movements of student enlisted to, from (graduates and eliminees), or between flying training schools for initial aeronautical rating. These schools are under the jurisdiction of the Air Training and Education Command flying training program.

8.1.77. Project 599.** Other Miscellaneous Personnel Costs. This project pays for entitlements not covered in other projects. Included are civilian community corps, special compensation for severely disabled retirees and mass transit.

8.1.77.1. Subproject 599.01 Civilian Community Corps. Public Law 102-484 established the Civilian Community Corps, a residential national community service program on military bases. It required the Department of War to contribute to the salaries of those military retirees hired by the program using active-duty accounts.

8.1.77.2. Subproject 599.02 Special Compensation for Severely Disabled Retirees. This subproject provides monthly allowances to certain military retirees with service- related disabilities.

8.1.77.3. Subproject 599.03 Mass Transit Subsidy. Costs associated with the implementation of a mass transportation and vanpool transportation fringe benefit program for qualified federal employees. (Reference Executive Order 13150, *Federal Workplace Transportation,* April 21, 2000.)

8.1.77.4. Subproject 599.04 Partial Dislocation Allowance. Per the JTR, paragraph 050508. A service member ordered to occupy or vacate government quarters due to privatization, renovation, or any other reason for the government's convenience must be paid a partial DLA. A partial DLA is a one-time payment paid at a flat rate for a qualifying event. See the Defense Travel Management Office DLA webpage for the current partial DLA rate.

8.1.77.5. Subproject 599.05 Thrift Savings Plan Breakage Fee. This entitlement authorizes interest payments to qualifying military members of the Thrift Savings Plan who have suffered a loss due to an Air Force-caused delay in processing enrollment documents.

8.1.77.6. Subproject 599.06 Reserve Income Replacement Program. This entitlement pays eligible Reserve Component members monthly, an amount equal to the monthly active-duty income differential of the member as determined by the SECAF as implemented by DoDI 1241.05, *Reserve Income Replacement Program (RIRP).* **(T-0)**

8.1.77.7. Subproject 599.07 Stop Loss Special Pay, Active-Duty, Officer. This program authorizes retroactive stop-loss special pay compensation for active-duty officers, or

former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.8. Subproject 599.08 Stop Loss Special Pay, Active-Duty, Enlisted. This program authorizes retroactive stop-loss special pay compensation for active-duty enlisted, or former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.9. Subproject 599.09 Stop Loss Special Pay, AFR, Officer. This program authorizes retroactive stop-loss special pay compensation for AFR officers, or former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.10. Subproject 599.10 Stop Loss Special Pay, AFR, Enlisted. This program authorizes retroactive stop-loss special pay compensation for AFR enlisted, or former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.11. Subproject 599.11 Stop Loss Special Pay, ANG, Officer. This program authorizes retroactive stop-loss special pay compensation for ANG officer, or former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.12. Subproject 599.12 Stop Loss Special Pay, ANG, Enlisted. This program authorizes retroactive stop-loss special pay compensation for ANG enlisted, or former service members who were involuntarily retained on active-duty beyond their established date of separation or retirement as a direct result of a stop-loss program at any time from 11 September 2001 to 30 September 2009.

8.1.77.13. Subproject 599.13 Preventive Health Allowance Demonstration Project, Officer, With Dependent. This program pays for the Preventive Health Allowance Demonstration Project to evaluate the efficiency of providing an annual preventive health services allowance to increase the use of preventive health services by members of the Armed Forces and the dependents directed by Public Law 110-417, *Duncan Hunter National Defense Authorization Act for Fiscal Year 2009*, Section 714.

8.1.77.14. Subproject 599.14 Preventive Health Allowance Demonstration Project, Officer, Without Dependent. This program pays for the Preventive Health Allowance Demonstration Project to evaluate the efficiency of providing an annual preventive health services allowance to increase the use of preventive health services by members of the Armed Forces and the dependents directed by Public Law 110-417, Section 714.

8.1.77.15. Subproject 599.15 Preventive Health Allowance Demonstration Project, Enlisted, With Dependent. This program pays for the Preventive Health Allowance Demonstration Project to evaluate the efficiency of providing an annual preventive health

services allowance to increase the use of preventive health services by members of the Armed Forces and the dependents directed by Public Law 110-417, Section 714.

8.1.77.16. Subproject 599.16 Preventive Health Allowance Demonstration Project, Enlisted, Without Dependent. This program pays for the Preventive Health Allowance Demonstration Project to evaluate the efficiency of providing an annual preventive health services allowance to increase the use of preventive health services by members of the Armed Forces and the dependents directed by Public Law 110-417, Section 714.

8.1.78. Project 781.** INSTITUTIONAL PROGRAM.

8.1.78.1. Subproject 781.01 Subsistence Allowance-Advanced Course. Covers monthly monetary allowance paid to all advanced course cadets. Entitlement accrues for the actual enrollment of the cadet in the academic term up to a maximum 900 days. See DoD 7000.14-R, Volume 7A and Title 37 United States Code Section 209, *Members of precommissioning programs*.

8.1.78.2. Subproject 781.02 Subsistence Allowance Basic Course-Scholarship. Covers monthly monetary allowance paid to basic course cadets who are enrolled in the scholarship program. Entitlement and legal authority are the same as covered in 781.01.

8.1.78.3. Subproject 781.03 Uniforms-Issue-in-Kind. Covers the cost of requisitions issued by institutions using the issue-in-kind uniform system for advanced and basic cadets in support of the institutional program. Legal authority is in Public Law 88-647, *Reserve Officer's Training Corps Vitalization Act of 1964*, and Title 10 United States Code Section 2110, *Logistical support*.

8.1.78.4. Subproject 781.04 Military School Uniform-Commutation. Covers the cost of commutation entitlements (at prescribed rates) in lieu of uniforms for basic and advanced cadets enrolled in Senior ROTC at military colleges. Commutation in lieu of uniforms is paid to cadets for the purpose of purchasing military uniforms and accessories.

8.1.78.5. Subproject 781.05 Meals-Base Visits. Covers the meal cost for the purpose of orientation visits.

8.1.78.6. Subproject 781.07 Meals-Medical or Other Examinations. Covers the cost for meals for medical examinations, and other examinations. Includes meals for cadets in the Medical Flight Screening Program.

8.1.78.7. Subproject 781.08 Government Purchase Card Services. Purchases are for cleaning, alterations, uniform accessories (rank, name tags, etc.), occasional uniform items such as garrison caps and service coats or items not readily available on E-Mall.

8.1.78.8. Subproject 781.09 Foreign Languages Proficiency Pay. Stipend for ROTC cadets taking foreign language courses that ensures airmen are able to influence operations worldwide. Supports Air Force efforts in culture and language programs to meet requirements across accession points, in professional military education and specific career fields.

8.1.79. Project 782** FIELD TRAINING PROGRAM.

8.1.79.1. Subproject 782.01 Pay. Covers the pay entitlement of all cadets, which is accrued during the period of field training. The rate of pay for cadets and applicants attending field

training is the same as that received by Air Force Academy cadets, as provided by 37 USC § 203(c).

8.1.79.2. Subproject 782.02 Meals-Field Training. Covers the cost of cadet meals at the base field ration mess during field training, under authority of Public Law 88-647.

8.1.79.3. Subproject 782.03 Uniforms-Issue-in-Kind. Covers cost of uniforms requisitioned by the detachment for issue to cadets and applicants for use during field training.

8.1.80. Project 783** JUNIOR ROTC. Covers cost of procurement of uniforms for newly activated units and replacement items in current units. Covers meals for students authorized to participate in base visits, the Curriculum-in-Action program, Summer Leadership Schools (SLS) and Honor Camps. These trips are equivalent to the base visits program taken by Senior ROTC cadets.

8.1.80.1. Subproject 783.01 Uniforms. Covers cost of procurement of uniforms for newly activated units and replacement items in current units. Also covers alterations and cleaning of uniforms.

8.1.80.2. Subproject 783.02 Meals for Junior ROTC Cadets. Covers cost of meals for base visits, CIA, SLS and Honor Camps.

8.1.81. Project 784** PROFESSIONAL DEVELOPMENT TRAINING PROGRAM. Includes professional development training programs for selected Professional Officer Corps cadets who have completed field training to spend one to ten weeks in job related orientation at designated training locations. Includes special training programs for AS100s (General Military Course) cadets) to include one to six weeks of professional development training.

8.1.81.1. Subproject 784.01 Professional Development Training-Pay. Covers the daily pay of a cadet attending professional development training at the same rate as an Air Force Academy cadet as provided by 37 USC § 203(c).

8.1.81.2. Subproject 784.02 Meals-Professional Development Training. Covers the cost of meals for the cadet on the same basis as the cadet attending field training.

8.1.81.3. Subproject 784.03 Uniforms - Issue-In-Kind. Covers cost of uniforms requisitioned by the detachment at one of five military schools for issue to cadets for use during professional development training.

8.1.82. Program 993 APPROPRIATION REFUNDS ON TRANSPORTATION OF PERSONS AND THINGS. The program provides for: collecting refunds properly creditable to this appropriation not identifiable to the subsidiary classification; and repaying refunds collected in error. **Note**: USED ONLY BY: DFAS-IN, Ft. Benjamin Harrison, Indianapolis IN 46249- 0001 and DFAS-IN, OAC 45, ADSN 380100. **(T-0)**

8.1.83. Program 999 MISCELLANEOUS PERSONNEL COSTS. 8.3.8. Project 543** ADMINISTRATION AND SUPPORT. This project is for costs associated with Air National Guard personnel while on active guard or reserve duty under 10 USC §§ 10211, 12301(d), 12310, and 12402, and 32 USC §§ 502(f) and 708, and for PCS travel of dependents and transportation and storage of baggage and household goods, as authorized by law; for death gratuity payments to beneficiaries of Air National Guard personnel who die while participating in active or inactive duty training; for payment of educational assistance, enlistment bonuses, reenlistment bonuses, selective affiliation bonuses, student loan repayments, Servicemen's Group Life Insurance payments due the Veterans Administration and for pay and allowances and appropriate travel during periods of disability and hospitalization for members of the Air National Guard who suffer injury or contract a disease in the line of duty while participating in active and inactive duty training status. Personnel injured on active-duty continue in a paid active-duty status until the tour completion date stated in the orders. If disability continues beyond that date, personnel are entitled to disability and hospitalization pay under this project, but not to include travel from place of disability or hospitalization to home station that is chargeable to travel funds stated in active-duty orders. Other authorized travel performed while in a disability status will be charged to this project. **(T-0)** Table 8.105 includes a brief description of the subprojects or account content.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

9.1. RDT&E. Includes appropriation listing in **Table 9.1** and Budget Activities listed in **Table 9.2** for RDT&E in the DAF. In FY 2021, programs identified as space specific moved from the DAF 3600 account to the new Space Force 3620 account. In subsequent years programs were also transferred from other DoW Services and agencies. This transition will continue as programs are identified to transfer to the Space Force. **Note**: See **Chapter 14** for Centrally Managed Operating Budget Authorities (OBAs) and Allotments pertaining to this appropriation. See DoDI 5000.89_DAFI 99-103.

9.2. 61 BASIC RESEARCH. Basic research is systematic study directed toward greater knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind. It includes all scientific study and experimentation directed toward increasing fundamental knowledge and understanding in those fields of the physical, engineering, computer sciences and mathematics, environmental, and life sciences related to long-term national security needs. It is farsighted, high payoff research that provides the basis for technological progress. Complete the BPAC by substituting the appropriate

Budget Line-Item Code for the **** located at the FMDQS website, https://fmdqs.cce.af.mil/home?3.

9.2.1. Basic research may lead to: (a) subsequent applied research and advanced technology developments in Defense-related technologies, and (b) new and improved military functional capabilities in areas such as communications, detection, surveillance, propulsion, mobility, guidance, and control, navigation, energy conversion, cyberspace operations, materials and structures, and personnel support. Program elements (PE) in this category involve pre-Milestone A efforts. It covers:

9.2.1.1. Civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay.

9.2.1.2. TDY allowances to military and civilian personnel.

9.2.1.3. PCS of civilian personnel.

9.2.1.4. Cost of transportation provided by commercial carrier and DWCF, in connection with TDY travel and PCS movements chargeable to this program.

9.2.1.5. Transportation and material, including:

9.2.1.5.1. First destination transportation of supplies and equipment procured in support of laboratories or contractors engaged in research activities.

9.2.1.5.2. Special airlift of Air Force cargo via TWCF.

9.2.1.5.3. Inland commercial transportation of materiel from an Air Force laboratory to another AFB or depot, port of embarkation within CONUS, CONUS contractor's plant, or Army or Navy manufacturing facilities in connection with repair and return or storage of materiel.

9.2.1.6. Rentals of equipment.

9.2.1.7. Purchased utilities and communications.

9.2.1.8. Real property rentals, including initial alterations, restoration of leased facilities, and commercial storage services.

9.2.1.9. Printing, binding, duplicating, and photo reproduction services on a contractual or reimbursable basis.

9.2.1.10. Contractual services for research, development, engineering, design, preparation of detail specifications and model fabrication, technical evaluation, and requirements.

9.2.1.11. Procurement of mission support requirements for nonstandard supplies and equipment provided as Government Funded Equipment (GFE) to government contractors in support of research or used in Air Force laboratories for research projects.

9.2.1.12. Purchases from WCF.

9.2.1.13. Propellants and related items.

9.2.1.14. Purchases of supplies, equipment, and services authorized for local purchase as authorized.

9.2.1.15. Automated data processing costs.

9.2.2. SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by Headquarters Air Force Materiel Command/Financial Management Analysis (HQ AFMC/FMA) for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

9.3. 62 APPLIED RESEARCH. Applied research is systematic study to understand the means to meet a recognized and specific national security requirement. It is a systematic application of knowledge to develop useful materials, devices, and systems or methods. It may include design, development, and improvement of prototypes and new processes to meet general mission area requirements. Applied research translates promising basic research into solutions for broadly defined military needs, short of system development. This type of effort may vary from systematic mission - directed research beyond that in BA 1 to sophisticated breadboard hardware, study, programming, and planning efforts that establish the initial feasibility and practicality of proposed solutions to technological challenges. It includes studies, investigations, and non-system specific technology efforts. The dominant characteristic is that applied research is directed toward general military needs with a view toward developing and evaluating the feasibility and practicality of proposed solutions and determining their parameters. Applied research precedes system specific research. Program control of the Applied Research PE is normally exercised by general level of effort. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.3.1. PEs in this category involve pre-Milestone B efforts, also known as Concept and Technology Development phase tasks, such as concept exploration efforts and paper studies of alternative concepts for meeting a mission need. It covers:

9.3.1.1. Civilian personnel services and benefits, including reimbursement of bank charges for personnel participating in direct deposit of pay.

9.3.1.2. TDY allowances to military and civilian personnel.

9.3.1.3. PCS of civilian personnel.

9.3.1.4. Cost of transportation provided by commercial carrier and DWCF, in connection with TDY travel and PCS movements chargeable to this program.

9.3.1.5. Transportation and material, including:

9.3.1.5.1. First destination transportation of supplies and equipment procured in support of laboratories or contractors engaged in research activities.

9.3.1.5.2. Special airlift of Air Force cargo via TWCF.

9.3.1.5.3. Inland commercial transportation of materiel from an Air Force laboratory to another AFB or depot, port of embarkation within CONUS, CONUS contractor's plant, or Army or Navy manufacturing facilities in connection with repair and return or storage of materiel.

9.3.1.6. Rentals of equipment.

9.3.1.7. Purchased utilities and communications.

9.3.1.8. Real property rentals, including initial alterations, restoration of leased facilities, and commercial storage services.

9.3.1.9. Printing, binding, duplicating, and photo reproduction services on a contractual or reimbursable basis.

9.3.1.10. Contractual services for research, development, engineering, design, preparation of detail specifications and model fabrication, technical evaluation, and requirements.

9.3.1.11. Procurement of mission support requirements for nonstandard supplies and equipment provided as GFE to government contractors in support of research or used in Air Force laboratories for research projects.

9.3.1.12. Purchases from WCF.

9.3.1.13. Propellants and related items.

9.3.1.14. Purchases of supplies, equipment, and services authorized for local purchase as authorized.

9.3.1.15. Automated data processing costs.

9.3.2. SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the ****.

9.4. 63 ADVANCED TECHNOLOGY DEVELOPMENT. This budget activity includes development of subsystems and components and efforts to integrate subsystems and components into system prototypes for field experiments and/or tests in a simulated environment. Advanced Technology Development includes concept and technology demonstrations of components and subsystems or system models. The models may be form, fit, and function prototypes or scaled models that serve the same demonstration purpose. The results of this type of effort are proof of technological feasibility and assessment of subsystem and component operability and producibility rather than the development of hardware for service use. Projects in this category have a direct relevance to identified military needs. Advanced Technology Development demonstrates the general military utility or cost reduction potential of technology when applied to different types of military equipment or techniques. PEs in this category involve pre-Milestone B efforts, such as system concept demonstration, joint and Service specific experiments or Technology Demonstrations. Projects in this category do not necessarily lead to subsequent development or procurement phases. Analysis of Alternatives (AoA) studies (to include system specific AoA studies), are funded from this budget activity until the studies pass Milestone A. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.4.1. Projects in this category do not necessarily have to lead to subsequent development or procurement phases; however, programmed budget justification must identify potential rough order of magnitude estimates of additional development and production costs consistent with the Department's full funding policy (applies to the entire DAF, including DAF civilian employees and uniformed service members as outlined in the Purpose). **(T-1)**

9.4.1.1. Contract services for:

9.4.1.1.1. Development engineering.

9.4.1.1.2. Design.

9.4.1.1.3. Detailed specifications.

9.4.1.1.4. Development testing.

9.4.1.1.5. Fabricating prototype or working models.

9.4.1.1.6. Engineering evaluation.

9.4.1.1.7. Engineering improvements of items under development.

9.4.1.2. Procuring nonstandard and local purchase equipment and supplies:

9.4.1.2.1. Furnished as GFE.

9.4.1.2.2. Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.

9.4.1.2.3. For use in contractor facilities located at Air Force research activities.

9.4.1.3. Propellants and related items.

9.4.1.4. Purchases from WCF.

9.4.1.5. Automated data processing costs.

9.4.1.6. Management and support costs in direct support of development efforts.

9.4.2. This program budgets for and reimburses Air Force laboratories for direct, ancillary variable indirect, and overhead costs incurred by the laboratories in support of 63**** programs. Supporting documentation must substantiate cost prior to reimbursement/allocation (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)** SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. **(T-1)** Complete the BPAC by substituting the appropriate project designator for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.5. 64 ADVANCED COMPONENT DEVELOPMENT AND PROTOTYPES (ACD&P). Efforts necessary to evaluate integrated technologies, representative modes or prototype systems in a high fidelity and realistic operating environment are funded in this budget activity. The ACD&P phase includes system specific efforts that help expedite technology transition from the laboratory to operational use. Emphasis is on proving component and subsystem maturity prior to integration in major and complex systems and may involve risk reduction initiatives. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.5.1. PEs in this category involve efforts prior to Milestone B and are referred to as advanced component development activities and include technology demonstrations. Completion of

Technology Readiness Levels 6 and 7 should be achieved for major programs. Program control is exercised at the program and project level. A logical progression of program phases and development and/or production funding must be evident in the Future Years Defense Program (FYDP) (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

9.5.2. It covers:

9.5.2.1. Contract services for:

9.5.2.1.1. Development engineering.

9.5.2.1.2. Design.

9.5.2.1.3. Detailed specifications.

9.5.2.1.4. Development testing.

9.5.2.1.5. Fabricating prototype or working models.

9.5.2.1.6. Engineering evaluation.

9.5.2.1.7. Engineering improvements of items under development.

9.5.2.2. Procuring nonstandard and local purchase equipment and supplies:

9.5.2.2.1. Furnished as GFE.

9.5.2.2.2. Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.

9.5.2.2.3. For use in contractor facilities located at Air Force research activities.

9.5.2.3. Propellants and related items.

9.5.2.4. Purchases from WCF.

9.5.2.5. Automated data processing costs.

9.5.2.6. Management and support costs in direct support of development efforts.

9.5.3. SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. **(T-1)** Complete the BPAC by substituting the appropriate project designator for the **** located at the DQS website, **https://fmdqs.cce.af.mil/home?3**.

9.6. 65 SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD). SDD programs have passed Milestone B approval and are conducting engineering and manufacturing development tasks aimed at meeting validated requirements prior to full-rate production. This budget activity is characterized by major line-item projects and program control is exercised by review of individual programs and projects. Prototype performance is near or at planned operational system levels. Characteristics of this budget activity involve mature system development, integration, and demonstration to support Milestone C decisions, conducting live fire test and evaluation and initial operational test and evaluation of production representative articles. A logical progression of

program phases and development and production funding must be evident in the FYDP consistent with the Department's full funding policy (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)** Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.6.1. This activity includes contract services for:

9.6.1.1. Development engineering.

9.6.1.2. Design.

9.6.1.3. Detailed specifications.

9.6.1.4. Development testing.

9.6.1.5. Fabricating prototype or working models.

9.6.1.6. Engineering evaluation.

9.6.1.7. Engineering improvements of items under development.

9.6.2. Procuring nonstandard and local purchase equipment and supplies:

9.6.2.1. Furnished as GFE.

9.6.2.2. Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.

9.6.2.3. For use in contractor facilities located at Air Force research activities.

9.6.2.4. Propellants and related items.

9.6.2.5. Low-Rate Initial Production (LRIP) Test Articles. LRIP is to provide production configured or representative articles for operational test, to establish an initial production base for the system, and to permit an orderly increase in production rate for the system sufficient to lead to full rate production upon the successful completion of operational test. LRIP quantity is determined as part of SDD approval (Milestone B). RDT&E funds may be budgeted to procure the items required for operational test to facilitate the testing of LRIP assets in the SDD phase. LRIP test articles must be specifically identified in the budget documentation (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

9.6.2.6. Purchases from WCF.

9.6.2.7. Automated data processing costs.

9.6.2.8. Management and support costs in direct support of development efforts.

9.6.3. SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete BPAC by substituting the appropriate project designator for the ****.

9.7. 66 RDT&E MANAGEMENT SUPPORT. This activity includes research, development, test, and evaluation efforts to sustain and/or modernize the installations or operations required for general research, development, test, and evaluation. Test ranges, MILCON, maintenance support of laboratories, operation and maintenance of test aircraft and ships, and studies and analyses in support of the RDT&E program are funded in this budget activity. Cost of laboratory personnel, either in -house or contractor operated, would be assigned to appropriate projects or as a line item in the Basic Research, Applied Research, or Advanced Technology Development program areas, as appropriate. MILCON costs directly related to major development programs are included. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.7.1. PE 99999F Canceled Account Adjustments: Use the BPAC and BPAC name related to the original program incurring the expense but alter the second digit of the BPAC to "6" to reflect budget program 6. Do not forget to use ESP code ZC on all transactions. Commands/FOAs need to forward requests to SAF/AQXE/FMBIZ to realign funds from the paying PE to 99999F subject. **(T-1)** Where possible, use the BPAC from the original fund cites. Do not forget to use ESP code ZC. Transactions related to Title 31 United States Code Section 1551, *Definitions; applicability of subchapter,* Title 31 United States Code Section 1552, *Procedure for appropriation accounts available for definite periods,* Title 31 United States Code Section 1553, *Availability of appropriation accounts to pay obligations,* Title 31 United States Code Section 1554, *Audit, control, and reporting,* Title 31 United States Code Section 1555, *Closing of appropriation accounts available for indefinite periods,* Title 31 United States Code Section 1556, *Comptroller General: reports on appropriation accounts,* and Title 31 United States Code Section 1557, *Authority for exemptions in appropriation laws* (as referenced in DoW 7000.14-R) are not subject to reprogramming thresholds; therefore, any required movement of funds out of a PE to 99999F in relation to canceled account adjustments carries a footnote on the DD Form 1416, *Report of Programs.*

9.7.2. PE 99980F Payments to the Judgment Fund: The PE is restricted for payments to the judgment fund related to contract court settlements. Commands/FOAs need to forward requests to SAF/AQXE/FMBIZ to realign funds from the paying PE to 99980F subject to the thresholds; therefore, any required movement of funds out of a PE to 99980F in relation to judgment fund transactions will carry a footnote on the DD Form 1416. **(T-1)**

9.7.3. SAF/FMB issues funds by PE within this budget program. Use the BPAC to report subordinate efforts. **(T-1)** Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. Complete the BPAC by substituting the appropriate project designator for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.8. 67 OPERATIONAL SYSTEM DEVELOPMENT. This activity includes those development efforts to upgrade systems that have been fielded or have received approval for full rate production and anticipate production funding in the current or subsequent FY. All items are major line-item projects that appear as RDT&E Costs of Weapon System Elements in other programs. Program control is exercised by reviewing individual projects. Complete the BPAC by substituting the appropriate Budget Line-Item Code for the **** located at the FMDQS website, **https://fmdqs.cce.af.mil/home?3**.

9.8.1. Programs in this category involve systems that have received Milestone C approval. A logical progression of program phases and development and production funding must be evident in the FYDP, consistent with the Department's full funding policy (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)** It covers:

9.8.1.1. Contract services for:

9.8.1.1.1. Development engineering.

9.8.1.1.2. Design.

9.8.1.1.3. Detailed specifications.

9.8.1.1.4. Development testing.

9.8.1.1.5. Fabricating prototype or working models.

9.8.1.1.6. Engineering evaluation.

9.8.1.1.7. Engineering improvements of items under development.

9.8.2. Procuring nonstandard and local purchase equipment and supplies:

9.8.2.1. Furnished as GFE.

9.8.2.2. Used in Air Force laboratories for research and exploratory development projects, the funds to be provided from the respective projects.

9.8.2.3. For use in contractor facilities located at Air Force research activities.

9.8.2.4. Propellants and related items.

9.8.2.5. Purchases from WCF.

9.8.2.6. Automated data processing costs.

9.8.2.7. Management and support costs in direct support of development efforts.

9.9. 68 BUDGET PROGRAM, SOFTWARE AND DIGITAL TECHNOLOGY. Budget Activity 8, Software and Digital Technology Pilot Program includes funding provided for expenses necessary for agile development, test and evaluation, procurement, production and modification, and the operation and maintenance of these programs. **Note:** Only approved pilot programs are able to use BA 8. Software and Digital Technology Pilot Programs may be nominated to the Under Secretary of War (Acquisition & Sustainment). Once they are approved, the pilot program nomination can be submitted with the President's Budget request.

9.9.1. SAF/FMB issues funds by PE within this budget program**.** Use the BPAC to report subordinate efforts. Only those BPACs identified in the R-2/R-3 Congressional Budget Exhibit (Descriptive Summaries) **https://comptroller.defense.gov/Budget-Materials/** are authorized for use without prior approval of SAF/FMBIZ with the exception of those BPACs created by HQ AFMC/FMA for management tracking purposes only. **(T-1)**

RESTRICTED PROJECTS:	
1. 992000 Defense Debt Management System. This program provides for collecting individual out-of-service debt due 3600 appropriation. **Note**: Restricted use to DFAS-IN, OAC 45, OBAN 20, ADSN 380100 (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)**	
2. 993000 Appropriation Refunds on Transportation of Persons and Things. This program provides for: (1) Collecting refunds properly creditable to this appropriation but not identifiable to the subsidiary classification. (2) Repaying of refunds collected in error. **Note**: Restrict use to: (a) DFAS-IN, Ft Benjamin Harrison, Indianapolis, IN 46249-0001 (b) DFAS-IN, OAC 45, ADSN 380100

MISCELLANEOUS APPROPRIATIONS

10.1. Air Force Conservation Program on Military Reservations. As implemented by DoDI 4715.03, *Natural Resources Conservation Program*, use funds to carry out the program of wildlife, fish and game conservation, and rehabilitation. This may include personnel services and related costs, temporary duty travel, purchase of chemicals, food, seeds, etc., establishment of fishponds and such other expenses as may be necessary to carry out the purpose of the cited statutes. The appropriation listing in **Table 10.1** includes a brief description of the appropriation or account content.

10.3. Foreign Military Finance. This appropriation provides for workload associated with the administration of the IMET Program. The individual appropriation listing in **Table 10.3** includes a brief description of the appropriation or account content. See individual **Chapter 10** BA tables for brief description.

10.3.1. It includes budget projects for:

10.3.1.1. Supply operations.

10.3.1.2. Maintenance of equipment.

10.3.1.3. Special activities.

10.3.1.4. Administration.

10.3.2. This appropriation contains two suffix limitations based on financial application. The recipient country identifies each of these limitations for the military assistance provided under Special Authority 506(A) Emergency Drawdown: Fund Code 45 57-11*1082.0003, for direct obligation - administration only.

Foreign Military Finance Budget Activity for Aircraft
A00 AIRCRAFT
This budget activity provides for:
(A) The cost of all aircraft designated in AFI 16-401, *Designating and Naming Defense Military Aerospace Vehicles*. Air Force Active 8800.3
(B) Modifying Foreign Military Finance (FMF)-Owned Aircraft
(C) Aircraft Support Equipment
(D) Aircraft Spares and Repair Parts
The Costs of Aircraft in Complete Flyaway Status Include:
(A) Basic Airframe Unit
(B) Installed Engines
(C) Armament
(D) Electronics
(E) Airborne Weapons
(F) Photographic Equipment
(G) All Other Installed Government-Furnished Equipment
(H) Repair And Rehabilitation of Excess Aircraft

A40 Helicopters
A50 Other Aircraft
A60 Modification of Aircraft

Foreign Military Finance Budget Activity for Aircraft
This project provides for the costs of modifying FMF owned aircraft. It includes: HQ DAF Class IV and Class V modifications; related modification designations assigned by the other military departments
A70 AIRCRAFT SUPPORT EQUIPMENT
This project provides for the costs of aircraft support equipment, including:
(A) Ground Handling Equipment
(B) Arresting, Barrier, and Barricade Equipment
(C) Aircraft Launching Equipment
(D) Airfield Specialized Trucks and Trailers
A90 Aircraft Spares and Repair Parts
This project provides the costs of aircraft investment spares and repair parts procured with the aircraft as initial spares and subsequently for follow-on maintenance as replenishment spares. Examples include:
(A) Aircraft Structural Components
(B) Aircraft Components and Accessories, Except Parachutes and Aerial Pickup
(C) Delivery and Cargo Tie-Down Equipment
(D) Aircraft Engines and Components, Including Gasoline Reciprocating Engines
(E) Aircraft Engine Accessories, Including Fuel System Components
(F) Electrical System Components
(G) Cooling System Components
(H) Air and Oil Filters, Strainers, and Cleaners
(I) Turbo-Superchargers
(J) Miscellaneous Engine Accessories
(K) Aircraft Tires and Tubes
(L) Aircraft Fire Control Equipment, Including Gunnery Fire Control Equipment
(M) Bombing Fire Control Components
(N) Aircraft Alarm and Signal Systems
(O) Aircraft Navigational Instruments
(P) Flight Instruments
(Q) Automatic Pilot Mechanisms and Airborne Gyro Components
(R) Aircraft Engine Instruments

R00 SPECIAL ACTIVITIES
This budget activity includes projects for:
(A) International Military Headquarters
(B) UN Forces Support in Korea
(C) Expenses, Inspector General, Foreign Assistance, State
(D) Studies and Surveys
(E) Weapons Production Projects
(F) Other Special Projects
R10 International Military Headquarters
R20 International Forces Support
This project provides for costs of supporting the United Nations Forces in Korea and of supporting other International Armed Forces under the FMF program. It includes maintenance support of personnel and equipment; major items of equipment; transportation, hospitalization, and other services
R30 Expenses, Inspector General, Foreign Assistance, State. Reserve this project for use by the Department of State
R40 Studies and Surveys
This project is for use only upon specific authorization of OSW
R50 Weapons Production Project
This project provides for:
(A) Technical Assistance
(B) Tools and Equipment
(C) Engineering and Operating Costs Associated with Weapons Production Project Agreements
The Purpose is to:
(A) Establish
(B) Rehabilitate
(C) Expand
(D) Modernize, or
(E) Modify Capacity for:
(1) Manufacture
(2) Maintenance And
(3) Storage of Armaments and Components to Be Furnished Under Weapons Project Agreements
It excludes:

Foreign Military Finance Budget Activity for Special Activities
(A) Real Property
(B) Construction
(C) Indigenous Labor and Materials
(D) License Fees Incidental to Use of a Process
R90 Other Special Activities
This budget activity includes other special projects approved by OSW and HQ DAF not covered elsewhere, including special activities, nonspecific requirements, foreign currency, Military Assistance Advisory Groups (MAAG) support, and load fees.

Foreign Military Finance Budget Activity for Administration
T00 ADMINISTRATION
This budget activity provides for the overall administration, program planning, development, and management of the Foreign Military Financing Program. It includes:
(A) Civilian Salaries and Allowances
(B) PCS Travel and Transportation
(C) TDY Travel and Per Diem
(D) Communications
(E) Rents
(F) Utilities
(G) Contractual Services
(H) Supplies And Materials
(I) Equipment
Note: It excludes military personnel PCS costs
T10 Administrative Expenses, Departmental, Headquarters and Command Training Support Items directed by HQ DAF
This project provides for the costs at the seat-of government and major field commands (in the U.S. and overseas)
T20 Military Mission Expenses (Security Assistance Organization (SAO))
This project provides for the costs at the country, SAO, or mission level. It excludes support costs for SAO training personnel.

N00 TRAINING
This budget activity provides for the costs of FMF training. It includes projects for:
(A) Student Training
(B) Mobile Training Teams
(C) Field Training Services
(D) SAO And Command Training Support
(E) Training U.S. FMF Personnel
(F) Extraordinary Expenses
(G) Other Training Support
(H) Training Aids and Devices
N10 STUDENT TRAINING
This project provides for the costs of foreign student training for:
(A) Training Course Costs at Military or Civilian Institutions in the U.S. and U.S. Facilities Overseas
(B) Observer And on the Job Training at U.S. Military Activities
(C) Orientation Tours to U.S. Facilities
(D) Underway Training Onboard U.S. Naval Vessels

International Military Education and Training (No Year) Budget Activity
(E) U.S.-Sponsored Training in Third Countries
(F) Informational Program Activities
N20 MOBILE TRAINING TEAMS
This project provides for the costs of foreign training conducted by U.S. mobile training teams. It includes:
(A) Civilian Salaries and Allowances

DEPARTMENT OF WAR APPROPRIATIONS

11.1. DoW Appropriations. Beginning with FY20, all funding for DoW appropriations (Treasury Index 97, Account 0516) will be issued using the Enterprise Funds Distribution (EFD) (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** EFD was established to provide full visibility of funds distributed throughout DoW and to streamline and modernize funds distribution systems. EFD will provide the necessary structure for linking Budgeting to Execution, ultimately leading to accurate financial information and reliable financial accountability. The Basic Symbol, Sub-Allocation Holder Code (Limit), and BP/BALI Code are provided in the Defense Finance and Accounting Service (DFAS) Manual 7097.01, *Financial Management Departmental Reporting Manual*. All subsidiary codes, as well as any new codes, are first approved by OSW, followed by DFAS- IN prior to their use in EFD. The individual appropriation listing for **Chapter 11** tables includes a brief description of the appropriation or account content.

11.1.1. Proposed changes should be forwarded to: Director of Defense Finance and Accounting Service - Indianapolis Center ATTN: DFAS-IN/AH, 8899 East 56th Street Indianapolis, IN 46249-2201.

11.1.2. The DFAS-IN/AH point of contact is the Fiscal Code Team. They may be reached via EMAIL at **dfas.indianapolis-in.jab.mbx.dfas-in-fiscal-code@mail.mil**.

11.1.3. The Department of the Air Force at Level 2 is responsible for the following appropriations:

DEPARTMENT OF WAR BASE CLOSURE ACCOUNT

12.1. Department Of War Base Closure Account. This account was established by Public Law 112-239, *National Defense Authorization Act for Fiscal Year 2013*, Subtitle B, Section 2711. This new account consolidated all previous BRAC accounts (Treasury Symbols 97X0510 and 97X0512) into a single account (Treasury Symbol 97X0516) and transferred all unobligated balances into Treasury Account 97X0516. The previous BRAC account limitations are retained in the new account with new fund codes (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** As of 31 December 2013, new obligations may only be charged against the appropriation account (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-0)** Funds in this account may only be used for the purposes specified in Public Law 101-510, Section 2906 and to discharge obligations properly incurred prior to the closure of the previous accounts. Funds for any 97X0516 limit may be used for bases from any BRAC round and are not restricted by the BAANs for each BRAC round as defined by **Table 12.1.**, **Table 12.3.**, **Table 12.5.**, **Table 12.7 and Table 12.9**.

12.2. Title 10 USC § 2687 *Base closures and realignments* . 10 USC § 2687 *Base closures and realignments* authorizes the use of funds to:

12.2.1. Carry out the Department of Defense Environmental Restoration Program and other environmental restoration and mitigation activities at military installations closed or realigned.

12.2.2. Cover property management, disposal, and caretaker costs incurred at military installations closed or realigned under these statutes.

12.2.3. Cover costs associated with supervision, inspection, overhead, engineering, and design of MILCON projects undertaken under these statutes or subsequent claims, if any related to such activities.

12.2.4. Record, adjust, and liquidate obligations properly chargeable to previous BRAC accounts.

12.3. BASE REALIGNMENT AND CLOSURE ACCOUNT (BRAC). The previous rounds of BRAC were consolidated (Public Law 112-239) into one Department of Defense Base Closure account with Treasury account symbol 97X0516. The appropriation listing in **Table 12.4.**, **Table 12.6.**, **Table 12.8, and Table 12.10** includes a brief description of the appropriation or account content.

12.3.1. Pursuant to Public Law 112- 239, Subtitle B, Section 2711, paragraph (b) these accounts (97X0510 & 97X0512) are expired effective on the date of the enactment of FY 2014 NDAA (December 2013). All unobligated and unliquidated funds are transferred to a new account whose Treasury symbol will be 97X0516. As of the effective date, new obligations may only be charged against the new appropriation code. Previously used Fund Codes and Limits will be continued with the new appropriation code and are shown at **Table 12.2**.

12.3.2. The budget project structure for the BRAC account is detailed in DFAS Manual 7097.01. Budget Activities (BAs) define the purpose, projects or types of activities financed within the appropriation. BAs are listed below and are used in position one of the budget

project number. BAANs are used to identify installations or recommendations for each round. BAANs are listed below and are used in positions 8-9. The BAAN values and descriptions are also found in the FMDD on the Financial Management Data Quality Service (FMDQS) website, **https://fmdqs.cce.af.mil/home?3**.

MISCELLANEOUS DOW ACCOUNTS

13.1. Air Force Working Capital Funds (AFWCF). Officially established in FY92, the AFWCF (previously titled the Defense Business Operations Fund) is an expansion of the revolving fund concept to a larger number of Defense Support functions. AFWCF captures all costs of an operating business area and reflects the total cost of doing business in stabilized prices and rates charged to customers. The primary goal is to provide a management structure that allows DoW managers to provide the best support at the lowest cost while enabling customers to reassess their operational requirements in light of total costs.

13.1.1. CONSOLIDATED SUSTAINMENT ACTIVITY GROUP (CSAG). The Air Force CSAG was established effective October 1, 2008, under the authority of Title 10 United States Code Section 2208, *Working-capital funds*. The mission of the CSAG is supply management of reparable, some consumable items, and maintenance activities. CSAG combines the activities of the operations formerly known as Material Support Division (MSD) of the Supply Management Activity Group, and the Depot Maintenance Activity Group (DMAG). The appropriation listing in **Table 13.1** includes a brief description of the appropriation or account content.

13.1.2. Under CSAG, business operations formerly known as DMAG and MSD are now referred to as Maintenance Division (MD) and Supply Division (SD), respectively.

Table 13.1. Air Force Working Capital Funds, CSAG.

97X4930.FA23	6R	CSAG-MD AMARG
97X4930.FC04	64	Consolidated Sustainment Activity Group – Supply

13.1.2.1. CSAG-MD. Maintenance Division activities are authorized to perform.

13.1.2.1.1. Overhaul, conversion, reclamation, progressive maintenance, modernization, software development, storage, modification, and repair of aircraft, missiles, engines, accessories, components, and equipment.

13.1.2.1.2. The manufacture of parts and assemblies required to support the foregoing.

13.1.2.1.3. The furnishing of other authorized services or products for the Air Force and other agencies of the Department of Defense. As directed by the Air Force Materiel Command or higher authority, the Maintenance Division may furnish the above mentioned products or services to agencies of other departments or instrumentalities of the U.S. Government, and to private parties and other agencies, as authorized by law. **Note**: Contract Depot Maintenance activity was discontinued as of 1 October 2008. The following limits and fund codes are no longer available for use: OC-ALC

(Contract), limit FA24, fund code 6S; OO -ALC (Contract), limit FA25, fund code 6U; and WR-ALC (Contract), limit FA21, fund code 6P (applies to the entire DAF, including DAF civilian employees and uniformed members as outlined in the Purpose). **(T-1)**

13.1.2.2. Consolidated Sustainment Activity Group – Supply. Supply Division activities are authorized to procure and manage reparable and consumable items for which the Air Force is the Inventory Control Point. These items are generally related to weapon systems and ground support and include both depot level reparable items and non-depot level reparable. CSAG-S items are identified as budget code 8.

13.1.3. SUPPLY MANAGEMENT ACTIVITY GROUP – RETAIL (SMAG – R). The Supply Management Activity Group– Retail (SMAG-R) was established effective October 1, 2008, under the authority of 10 USC § 2208. The SMAG-R manages inventory items including weapon system spare parts, medical-dental supplies and equipment, and other supply items used in non-weapon system applications. The appropriation listing in **Table 13.2** includes a brief description of the appropriation or account content.

97X4930.FC0B	6B	Medical-Dental Division (MDD)
97X4930.FC03	63	Air Force Academy Division (AFA)

13.1.3.1. General Support Division (GSD). The GSD finances the Air Force retail inventory and issues requirements for all non-Air Force managed economic order quantity (EOQ) items other than those pertaining to peculiar medical, commissary, and fuels requirements. GSD items support installation, maintenance, administrative functions, field and depot maintenance of aircraft, ground and airborne communication and electronic systems, and other sophisticated systems and equipment. GSD items are identified as budget code 9.

13.1.3.2. Medical-Dental Division (MDD). The Medical-Dental Division (MDD) procures and manages retail inventory of medical supplies and equipment necessary to maintain an effective Air Force Health Care system for active military, retirees, and their dependents. MDD is also responsible for purchasing and maintaining inventory/assets funded by the WRM appropriation. The WRM is needed for war fighter deployment or contingency operations.

13.1.3.3. Air Force Academy Division (AFA). The Air Force Academy Division (AFA) procures and manages retail inventory of uniforms, academic supplies and other recurring issue requirements for the Cadet Wing of the United States Air Force Academy. Inventory procurement is only for mandatory items.

13.1.4. USTRANSCOM TWCF. USTRANSCOM TWCF transferred from Defense Logistics Agency Defense – Wide Working Capital Fund responsibility to Air Force in FY98. USTRANSCOM provides air, land, and sea transportation for DoW, both in time of peace and war. As a unified command, USTRANSCOM exercises combatant command and peacetime management over the common-user aspects of the global mobility network and executes this responsibility via its Transportation Component Commands, AMC, the Military Sealift Command (MSC), United States Army Transportation Command (ARTRANS), and the Defense Courier Division. The appropriation listing in **Table 13.3** includes a brief description of the appropriation or account content.

97X4930.FD20	E2	MSC

13.1.4.1. Defense Courier Division accounts for global network of courier stations responsible for secure custody and/or rapid transfer of highly classified and/or sensitive national security materials.

13.1.4.2. ARTRANS. Accounts for traffic management, land transportation, common-user ocean terminals and intermodal container management during peacetime and war for freight movement, personal property shipment, and passenger traffic worldwide. ARTRANS also has responsibility for intermodal surface transportation and peacetime long-term and voyage charters.

13.1.4.3. AMC. AMC provides support for service unique, strategic, and theater airlift requirements.

13.1.4.4. MSC. Accounts for sealift services and/or support for DoW for both emergent and peacetime requirements.

13.2. Space Force Working Capital Funds (WCF). Directed by the FY 2018 National Defense Authorization Act, the Commercial Satellite Communications Office (CSCO) transitioned from the Defense Information Systems Agency (DISA) to Air Force Space Command (AFSPC) and later to the United States Space Force (USSF). As a part of that transition, (DAF) establishment of the Enterprise Space Activity Group (ESAG) as a new activity in FY26 within the existing AFWCF.

13.2.1. Enterprise Space Activity Group (ESAG). Combines Commercial Satellite Communications (COMSATCOM) and Enhanced Mobile Satellite Services (EMSS) Programs into a single activity group comprised of the two divisions. The appropriation listing in **Table 13.4** includes a brief description of the appropriation or account content.

13.2.1.1. COMSATCOM. Provides a comprehensive and fully integrated common and shared service to customers through activities such as but not limited to market research; developing and testing products and services; customer outreach; tracking and forecasting trends; lifecycle acquisition services; technical and trouble-ticketing support at the globally distributed Regional Satellite Support Centers (RSSCs); and other related functions and best business practices.

13.2.1.2. EMSS. Awards centralized contracts that together provide shared access to the contracted commercial space segment for its voice and data offerings, a shared government-owned and controlled gateway/ground segment (e.g., inclusive of operations and maintenance of ground stations and EMSS-unique enhancements to the standard contracted commercial service offering), 24/7 customer care support, an online ordering portal for customers to make equipment purchases and activate/de-activate devices, customer billing and data reports, and other related and integral services and functions related to the business.

13.3. Defense Emergency Response Fund. This fund is used, by DoW, in anticipation of requests from federal departments and agencies, and state and local governments for assistance to natural or manmade disasters. These funds are distributed on a reimbursable basis. This fund has been dormant since 11 September 2001, when existing funds were moved, and additional funds appropriated to 97X0833. Terms

Accounting—(1) The science of recording, classifying, summarizing (reporting), verifying, analyzing, and interpreting the economic data of a business, governmental, or other social-group enterprise or undertaking for the purpose of promoting effective control and administration. (2) The art of applying this science includes assisting the executive to make management decisions in exerting control over operations. (3) The rendition of a report by an operating executive at any level showing economic data evidencing the executive's performance in discharging assigned responsibilities. See also accountability in JCS Publication 1.

Airmen—Includes uniformed service members and DAF civilians.

Air National Guard—Also known as the Air Guard, is a federal military reserve force as well as the militia air force of each U.S. state, the District of Columbia, the Commonwealth of Puerto

Rico, and the territories of Guam and the U.S. Virgin Islands. Primary mission is to provide the Air Force with combat-ready reserve air forces (Title 10) as well as protecting and supporting their respective states.

Allocation—A funding document issued by SAF/FMB to a MAJCOM/FLDCOM or separate operating agency, which represents cash for commitment or obligation.

Allotment—This is similar to an allocation except that it is issued by a MAJCOM/FLDCOM or separate operating agency to subordinate units.

Apportionment—A "slice" of an appropriation given to a federal department by the Office of Management and Budget (OMB). This slice may be all or only part of the dollars appropriated. An apportionment is an allocation at departmental level and represents the amount that can be committed or obligated, regardless of the amounts shown in the appropriation or financial plan.

Appropriated Funds—This is obligational authority made available by an act of the Congress (appropriations) and distributed for use through the apportionment and allocation processes.

Appropriation—A fund authorization setup by an act of the Congress, which permits a department or other governmental agency to obligate the federal government to pay for goods or services. Appropriations may last for different periods of time.

Appropriation Language—The published text of an appropriations act in which the Congress spells out the dollar amounts authorized and the purposes for which those funds can be used. The text may contain certain limitations on the use of the funds.

Authorization Act—An act of the Congress giving authority to buy certain things when the appropriations also are made available by the Congress.

Base Realignment and Closure—The previous rounds of BRAC were consolidated on 31 December 2013 (Public Law 112-239) into one Department of War Base Closure account with Treasury account symbol 97X0516, but the account is still known as the BRAC account.

Budget Authority—Authority provided by the Congress, mainly in the form of appropriations, which allows federal agencies to incur obligations. Budget Authority is composed of new obligational authority, defined below, plus loan authority (which is authority to incur obligations for loans, for example, debt payment and mortgages for military family housing).

Budget Year—The FY covered by the budget estimate. A budget year begins 1 October and ends 30 September of the following calendar year. It is used by the federal government for accounting purposes and is frequently referred to as "BY."

Commitment—An accounting procedure whereby funds are administratively earmarked for something to be bought in the near future. This procedure precedes obligation actions, and normally is based on firm procurement directives, orders, requisitions, or requests.

Defense Working Capital Fund (DWCF)—The DWCF, as implemented on 11 December 1996, is essentially a consolidation of two categories of revolving funds (stock funds and industrial funds) used in the Department of War (DoW) since the 1950s. DWCF business areas sell goods and services to their customers, the majority of which are DoW operating forces. Within the Air Force, DWCF business areas include Transportation (excluding common user functions assigned to the U.S. Transportation Command), Depot Maintenance, and Supply Management. There are several Divisions within the business areas.

Expenditure—Actual payment for services or goods received.

Financial Management Data Quality Service (FMDQS)—The Department of the Air Force Financial Management DQS is the Authoritative Data Source (ADS) for Department of the Air Force financial programming/execution/reporting data element code values, titles, descriptions and period of availability. FMDQS provides both current and historical data values. The FMDQS is updated by the data owner/steward. For FM Budget codes listed in DAFMAN 65-604, SAF/FMB is considered the data steward. Access to FMDQS is available at the following website: **https://fmdqs.cce.af.mil/home?3**.

Fiscal Guidance—Annual guidance issued by the Secretary of War, which provides the fiscal constraints that must be observed by the Joint Chiefs of Staff, the military departments, and Defense agencies, in the formulation of force structures and Future Years Defense Programs, and by the Secretary of War staff in reviewing proposed programs.

Fiscal Year—The 12 month period which begins 1 October of any one year and ends 30 September of the next.

Host Nation—A nation that receives the forces and/or supplies of allied nations, coalition partners, and/or NATO organizations to be located on, to operate in, or to transit through its territory.

Industrial Fund—A type of financing mechanism established (with congressional authorization) by an agency as a source of funds for businesslike activities such as printing, transportation, and maintenance services. The proceeds from sales are retained in the Fund to finance continuous operation. It is considered a revolving fund. See DWCF.

Investment Cost—the costs that result in the acquisition of, or an addition to, end items. These costs benefit future periods and generally are of a long-term character such as real property and personal property.

Level 2—Department of the Air Force Level (DoW is Level 1).

Limits—Statutory and other special restrictions, which impose a restriction on the availability of funds or the authority to obligate or expend appropriations for certain objects or purposes.

Milestone A—Milestone Decision Authority (MDA) led review at the end of the Materiel Solutions Analysis (MSA) Phase in the Defense Acquisition Process. Its purpose is to make a recommendation or seek approval to enter the Technology Maturation & Risk Reduction (TMRR) Phase.

Milestone B—Milestone Decision Authority (MDA) led review at the end of the Technology Maturation & Risk Reduction (TD) Phase in the Defense Acquisition Process. Its purpose is to make a recommendation or seek approval to enter the Engineering and Manufacturing Development (EMD) Phase.

Milestone C—Milestone Decision Authority (MDA) led review at the end of the Engineering and Manufacturing Development (EMD) Phase of the Defense Acquisition Process. Its purpose is to make a recommendation or seek approval to enter the Production and Deployment (PD) Phase.

New Obligational Authority (NOA)—The amount the Congress appropriates for agency use over and above earlier appropriations and other funds the agency may have or expects to have from other sources.

Obligation—The estimate or actual amount of the cost of services or articles ordered. This estimate is carried in official accounting records, and serves as the basis for reserving funds, pending completion of a contract or purchase action. This reservation of funds is required by public law.

Program Year—A FY in the Future Years Defense Program that ends no earlier than the second year beyond the current calendar year. Thus, during calendar year 2027 the first program year is FY 2029.

Pseudo—An additional/imitation account set up under the parent appropriation.

Real Property—Lands, buildings, structures, utilities systems, improvements, and appurtenances, thereto that includes equipment attached to and made part of buildings and structures, but not movable equipment.

Resource Management Decision—A Secretary of Defense or Deputy Secretary of Defense decision authorizing changes to a submitted budget estimate and the Future Years Defense Program. The Resource Management Decision document records the final decisions on POM proposals and approves Department of Defense component POM, as modified by decisions.

Revolving Fund—A fund established to finance a cycle of operations to which reimbursements and collections are returned for reuse in a manner such as will maintain the principal of the fund, e.g., working capital funds, industrial funds, and loan funds. See Defense Working Capital Fund.

Sales Code—a three-position alphanumeric code used to reflect the sources from which collections are derived.

Standard Financial Information Structure (SFIS)—A comprehensive "common business language" that supports information and data requirements for budgeting, financial accounting, cost/performance management, and external reporting across the DoW enterprise. SFIS standardizes financial reporting across DoW, thereby reducing the cost of auditability. It allows revenues and expenses to be reported by programs that align with major goals versus by appropriation categories. It enables decision-makers to efficiently compare programs and their associated activities and costs across DoW, and it provides a basis for common valuation of DoW programs, assets, and liabilities.

Stock Fund—See Supply Management Activity Group.

Supply Management Activity Group—(formerly Stock Fund) A revolving fund established to finance costs of inventories of supplies. It is authorized by specific provision of law to finance a continuing cycle of operations. Reimbursements and collections derived from such operations are available for use by the fund, without further action by the Congress. Also referred to as Supply Business Activity. See Defense Working Capital Fund.

Unliquidated Obligation—An obligation for which payment has not been made.

Unobligated Balance—The portion of available funds which has not been obligated.
