This supplement implements and extends the guidance of Department of the Air Force Manual (DAFMAN) 32-7002, *Environmental Compliance and Pollution Prevention,* and it is consistent with Department of the Air Force Instruction (DAFI) 32-7001, *Environmental Management.* This publication applies to all civilian employees and uniformed members of the Regular Air Force, the Air Force Reserve (AFR), the Air National Guard (ANG), the United States Space Force (USSF), and those with a contractual obligation to abide by the terms of DAF publications. This publication may be supplemented at any level, but all supplements must be routed to OPR for coordination prior to certification and approval. Requests for waivers must be submitted to the OPR listed above for consideration and approval. Ensure that all records created as a result of processes prescribed in this publication adhere to Air Force Instruction (AFI) 33-322, *Records Management and Information Governance Program*, and are disposed of in accordance with (IAW) the Air Force Records Disposition Schedule, which is located in the Air Force Records Information Management Records Management System.

## *SUMMARY OF CHANGES*

This document has been substantially revised and should be completely reviewed. Changes include training requirements for hazardous materials monitors, updated EESOH-MIS receiving requirements, removal of DD Form 2875 to obtain EESOH-MIS access and replace with SailPoint instructions, contract award requirements for hazardous materials, AF Form 3952 Chemical Hazardous Material Request Authorization form, Environmental Shop level checklist will become an inspectable item, quarterly EESOH-MIS audit added, and Red Dot requirements.

**2.15. The Civil Engineer-Installation Management Flight, Environmental Element (CEIE) Environmental Management Office (Installation Environmental Element).**

2.15.16.1. **(Added)** Ensures Proper application and use of Environmental Shop level checklist in MICT during shop-level inspections.

2.15.16.2. **(Added)** Inspects for hazardous material disposition records during shop-level inspections.

**2.18. (Added) Hazardous Material Monitors**

2.18.1. **(Added)** A primary and alternate shall be appointed for each HTA and shop.

2.18.2. **(Added)** If hazardous materials are used during shift work, the owning organization must ensure processes and/or personnel are in place to adequately track materials in accordance with DAFMAN 32-7002, section 3.3.2 and this supplement.

3.2.3. **HMMP Teams**

3.2.3.1. **(Added)** All supervisors who utilize EESOH-MIS, HTA Monitors, and UECs are required to take WESS071 Hazmat Tracking Activity (HTA) Management through AFIT within 90 days of appointment or the next available training.

3.2.3.2. **(Added)** All hazardous materials monitors, in non-supervisory positions, are required to complete WESS070 Hazardous Materials Management Seminar within 90 days of appointment.

**3.3. Installation HM Management Guidance and Procedures**

3.3.2.3.1. **(Added)** All hazardous materials obtained outside of the standard base supply system (SBSS), to include material purchased through contract, will utilize the Government-wide Purchase Card (GPC) module for EESOH-MIS tracking. Inventory will be created in EESOH-MIS against the GPC approval document number and labels attached to material to ensure compliance.

3.3.2.5.1. **(Added) Red Dot Program.** Expired hazardous materials are approved for alternative use in non-aerospace applications which are non-critical and non-tactical IAW DoD Manual 4140.27, Volume 1, *DoD Shelf-Life Management Program: Program Administration*. Expired hazardous materials for alternative use shall be conspicuously marked with a red dot on the container, segregated from active inventory.

3.3.2.5.2. **(Added)** The Batch Lot Number recorded in EESOH-MIS of all hazardous materials in the Red Dot Program shall be changed to "RED DOT."

3.3.2.5.3. **(Added)** RED DOT material must be visually inspected annually and annotated on DD Form 2477-3 *Shelf-Life Extension Notice*. **NOTE: EXTENSION FIELD IS TO BE LEFT BLANK.**

3.3.2.5.4. **(Added)** RED DOT material greater than 2 years past expiration date must be dispositioned if it does not meet material serviceability requirements.

3.3.2.5.5. **(Added)** Failure to properly maintain alternative use hazardous materials will result in removal of RED DOT Program for owning organization.

3.3.3.2.1.7. **(Added)** Track hazardous materials by container number with the EESOH-MIS barcode label attached to the original container. Label must not cover identifying information, pictograms, and/or hazard statements.

3.3.3.2.1.8. **(Added)** Quarterly inventory audits shall be completed through a 100% inventory scan to confirm electronic and physical inventory accuracy. Inventory submission must be in .CSV format when uploading reports into EESOH-MIS. Discrepancies in the audit report must be corrected for the audit to be completed.

3.3.3.2.1.9. **(Added)** Upon receiving material, a storage location must be assigned for each container.

3.3.3.2.1.10. **(Added)** Process authorization review shall be completed annually no later than 31 January. Materials no longer used within the shop must be removed from processes.

3.3.3.2.1.11. **(Added)** Physical and electronic Safety Data Sheets (SDS) must be updated annually, no later than 31 January. Physical SDS books need most current SDS. Electronic SDSs need to be updated to the most current within EESOH-MIS for materials in shop inventory.

3.3.3.2.7. **(Added)** The Contracting Officer's Representative (COR) shall collect and verify monthly contractor hazardous material records, and the sponsoring unit's Unit Environmental Coordinator (UEC) shall track and enter these materials in a short-term contractor shop associated with the owning organization in EESOH-MIS.

3.3.3.2.7.1. **(Added)** Short-term contractors shall submit all monthly environmental and hazardous material records to the COR no later than the 4th day of the month following the reporting period. The COR shall forward these records to the unit UEC within three (3) business days of receipt.

3.3.3.2.8. **(Added)** Long-term contractors (defined as contracts exceeding 6 months in duration) shall directly track and manage their materials in EESOH-MIS. The COR shall verify compliance during routine contract performance evaluations.

FENCISCO N. HARRIS, Colonel, USAF
Commander, 72 ABW
