SUMMARY OF CHANGES

This document has been substantially revised and must be completely reviewed. Major changes include the K&E listing and residency regulations.

2.20.3.1. **(Added)** Personnel assigned to K&E, command, or special command positions will be required to reside on the installation due to military necessity, operational requirements, and as a condition of employment or assuming the position. K&E and Command housing may be held vacant for 90 days pending the arrival of incumbent. If the K&E personnel has been identified but will not arrive within the 90 days, the project owner will attempt to extend the 90 days an additional 30 days, however, the project owner has the option to lease the unit to the next available tenant on the waiting list. (The Project Owner, in coordination with the Wing Commander (or designee), may assign a member, other than the intended occupant, to a designated housing unit). Assigned members acknowledge, in writing, they may be required to relocate at government expense to other on-base housing or off-base housing compatible with their grade and bedroom requirement when the on-base housing is required by designated incumbent.

2.20.3.2. **(Added)** In addition, the following positions are designated K&E without specific units to allow the project owner to house them in an appropriate unit per their rank and bedroom entitlement. When housing is not immediately available, K&E personnel will be placed at the top of the appropriate waiting list and will be offered the next available unit without displacing members with a firm housing commitment.
